

Contents

Foreword	v
Preface	vii
Acknowledgements	ix
Contributors	xiii
Chapter 1	
Basic anatomy and physiology <i>Fidelis T. Akagbosu</i>	1
Chapter 2	
Basic semen analysis <i>Bryan Woodward</i>	7
Chapter 3	
Sperm morphology reference values <i>Thinus F. Kruger, Danie Franken</i>	21
Chapter 4	
Culture media constituents <i>Jayant G. Mehta</i>	25
Chapter 5	
Sperm preparation: swim-up and density gradient centrifugation <i>Jaffar Ali</i>	37
Chapter 6	
Sperm function tests <i>Amjad Hossain, Ashok Agarwal</i>	45
Chapter 7	
Antisperm antibodies and immunological infertility <i>Jennifer E. Reifsnyder, Ranjith Ramasamy</i>	51
Chapter 8	
Causes and effects of poor semen quality <i>Jonathan Ramsay</i>	57
Chapter 9	
Treatment options arising from different semen analyses <i>Natarajan Pandiyan, D. Ramesh Raja, Radha Pandiyan</i>	65
Chapter 10	
Other factors to consider with sperm preparation for treatment <i>Tim M. Dineen, Bryan Woodward</i>	71
Chapter 11	
Preparing sperm from surgical retrieval <i>Sue Montgomery</i>	81

Chapter 12	
Retrograde ejaculation	89
<i>Thomas R. Aust, Iwan Lewis-Jones</i>	
Chapter 13	
Sperm cryobanking and oncology	93
<i>Greta Verheyen</i>	
Chapter 14	
Nurse-led insemination programs	103
<i>Wendy Norton</i>	
Chapter 15	
New developments	111
<i>Markus H. M. Montag</i>	
Chapter 16	
Sperm and legal aspects	119
<i>Julius Hreinsson</i>	
Chapter 17	
Sex selection of sperm	125
<i>Andrew D. Dorfmann</i>	
Appendix	131
Index	133
