

Contents

1. Physical Principles of the Doppler Effect and Its Application in Medicine	1
<i>B Breyer</i>	
The Doppler Effect	1
Doppler Indices	3
Instrumentation for Doppler Measurements	4
Two Dimensional Flow Measurement	6
Basic Limitations of Doppler Examinations	7
Contrast Media	8
How to Reduce Problems	10
2. Normal Pelvic Anatomy Assessed by 2D, 3D and Color Doppler Ultrasound	12
<i>S Kupesic Plavsic, A Kurjak, K Baston</i>	
Uterus	12
Postmenopausal State	14
Cervix	14
Uterine Perfusion	14
Uterus in Newborn and Prepuberty	15
Vagina	16
Fallopian Tube	16
Ovaries	16
Newborn	19
Childhood	19
Perimenopausal and Postmenopausal State	19
3. Color Doppler and 3D Ultrasound of the Uterine Lesions	22
<i>S Kupesic Plavsic, A Kurjak, K Baston</i>	
Normal Uterus	22
Endometrial Polyps	23
Intrauterine Synechiae (Adhesions)	24
Adenomyosis	25
Endometrial Hyperplasia	25
Endometrial Carcinoma	26
Leiomyoma	29
Leiomyosarcoma	30
4. Adnexal Masses	33
<i>A Kurjak, S Kupesic Plavsic, U Honemeyer</i>	
The Main Basis of Angiogenesis	33
Tumor Neovascularization—Current Concepts	34
Evolution of 2D Conventional and Color Doppler Ultrasound in Imaging of Adnexal Tumor Angiogenesis	36
Three-Dimensional Ultrasound and Power Doppler Imaging of Benign and Malignant Adnexal Masses	38
Further Possibilities in the Evaluation of Tumor Angiogenesis	48
Zagreb Experience	50
Future Challenges	53

5. Ovarian Cancer Screening by 3D and 3D Power Doppler Ultrasound	58
<i>A Kurjak, U Honemyer, S Kupesic Plavsic</i>	
Why to Screen for Ovarian Cancer?	58
Difficulties in Ovarian Cancer Screening	59
Attempts to Screen—Some Lessons Learned	60
Screening Tests	60
Target Populations	64
General Population	64
Ovarian Cancer Screening Trials	65
Ovarian Cancer—The Role of 3D Ultrasound and 3D Power Doppler Imaging	66
Zagreb Ovarian Cancer Screening Trial	68
6. Ovarian Endometriosis	80
<i>S Kupesic Plavsic, A Kurjak, K Baston</i>	
Symptoms	80
Endometriosis in Infertile Patients	80
Ultrasound Diagnosis	81
Combined Studies by Doppler Ultrasound and Ca-125 Values	83
Ovarian Endometrioma Assessed by 3D Ultrasound	85
7. Pelvic Inflammatory Disease	89
<i>S Kupesic Plavsic, A Kurjak, K Baston</i>	
Transvaginal Ultrasound and Color Doppler Assessment of PID	89
Tubo-ovarian Abscess	92
Chronic PID	92
Three-Dimensional Ultrasound	94
8. Endoscopic Surgery in Gynecology	96
<i>V Sparac, A Kurjak, I Bekavac, S Kupesic Plavsic</i>	
Laparoscopy	96
Laparoscopy of Adnexal Lesions	99
Laparoscopic Myomectomy	102
Laparoscopic Hysterectomy	102
Laparoscopy in Gynecologic Oncology	103
Hysteroscopy	104
Diagnostic Hysteroscopy	105
Operative Hysteroscopy	106
9. Color Doppler and Three-Dimensional Ultrasound Imaging in Infertility	112
<i>S Kupesic Plavsic, A Kurjak, N Zafar</i>	
Uterine Causes of Infertility	112
Ovarian Causes of Infertility	120
Polycystic Ovarian Syndrome	123
Tubal Causes of Infertility	129
10. Color Doppler and 3D Power Doppler Hystero-Contrast-Salpingography	134
<i>S Kupesic Plavsic, A Kurjak, N Zafar</i>	
Historical Development of the Ultrasonic Assessment of the Fallopian Tube	135
Ultrasound Contrast Agents	136
Technique of Hystero-contrast-salpingography	136
Requirements	136
Procedure	137
Gray-scale Hystero-contrast-salpingography	138

