## PART ONE: IMAGING TECHNIQUES

|                                                                                        |            |
|----------------------------------------------------------------------------------------|------------|
| <b>1. Anatomic Basis of Imaging in Uveitis</b>                                         | <b>3</b>   |
| <i>SR Rathinam, Riadh Messaoud</i>                                                     |            |
| <b>2. Slit Lamp Photography</b>                                                        | <b>14</b>  |
| <i>Ramandeep Singh, Luca Cimino, Vishali Gupta</i>                                     |            |
| <b>3. Laser Flare Photometry</b>                                                       | <b>28</b>  |
| <i>Carl P Herbort</i>                                                                  |            |
| <b>4. Fundus Photography</b>                                                           | <b>50</b>  |
| <i>Vishali Gupta, Amod Gupta</i>                                                       |            |
| <b>5. Fluorescein Angiography</b>                                                      | <b>61</b>  |
| <i>Vishali Gupta, Pawan Gupta, Carl P Herbort, Moncef Khairallah, Amod Gupta</i>       |            |
| <b>6. Indocyanine Green Angiography</b>                                                | <b>88</b>  |
| <b>A. Fundus ICG Angiography</b>                                                       | <b>88</b>  |
| <i>Carl P Herbort</i>                                                                  |            |
| <b>B. Anterior Segment ICG Angiography</b>                                             | <b>144</b> |
| <i>Carl P Herbort</i>                                                                  |            |
| <b>7. Autofluorescence in Chorioretinal Inflammatory Diseases</b>                      | <b>149</b> |
| <i>Alessandro Mantovani, Carl P Herbort</i>                                            |            |
| <b>8. Ultrasonography</b>                                                              | <b>153</b> |
| <i>Ramandeep Singh, Sonia Zaouali, Moncef Khairallah</i>                               |            |
| <b>9. Ultrasound Biomicroscopy</b>                                                     | <b>167</b> |
| <i>Amod Gupta, Ramandeep Singh, Vishali Gupta, Van Tao Tran, Carl P Herbort</i>        |            |
| <b>10. Optical Coherence Tomography</b>                                                | <b>180</b> |
| <b>A. Time Domain Optical Coherence Tomography</b>                                     | <b>180</b> |
| <i>Vishali Gupta, Amod Gupta</i>                                                       |            |
| <b>B. Optical Coherence Tomography and Confocal Ophthalmoscopy (OCT/SLO)</b>           | <b>201</b> |
| <i>Mirjam EJ van Velthoven, Patricia MT Garcia, Richard B Rosen, Marc D deSmet</i>     |            |
| <b>C. Spectral Domain OCT</b>                                                          | <b>212</b> |
| <i>Vishali Gupta, Amod Gupta</i>                                                       |            |
| <b>11. Confocal Microscopy</b>                                                         | <b>223</b> |
| <i>Amit Gupta</i>                                                                      |            |
| <b>12. Electrophysiology and Inflammatory Disease</b>                                  | <b>232</b> |
| <i>Graham E Holder</i>                                                                 |            |
| <b>13. Visual Fields in Uveitis</b>                                                    | <b>246</b> |
| <b>A. Visual Fields in Uveitis</b>                                                     | <b>246</b> |
| <i>Anita Agarwal, Riadh Messaoud, Salah Jenzeri, Carl P Herbort, Moncef Khairallah</i> |            |
| <b>B. Microperimetry in Inflammatory Chorioretinal Diseases</b>                        | <b>265</b> |
| <i>Edoardo Midena, Elisabetta Pilotto</i>                                              |            |

|                                                                |            |
|----------------------------------------------------------------|------------|
| <b>14. Systemic Examination and Imaging</b>                    | <b>282</b> |
| <b>A. Systemic Examination and Imaging in Uveitis</b>          | <b>282</b> |
| <i>Pradeep Bamberg, Aman Sharma, Amod Gupta, Vishali Gupta</i> |            |
| <b>B. Gastrointestinal Imaging in Uveitis</b>                  | <b>298</b> |
| <i>Surinder Singh Rana, Rajesh Gupta, Deepak Kumar Bhasin</i>  |            |
| <b>C. 67-Gallium (<sup>67</sup>Ga) Scan in Sarcoid Uveitis</b> | <b>302</b> |
| <i>Annibale Versari, Luca Cimino</i>                           |            |

## PART TWO: SPECIFIC UVEITIS ENTITIES

|                                                                                                              |            |
|--------------------------------------------------------------------------------------------------------------|------------|
| <b>15. Anterior Non-granulomatous Uveitis</b>                                                                | <b>311</b> |
| <i>Ramandeep Singh, Vishali Gupta, Moncef Khairallah, Amod Gupta</i>                                         |            |
| <b>16. Fuchs' Uveitis and Posner-Schlossman Syndrome</b>                                                     | <b>323</b> |
| <b>A. Fuchs' Uveitis</b>                                                                                     | <b>323</b> |
| <i>Carl P Herbort, Nadia Bouchenaki</i>                                                                      |            |
| <b>B. Posner-Schlossman Syndrome</b>                                                                         | <b>332</b> |
| <i>Bechir Jelliti, Moncef Khairallah</i>                                                                     |            |
| <b>17. Anterior Granulomatous Uveitis</b>                                                                    | <b>335</b> |
| <i>SR Rathinam, Moncef Khairallah, Kamel Hmidi</i>                                                           |            |
| <b>18. Intermediate Uveitis</b>                                                                              | <b>348</b> |
| <i>Jyotirmay Biswas, Sudharshan S</i>                                                                        |            |
| <b>19. Vasculitis</b>                                                                                        | <b>363</b> |
| <b>A. Global Approach to Ocular Vasculitis</b>                                                               | <b>363</b> |
| <i>Carl P Herbort, Luca Cimino, Ahmed M Abu EL-Asrar</i>                                                     |            |
| <b>B. Retinal Vasculitis</b>                                                                                 | <b>376</b> |
