

Contents

1. History, Neurological Examination and Equipment -----	1
2. Cranial Nerves: General -----	19
3. First Cranial Nerve: Olfactory Nerve -----	25
4. Second Cranial Nerve: Optic Nerve -----	27
5. Fundus -----	33
6. Third, Fourth and Sixth Cranial Nerves: Oculomotor, Trochlear and Abducens -----	37
7. Nystagmus -----	43
8. Fifth Cranial Nerve: Trigeminal Nerve -----	47
9. Seventh Cranial Nerve: Facial Nerve -----	51
10. Eighth Cranial Nerve: Auditory and Vestibular Nerve -----	55
11. Ninth and Tenth Cranial Nerves: Glossopharyngeal and Vagus Nerves -----	59
12. Eleventh Cranial Nerve: Accessory Nerve -----	61
13. Twelfth Cranial Nerve: Hypoglossal Nerves ---	63
14. Motor System: General -----	65
15. Motor System: Tone -----	71
16. Motor System: Arms -----	75

17. Motor System: Legs -----	81
18. Motor System: Reflexes -----	87
19. Basic Principles of Examination of Sensation -----	103
20. Posture and Gait -----	111
21. Involuntary Movements-----	117
22. Speech -----	125
23. Frontal Parietal Lobe and Clinical Syndromes with Specific Areas of Cerebral Cortex -----	133
24. The Autonomic Nervous System -----	141
25. Electroencephalography and Peripheral Electrophysiology -----	147
26. Cerebrospinal Fluid, Biopsy and General Medical Investigation-----	169
27. Neuroepidemiology -----	181
28. Neuroradiology and Imaging -----	185
29. Neurorehabilitation-----	207
30. Neurogenetics -----	215
31. Examination of Consciousness, Brain Death, Coma, Sleep and Sleep Disorders -----	219
<i>Index</i> -----	241
