History and Examination	3
1. Neonatology	11
Neonatal examination	13
• Low birth weight baby	23
• Neonatal convulsions	27
• Neonatal respiratory distress	33
• Neonatal jaundice	40
• Neonatal sepsis or septicemia	47
• Neonatal vomiting	49
• Neonatal bleeding	53
• Neonatal anemia	56
• Neonatal crying	57
• Neonatal cutaneous lesions	58
2. Growth and Development	59
Assessment of Growth and Development	61
• Underweight and failure to thrive	64
• Overweight or obesity	67
• Short stature	68
• Tall stature	72
• Small head	73
• Large head	74
• Delayed motor development	76
• Mental retardation	77
3. Nutrition	81
Assessment of nutritional status	83
• Protein calorie malnutrition	88
• Rickets	91
4. Infections	97
Classifications of infections	99
• Acute fever (Short febrile illness)	100
• Prolonged fever	104
• Skin rashes (exanthems)	107
• Parotid swelling	114
• Lymphadenopathy	116
• Weight loss and cachexia	119
• Arthritis	120

5. Neurology	127
Neurological examination	129
• Comatose child	133
• Convulsions	141
• CNS infections	149
• Acute paralysis	154
• Floppy infant	161
• Spastic infant	165
• Progressive motor weakness	167
• Movement disorders	171
• Neurocutaneous syndromes	177
6. Cardiovascular System	179
Cardiovascular examination	181
• Congenital heart disease	183
• Acute rheumatic fever	195
• Chronic rheumatic heart disease	198
• Cardiac infections	203
• Cardiomyopathy	207
• Congestive heart failure	209
• Circulatory failure (shock)	212
• Cardiac arrhythmias	214
7. Respiratory System	221
Respiratory system examination	223
• Upper respiratory presentations	226
• Cough	232
• Stridor (Upper airway obstruction)	240
• Wheezing	244
• Respiratory distress	251
• Recurrent chest infection	262
8. Digestive System	269
Abdominal examination	271
• Refusal of feeding	273
• Vomiting	276
• Abdominal pain	278
• Diarrhea	283
• Constipation	294
• Gastrointestinal bleeding	295
• Abdominal enlargement	298
• Hepatic and splenic enlargement	304
• Jaundice	315

9. Urinary System	317
Urinary diseases	319
• Dark urine	320
• Edema	326
• Dysuria	330
• Polyuria	332
• Enuresis	334
• Hypertension	336
• Renal failure	340
10. Hematology	345
• Anemias	347
• Purpura	358
• Coagulation disorders	365
11. Common Malignancies	371
Common malignancies	373
• Leukemias	374
• Lymphomas	377
• Brain tumors	380
• Neuroblastoma	384
• Wilms tumor (Nephroblastoma)	387
• Rhabdomyosarcoma	388
• Retinoblastoma	389
12. Endocrinology	391
• Diabetes mellitus	393
• Hypothyroidism	397
• Adrenocortical disorders	399
• Intersex (Hermaphroditism).	402
• Precocious puberty	405
13. Genetic Disorders	407
Genetic disorders	409
• Chromosomal disorders	411
• Metabolic diseases	416
14. Psychological Disorders	425
• Eating disorders	427
• Sleep disorders	428
• Habit disorders	429
• Anxiety disorders	430
• Mood disorders	432
• Disruptive behavioral disorders	434
• Neurobehavioral disorders	436
• Autism and schizophrenia	439