Pulsed Doppler Analysis of Tubal Patency	138
Color Doppler Hystero-contrast-salpingography	139
Review of Literature	140
Three-Dimensional Hysterosonosalingography	141
11. Color Doppler and 3D US Imaging in Normal and Abnormal Early Pregnancy	146
<i>S Kupesic Plavsic, A Kurjak, N Zafar</i>	
Ultrasound Studies of the Uterus from Ovulation to Implantation	146
Uterine Findings Following Implantation	147
Placenta	148
Umbilical and Fetal Portion	150
3D Ultrasound Measurement of Nuchal Translucency	159
Doppler Assessment of Ductus Venosus	159
First Trimester Screening for Chromosomopathies: Nasal Bone and Fetal Heart	160
Pathology of Early Pregnancy	161
12. Ectopic Pregnancy	168
<i>S Kupesic Plavsic, A Kurjak, N Zafar</i>	
The Role of Biochemical Markers in Ectopic Pregnancy	169
The Role of Ultrasound in the Diagnosis of Tubal Ectopic Pregnancy	169
Color Doppler in Early Diagnosis of Tubal Ectopic Pregnancy	171
3D Ultrasound in the Assessment of Tubal Ectopic Pregnancy	174
Other Sites of Implantation	175
Therapy	178
13. The Assessment of Normal Fetal Anatomy	182
<i>U Honemeyer, A Kurjak, B Ahmed, S Kupesic Plavsic</i>	
Technological Improvements in Prenatal Diagnosis	182
Visualization of Normal Fetal Anatomy	185
Volumetry—Organ Volume Measurements	194
14. The Assessment of Abnormal Fetal Anatomy	198
<i>A Kurjak, B Ahmed, U Honemeyer, S Kupesic Plavsic</i>	
Head and Neck	198
Fetal Spine	203
Heart	204
Abdomen	205
Skeleton and Extremities	207
Role of Color and Power Doppler Ultrasound	211
15. First Trimester Ultrasonographic Screening and Prenatal Diagnostic Methods	217
<i>K Gersak</i>	
First Trimester Ultrasonographic Screening	217
Prenatal Diagnostic Methods	221
4D US and Prenatal Diagnostic Methods	223
16. Genetic Approach to Fetal Abnormalities	225
<i>K Gersak</i>	
Morphological Characterization of Abnormalities	225
Recognition of the Pattern of Multiple Abnormalities	226
Establishment of Diagnosis	227
Assessment of Prognosis and Recurrent Risk	229

17. Four-Dimensional Sonography in Perinatal Medicine	231
<i>A Kurjak, M Stanojevic, B Ahmed, Tikvica Luetic</i>	
Fetal Motility and 4D Ultrasound	231
Classification of Movement Patterns	232
Onset of Specific Fetal Behavioral Patterns Assessed by 3D/4D US	233
The First Trimester	233
The Second Trimester	234
The Third Trimester	235
New Scoring System for Fetal Neurobehavior Assessed by 3D and 4D Sonography	236
Multicentric Study	238
18. Gestational Trophoblastic Disease	243
<i>S Kupesic Plavsic, A Kurjak, K Baston</i>	
Hydatidiform Mole	243
Invasive Mole	245
Choriocarcinoma	246
Placental Site Trophoblastic Tumor	247
Zagreb Experience	247
Three-Dimensional Power Doppler (3D PD)	249
19. Clinical Sonographic Pearls	252
<i>S Kupesic Plavsic</i>	
Pelvic Ultrasound Pearls	253
Uterus	253
Tubes	254
Cul-de-sac	254
Writing an Ultrasound Report	254
19.1: Amenorrhea	256
19.2: Abnormal Genital Tract Bleeding (Reproductive Age)	261
19.3: Menopause	270
19.4: Peri- and Postmenopausal Bleeding	274
19.5: Prolapse and Pelvic Floor Relaxation	280
19.6: Contraception	285
19.7: Infertility	290
19.8: Pelvic Inflammatory Disease	300
19.9: Pelvic Pain	306
19.10: Abnormal Pap Smear and Cervical Mass	314
19.11: Uterine Mass	320
19.12: Adnexal Mass	327
19.13: Breast Lumps	342
20. Obstetric Ultrasound Pearls	349
<i>S Kupesic Plavsic</i>	
20.1: First Trimester Ultrasound Examination	349
Nuchal Translucency Measurement (11 to 13 Weeks and 6 Days)	350
20.2: Second and Third Trimester Ultrasound Examination (Fetal Anatomy Scan)	351
20.3: Bleeding in Pregnancy	366
Writing an Obstetric Ultrasound Report	366
Index	373
