Preface	v
Contributors	xi

Topics	Page
1 Abdominal trauma	1
2 Abnormal fracture healing	6
3 Acute respiratory distress syndrome	9
4 Aeromedical evacuation and retrieval	12
5 Anaesthesia	16
6 Analgesia	19
7 Ankle injuries	22
8 Antibiotic therapy and infection control	26
9 Anticoagulation and thromboembolism	29
10 Asphyxiation	32
11 Bariatric trauma	35
12 Blast trauma	38
13 Blood product (1:1:1) resuscitation	42
14 Blunt and penetrating cardiac trauma	45
15 Brachial plexus injuries	49
16 Brain stem death and organ donation	53
17 Burns	58
18 <C>ABCDE resuscitation	63
19 Cervical spine injuries	66
20 Chemical, biological, radiological and nuclear environments and trauma	71
21 Commonly missed injuries	75
22 Compartment syndrome	80

23	Damage control resuscitation and surgery	83
24	Elbow injuries	86
25	Epidemiology of trauma	93
26	Fat embolism syndrome	96
27	Foot fractures – hindfoot	99
28	Foot fractures – midfoot and forefoot	103
29	Fracture classifications	107
30	Fragility fractures	110
31	Genitourinary trauma	114
32	Gunshot injuries	118
33	Hand injuries	122
34	High-pressure injection injuries	126
35	Hip fractures and dislocations	129
36	Human and animal bites	132
37	Imaging in trauma – CT	135
38	Imaging in trauma – interventional radiology	138
39	Imaging in trauma – MRI	141
40	Imaging in trauma – ultrasound	144
41	Immediate trauma care in sport	147
42	Injuries of the thoracic, lumbar and sacral spine	150
43	Intraosseous access	154
44	Intravenous fluids – colloids	157
45	Intravenous fluids – crystalloids	161
46	Intravenous fluids – starches	164
47	Lethal triad	168
48	Long-bone fractures	171
49	Lyophilised plasma in trauma resuscitation	176
50	Maxillofacial and dental injuries	179

51	Metabolic response to trauma	182
52	Microbiological considerations	185
53	Mild traumatic brain injury	188
54	Moderate-to-severe brain injury	191
55	Mortality patterns	195
56	Near infrared spectroscopy	198
57	Neonatal trauma	202
58	Nonaccidental injury	205
59	Nutrition in trauma and burns	208
60	Ophthalmic injury	211
61	Paediatric trauma	215
62	Pathological fractures	219
63	Pelvic trauma	222
64	Penetrating neck injury	227
65	Peripheral nerve injuries	230
66	Pregnancy and trauma	233
67	Prehospital blood product resuscitation	236
68	Psychological aspects of trauma	239
69	Recombinant factor VIIa	242
70	Rehabilitation	244
71	Resuscitative balloon occlusion of the aorta	248
72	Road traffic collisions	251
73	Selective nonoperative management of penetrating abdominal injuries	254
74	Sexual violence	257
75	Shock	260
76	Shoulder, clavicle and proximal humerus fractures	264
77	Soft tissue knee injuries	270

78	Spinal cord injury without radiological abnormality	273
79	Splintage	276
80	Systemic inflammatory response syndrome	279
81	Tertiary survey	282
82	Therapeutic hypothermia	285
83	Thoracic trauma	288
84	Topical haemostatic dressings	292
85	Tourniquets	295
86	Tranexamic acid	298
87	Trauma scoring	300
88	Traumatic amputation	304
89	Traumatic cardiac arrest	308
90	Triage	312
91	Vascular injuries	315
92	Viscoelastic assessment of coagulation in trauma	318
93	Wrist and carpal injuries	321
	Index	327
