

Contents

1. Introduction to Clinical Medicine and Nursing	1
• <i>Aims of medicine and nursing</i>	
• <i>Nursing care of the elderly and the unconscious patient</i>	
• <i>Clinical vital signs and their monitoring</i>	
2. Major Aetiologies of the Disease	13
• <i>Hereditary and its disorders</i>	
• <i>Disorders caused by physical and chemical agents</i>	
• <i>Bites and stings</i>	
• <i>Tumour formation and autoimmunity</i>	
3. Infection, Immunity and Chemotherapy	35
• <i>Infection</i>	
• <i>Immunity and hypersensitivity</i>	
• <i>Chemotherapeutic agents and antibiotics</i>	
4. Diseases caused by Infections	54
• <i>Diseases caused by bacteria</i>	
• <i>Diseases caused by viruses</i>	
• <i>Diseases caused by fungi</i>	
• <i>Rickettsial and spirochaetal infections</i>	
• <i>Diseases caused by parasites, e.g. protozoa, helminthes, cestodes, flukes</i>	
5. The Skin and Sexually Transmitted Diseases	99
• <i>Skin disorders</i>	
• <i>Sexually transmitted diseases</i>	
6. Diseases of the Respiratory System	116
• <i>Anatomy, physiology, common respiratory symptoms, signs and investigations</i>	
• <i>Diseases of upper respiratory tract, i.e. coryza, tonsillitis, tracheobronchitis, hay fever.</i>	
• <i>Diseases of lower respiratory tract, i.e. bronchitis, pneumonia, asthma, bronchiectasis and lung abscess, tuberculosis, interstitial lung diseases, pulmonary embolism and carcinoma lung</i>	
• <i>Diseases of the pleura, i.e. pleural effusion, pneumothorax</i>	
7. Disorders of Cardiovascular System	164
• <i>Anatomy, physiology, symptoms and signs and investigations of cardiovascular system</i>	
• <i>Heart failure</i>	
• <i>Congenital and rheumatic heart diseases</i>	
• <i>Other heart diseases, e.g. pulmonary, thyrotoxic, syphilitic</i>	
• <i>Systemic hypertension</i>	
• <i>Circulatory failure</i>	

- *Diseases of pericardium*
- *Diseases of blood vessels*

8. Diseases of Alimentary System	223
• <i>Anatomy, physiology, common symptoms and investigations</i> • <i>Diseases of mouth and oesophagus, i.e. stomatitis, candidiasis, aphthous ulceration, glossitis, carcinoma tongue and diseases of parotid gland</i> • <i>Diseases of stomach and duodenum, i.e. pyloric stenosis, gastric and peptic ulcer, carcinoma stomach and hiatus hernia</i> • <i>Diseases of intestines, e.g. diarrhoea, malabsorption, intestinal obstruction, appendicitis, tuberculosis, inflammatory bowel disease and diseases of colon.</i> • <i>Diseases of peritoneum, e.g. peritonitis and ascites</i> • <i>Diseases of pancreas</i>	
9. Diseases of the Liver and Gallbladder	261
• <i>Anatomy, physiology and investigations</i> • <i>Diseases of liver, i.e. hepatitis, cirrhosis, portal hypertension, hepatic failure and tumours of the liver</i> • <i>Diseases of gallbladder, i.e. cholecystitis, gallstones, carcinoma</i>	
10. Diseases of Kidneys and Urinary Tract	284
• <i>Anatomy, physiology, common symptoms and investigations</i> • <i>Glomerular diseases, e.g. glomerulonephritis</i> • <i>Renal failure and hypertensive renal diseases</i> • <i>Urinary tract infection and urinary stones</i> • <i>Heredofamilial diseases</i> • <i>Tumours of kidney and urinary tract</i>	
11. Diseases of Blood and Lymphoid System	307
• <i>Anatomy, physiology and investigations</i> • <i>Diseases of RBCs, i.e. anaemias and polycythaemias</i> • <i>Diseases of WBCs, i.e. agranulocytosis, leukaemias</i> • <i>Diseases of platelets, i.e. thrombocytopenia</i> • <i>Coagulation disorders, e.g. haemophilia</i> • <i>Diseases of lymphoid system, i.e. splenomegaly, lymphadenopathy, lymphoma, multiple myeloma</i>	
12. Nutrition and Vitamins	337
• <i>Nutrition and diet</i> • <i>Water, electrolytes and minerals</i> • <i>Nutritional disorders and nutritional support</i> • <i>Acidosis and alkalosis</i> • <i>Vitamins</i>	

13. Rheumatology	365
• <i>Anatomy and physiology</i>	
• <i>Diseases of joints, i.e. rheumatoid arthritis, ankylosing spondylitis, osteoarthritis, gout and other arthritis</i>	
• <i>Low back pain</i>	
• <i>Nonarticular rheumatism and connective tissue disorders</i>	
• <i>Vasculitis</i>	
• <i>Heritable rheumatic disorders and bone diseases</i>	
14. Disorders of Nervous System	382
• <i>Anatomy, physiology, higher mental functions</i>	
• <i>Diseases of the cranial nerves</i>	
• <i>Motor, sensory and autonomic systems</i>	
• <i>Infective disorders of nervous system, i.e. meningitis, encephalitis, brain abscess, myelitis, AIDS, syphilis, herpes zoster</i>	
• <i>Headache and syncope</i>	
• <i>Epilepsies and coma</i>	
• <i>Vascular diseases, i.e. cerebrovascular disease/accident</i>	
• <i>Space occupying lesions</i>	
• <i>Demyelinating and extra-pyramidal disorders</i>	
• <i>Diseases of the spinal cord, peripheral nerves and muscles</i>	
• <i>Congenital disorders and birth injuries</i>	
15. Diabetes Mellitus	431
• <i>Definition, classification, types, diagnosis and investigations, and management</i>	
• <i>Acute and chronic complications</i>	
• <i>Diabetes, surgery and pregnancy</i>	
16. Diseases of Endocrine System	447
• <i>Pituitary gland and its disorders</i>	
• <i>Thyroid gland and its disorders</i>	
• <i>Adrenal gland and its disorders</i>	
• <i>Parathyroid gland and its disorders</i>	
 <i>Appendix 1: Normal values, i.e. haematology, biochemistry</i>	 <i>465</i>
<i>Appendix 2: Bedside diagnostic and therapeutic procedures and instruments used</i>	<i>474</i>
 <i>Index</i>	 <i>483</i>
