Principles of Examination of Gastrointestinal System	124
Step by Step Examination of Alimentary System	130

X CLINICAL EXAMINATION SKILLS

Case Writing Tips	133
Common Commands	137
9. Examination of Genitourinary System	157
Check List for Nephrological Examination	158
Case Writing Tips	161
10. Examination of Nervous System	165
Basic Principles	166
Neurological Examination as a Whole	168
Case Writing Tips	170
Common Commands	176
Cranial Nerves	181
Motor System	215
Check Power of the Individual Muscles	220
Muscles of the Upper Limb	221
Abdominal Muscles	241
Trunk Muscles	242
Muscles of Lower Limbs	244
Coordination of Movements	254
Reflexes	258
Superficial Reflexes	258
Deep Reflexes	264
Miscellaneous Reflexes	273
Gait	276
Involuntary Movements	277
Sensory System	281
Superficial Sensations	281
Deep Sensations	285
Cortical Sensations	290
General Principles for Examining Sensory System	295
Cerebellar System	297

Signs of Meningeal Irritation	299
Check for Brainstem Death or Brain Death	306
Check Elicit Pain in the Patient	307
Elicit Focal Neurological Signs in an Unconscious Patient	309
11. Dermatological Examination	313
Principles of Dermatological Examination	314
Step by Step Examination of the Skin	315
12. Examination of Musculoskeletal System	321
Principles of Examination of Musculoskeletal System	322
Examination of Musculoskeletal System	325
Examine this Patient's Vertebral Column	331
Examination of the Upper Limb	336
Examine the Hands	344
Examine the Knee Joint	348
13. Patient's Record	355
14. Investigations	359
Routine Investigations	361
Systemic Investigations	362
