

CONTENTS

1. OR Set-up and Basic Instrumentation for Gynecology Endoscopy	1
<i>Nutan Jain, Nandini Kushwaha</i>	
• Laminar Flow System	8
• Education and Training	9
2. Laparoscopic Entry and Exit	13
<i>Nutan Jain, Reema Sircar</i>	
• Steps	15
• Port Removal	21
• Special Mention of Our Innovative Technique of Entry	22
• Use of Veress for CO ₂ Insufflation	30
3. Energy Sources	33
<i>N Siva Sathya Dharma</i>	
• Types of Energy Sources	34
• Effects of RF Current on Cells	35
• Types of Waveforms	36
• Fulguration (Spray Coagulation or Black Coagulation)	38
• Types of Instruments	38
• Monopolar	38

- Bipolar 39
- Argon Plasma Coagulator 39
- Bipolar Vessel Sealing 40
- Bipolar Cutting Electrodes 42
- Ultrasonic Generators 42
- Electrosurgical Complications 47
- Special Precaution with Monopolar 49

4. Anesthesia for Gynecological Laparoscopic Surgery 53

Narayan L Hegde, Jay N Hegde

- Anesthesia for Laparoscopy 54
- Preoperative Assessment 54
- Anesthesia Techniques 55
- Local Anesthesia 55
- Regional Anesthesia 56
- General Anesthesia 58
- Postoperative Care 59
- Important Anesthetic Considerations 60
- Respiratory Complications 60
- Circulatory Complications 62
- Patient Position 64
- Obesity 66
- Postoperative Benefits and
Consequences of Laparoscopy 69

5. Laparoscopic Suturing 75

Nutan Jain, Reema Sircar

- Instruments Required 76

• Port Placement	77
• Technique	77
• Loading the Needle	78
• Aligning the Needle	78
• Making the Knot	83
• Benefits of Letter V	87
6. Benign Ovarian Cyst	89
<i>Nutan Jain, Reema Sircar</i>	
• Preoperative Evaluation	90
• Intraoperative Laparoscopic evaluation	91
• Operative Procedures for benign Adnexal Masses ...	91
• Ovarian Cystectomy	92
• Intact Removal of the Cyst	92
• Aspiration and Excision of the Cyst Wall	97
• Aspiration with Cyst Wall Ablation	103
• Postoperative Course	104
• Possible Complications	104
• Special Precautions	105
7. Laparoscopic Surgery for Infertility	107
<i>Nutan Jain, Reema Sircar</i>	
• General Consideration	109
• Preoperative Work-up	109
• Hysterosalpingography	109
• Laparoscopy	110
• Salpingoscopy	110
• Classification of Tubal and Adhesion Score	110

xviii Laparoscopic Surgery in Infertility and Gynecology

• Tubal Score	111
• Equipment	113
• Technique of CO ₂ Laser	114
• Adhesiolysis	114
• Indications	115
• Special Cases	117
• Salpingo-ovariolysis	120
• Neosalpingostomy	124
• Eversion of Fimbria	129
• Complications	133
• Adhesion Prevention	135
• Management of Hydrosalpinx	135
• Postoperative of Course	136
• Future Fertility Management	137

8. Ovarian Drilling 141

Nutan Jain, Reema Sircar

• Present Scenario	142
• Mechanism of Action	143
• Changed Hormonal Melieu following Ovarian Drilling	143
• Technique	144
• Postoperative Course	148
• Possible Complications	151
• Special Precautions	152
• Future Fertility	152

9. Laparoscopic Management of Ectopic Pregnancy 157*Nutan Jain, Reema Sircar*

- Incidence 158
- Risk Factors 158
- Symptoms 159
- Signs 159
- Diagnosis 159
- Treatment 160
- Laparoscopic Linear Salpingostomy 160
- Milking Out 165
- Segmental Resection 165
- Laparoscopic Salpingectomy 165
- Laparoscopy for Acute/Massive Ruptured Ectopic 170
- Postoperative Course 171
- Complications 171
- Future Fertility 171

10. Management of Endometriotic Cyst 175*Nutan Jain, Reema Sircar*

- Instruments Required 177
- Complications 185
- Thoughts on Prevention 185
- Postoperative Management 186
- Future Fertility Management 186

11. Rectovaginal Endometriosis 191*Nutan Jain, Reema Sircar*

- Clinical Presentation 193

xx Laparoscopic Surgery in Infertility and Gynecology

- Diagnosis 193
- Transrectal Sonography 194
- Treatment Options 194
- Medical Management 194
- Surgery 194
- Special Instruments 194
- Surgical Goal 195
- Surgical Steps 195
- Postoperative Course 204
- Possible Complications 204
- Special Precautions 205

12. Laparoscopic Myomectomy 209

Nutan Jain, Reema Sircar

- Indications 210
- Preoperative Sonography 211
- Preoperative Preparation 212
- Operative Steps 213
- Laparoscopic-Assisted Minilap Myomectomy 222
- Technique 223
- Postoperative Course 223
- Postoperative Follow-up and Pregnancy Rates 223
- Complications 224
- Special Precautions 224

13. Total Laparoscopic Hysterectomy 229

Nutan Jain, Reema Sircar

- Advantages of Total Laparoscopic Hysterectomy .. 230

• Various Manipulators	231
• KOH Colpotomizer System	231
• Clermont Ferrand Manipulator	232
• Silicon Curved Tube	232
• Patient's Positioning	232
• Position of Trocars	233
• Technique of TLH	233
• Benefits of TLH	239
• Possible Difficulties	243
• Postoperative Course	243
• Special Cases	243
• Multiple Myomas	243
• Multiple Previous Cesarean Sections	244
• Lateral Dissection	244

14. Prevention and Management of Complications of Laparoscopy 249

Nutan Jain, Priyanka Sahni

• Risk Factors	250
• Contraindications	251
• Complications	251
• Anesthesia Related	251
• Cardiothoracic Embarrassment	251
• Management	252
• Thoughts on Prevention	252
• Venous Gas Embolism	253
• Position Related Complications	254
• Neuropathies	254

xxii Laparoscopic Surgery in Infertility and Gynecology

• Deep Vein Thrombosis	255
• Veress needle related	257
• Pre-peritoneal Placement	257
• Injury to vessel and viscera	258
• Primary trocar related	259
• Injury to Vessel and Viscera	259
• Accessory trocar related Injury	261
• Injury to Vessel and Viscera	261
• Electrosurgical Injury	262
• Richter's Hernia or Sliding Hernia	263
• Bowel Injury	264
• Rectal Injury	265
• Bladder Injury	270
• Ureteric Injury	271
• Types of Injury	271
• Postoperative Course and Checklist for Detection of Complications	278
