Preface	v
Contributors	xi
Introduction <i>Karel Bakker</i>	xvii

SECTION 1: GENERAL ASPECTS

Chapter 1 Epidemiology of diabetic foot disease and etiology of ulceration <i>Jan Apelqvist</i>	3
Chapter 2 Diabetic foot assessment and classification of risk <i>David G. Armstrong, Nicholas A. Giovinco, Magdiel Trinidad-Hernandez</i>	11
Chapter 3 Setting up a diabetic foot service <i>Abdul Basit</i>	21
Chapter 4 Economic aspects of foot care <i>Marion Kerr</i>	27
Chapter 5 Medical therapy and metabolic control to optimize cardiovascular risk and reduce overall mortality <i>Jack R. W. Brownrigg, Kausik K. Ray</i>	33
Chapter 6 Psychological aspects of diabetes-related foot disease <i>George Peach, Robert J. Hinchliffe</i>	39
Chapter 7 Diabetes self-management education for the preservation of patient and foot health and the prevention of foot ulcers and amputations <i>Kristien Van Acker, Neil Baker</i>	45

SECTION 2: INFECTION

Chapter 8 Managing infection in the diabetic foot <i>Edgar J. G. Peters, Benjamin A. Lipsky</i>	57
Chapter 9 Diabetic foot osteomyelitis: diagnosis and classification <i>Eric M. Senneville</i>	69
Chapter 10 Osteomyelitis: medical management <i>John M. A. Embil, Elly Trepman</i>	75
Chapter 11 Osteomyelitis: surgical management <i>F. Javier Aragón Sánchez</i>	79

SECTION 3: ISCHEMIA

Chapter 12	
Peripheral arterial disease in diabetes	95
<i>Carlos H. Timaran, David E. Timaran</i>	
Chapter 13	
Microvascular disease	101
<i>Sanjeev Sharma, Gerry Rayman</i>	
Chapter 14	
The diagnosis of peripheral arterial disease	111
<i>Patrick Coughlin</i>	
Chapter 15	
Imaging of peripheral arterial disease	117
<i>Gerard S. Goh</i>	
Chapter 16	
Angiosomes	129
<i>Neil C. Wright, Robert Fitridge</i>	
Chapter 17	
Distal bypass techniques	137
<i>Himanshu Verma, Robbie K. George, Ramesh K. Tripathi</i>	
Chapter 18	
Angioplasty techniques	153
<i>Ezio Faglia, Giacomo Clerici, Flavio Airoidi</i>	
Chapter 19	
Outcomes of angioplasty and bypass in diabetes	171
<i>Robert J. Hinchliffe, Keith G. Jones, Rachael O. Forsythe</i>	

SECTION 4: NEUROPATHY

Chapter 20	
Pathobiology of neuropathy	183
<i>Ketan Dhatariya</i>	
Chapter 21	
The diagnosis and clinical impact of diabetic distal symmetrical polyneuropathy	193
<i>Nicolaas C. Schaper, Solomon Tesfaye</i>	
Chapter 22	
Surgical treatment of diabetic neuropathy	201
<i>A. Lee Dellon</i>	

SECTION 5: WOUNDS AND ULCERATION

Chapter 23	
Acute and chronic wound healing biology in diabetes	209
<i>Michelle Griffin, Ardeshir Bayat</i>	
Chapter 24	
Scoring systems and assessment of the ulcerated foot	223
<i>Fran Game</i>	
Chapter 25	
Wound dressings and debridement	231
<i>Elizabeth J. Mudge, Alastair J. Richards, Keith G. Harding</i>	
Chapter 26	
Adjuncts to wound healing	243
<i>Magnus Löndahl</i>	

Chapter 27	
Standardization of outcomes and end points of wound healing in everyday practice and clinical trials	251
<i>Finn Gottrup</i>	

SECTION 6: SURGICAL INTERVENTION

Chapter 28	
Surgical anatomy of the foot	259
<i>Adam Ajis</i>	

Chapter 29	
Surgical debridement	267
<i>Peter Vowden, Soroush Sohrabi</i>	

Chapter 30	
Skin and local tissue flaps	273
<i>Crystal L. Ramanujam, John J. Stapleton, Thomas Zgonis</i>	

Chapter 31	
Free tissue transfer	283
<i>Joon Pio Hong</i>	

SECTION 7: CHARCOT

Chapter 32	
The causes and diagnosis of acute Charcot foot in diabetes	297
<i>William Jeffcoate</i>	

Chapter 33	
Charcot osteoarthropathy: medical management and off-loading	303
<i>Valeria Ruotolo, Luigi Uccioli</i>	

Chapter 34	
Charcot osteoarthropathy: surgical management and off-loading	311
<i>Katherine M. Raspovic, Dane K. Wukich</i>	

SECTION 8: AMPUTATION

Chapter 35	
Minor amputation and major amputation	321
<i>Yiu-Che Chan, Stephen W. Cheng</i>	

Chapter 36	
Rehabilitation post-amputation	333
<i>S. Sooriakumaran</i>	

SECTION 9: BIOMECHANICS AND PREVENTION

Chapter 37	
Off-loading	345
<i>Martin C. Berli, Thomas Böni</i>	

Chapter 38	
Prevention of ulcer recurrence	353
<i>Sicco A. Bus</i>	

Chapter 39	
Preventive foot care programs	361
<i>Zulfiqarali G. Abbas</i>	

Index	369
