

Contents

1. Gastrointestinal System 1

- Anatomy of Gastroesophageal Junction 2
- Acute Esophagitis 4
- Esophagus 4
- Superior Mesenteric Artery Syndrome/Chronic Duodenal Ileus 7
- Abnormal Small Bowel Folds 11
- Toxic Megacolon 11
- Appendicitis 11
- Intussusception 12

2. Genitourinary System 15

- Normal Kidneys Size 16
- Renal Size in Premature Infants 16
- Normal Renal Size in Newborn Term Infant 16
- Adults 16
- Renal Cortical Index (RCI) 16
- Ultrasound in Renal Transplant 17
- Renal Transplant Rejection Features 18
- Anterior Junction Line 18
- Differentials of Focal Unilateral Adrenal Mass 23

3. Respiratory System 29

- Normal Trachea 30
- Cavity 30
- Emphysema 36

18 MEASUREMENTS IN RADIOLOGY MADE EASY

Tracheobronchomegaly 36
Tracheal Index 37

4. Cardiovascular System 39

Heart Valve Positions on Chest Radiograph 40
Aortovertebral Distance 45

5. Central Nervous System 49

Pineal Gland 50
Hydrocephalus 52

6. ENT—Orbit 73

Retropharyngeal Space 74
Maxillary Sinus 74

7. Hepatobiliary System 79

Gallbladder 80
Small Gallbladder 80
Cholecystomegaly 80
Unilocular Pancreatic Cyst 83
Spleen 84
Polycystic Liver Disease 88
Cirrhosis 89
Bile Ducts 92

8. Obstetrics 93

Fetal Parameters 94
Fetal Age Estimation 97
BPP Score—Biophysical Profile Score 106

Nuchal Translucency 109
Bowel Obstruction in Fetus 109

9. Gynecology 111

Normal Uterine Size 112
Uterus Developmental Anomalies 113
Vagina 115

10. Musculoskeletal System 121

Congenital Dysplasia of Hip/Developmental
Dysplasia of Hip (DDH) 122
Hip Joint Space Width 124
Carpal Angle 127
Osteoporosis 127
Achilles Tendon 132

11. Staging and Grading 139

Staging of Cervical Cancer 140
Endometrial Cancer 140
Staging of Ovarian Cancer (FIGO System) 141
Staging of Prostate Cancer (American Joint
Committee on Cancer) 142
Staging of Wilms' Tumor 143
Staging for Renal Cell Carcinoma 144
Grading of Reflux in Children 144
Grades of Vesicoureteral Reflux (International
Reflux System) 145
CT/MRI Features of Cystic Renal Lesions
Bosniak Classification 145

Staging of Testicular Cancer (American Joint Committee on Cancer)	146
Grading of Varicocele	146
Staging of Bladder Cancer	147
Renal Injury Scale (American Association of Surgeons in Trauma)	147
Grading of Splenic Injury	148
Grading of Liver Injury	149
Congenital Biliary Cysts (Todani Classification)	150
Gallbladder Carcinoma (Modified Nevin Stage)	150
Staging of Colorectal Cancer	150
Esophageal Cancer CT Staging (Moss)	151
Gastric Carcinoma Staging	151
Classification of Japan Research Society for Gastric Cancer	152
Advanced Gastric Cancer (T2 Lesion and Higher) Bormann Classification	152
Lymphoma of Gastrointestinal Tract	152
Ampullary Tumor	153
Aortic Dissection	153
Stanford Classification	153
TNM Staging of Lung Cancer	154
Cystic Adenomatoid Malformation	154
OB-USG Findings	154
Hodgkin Disease	155
Thyroid Ophthalmopathy/Grave's Disease of Orbit	155
MR Classification of Meniscal Injury	156
Paraosteoarthritis/Ectopic Ossification/Myositis Ossificans	156
Atlantoaxial Rotary Fixation	156

Ascites	157
Pleural Effusion	157
Hydrocele	157
Slipped Capital Femoral Epiphysis	159
Acromioclavicular Dislocation Grading	159
Spondylolisthesis	159
Scoring System for Ovarian Tumors	160
Grading of Neonatal Cerebral Hemorrhage	161
Criteria to Assess Nodal Disease	164
Cardiothoracic Ratio	164
Cardiomegaly	165
Cardiomegaly in Newborn	165
Imperforate Anus	165

12. Age Determination by Radiographs 167

Teeth Development	168
Permanent Teeth	168
Centers of Ossification	168
Elbow Joint	169
Hand with Wrist Joint	169

13. Rules in Radiology 171

Scan Where It Hurts	172
Rule of Tens (Ten% Tumor)	172
Rule of 2s	174
4711 Rule	174

14. Hounsfield Unit Values 177

Parenchymal Organs	50 +/- 40	178
--------------------	-----------	-----

15. Basics of MRI 179

Basics of MRI Signals 180

MR Spectroscopy 181
