

Contents

SECTION 1: GENERAL TRAUMA AND RECONSTRUCTIVE HIP SURGERY

1. Acetabular and Pelvic Fractures	3
2. Acetabular Orientation (Total Hips).....	6
3. Acetabular Osteotomy	7
4. Achilles Tendon Ruptures	9
5. Acromioclavicular Dislocations.....	11
6. Age in Total Hip Surgery	14
7. Amputations: Lower Extremity.....	17
8. Angulation in Fractures	27
9. Ankle Fractures	33
10. Avascular Necrosis of the Femoral Head	39
11. Back Pain.....	42
12. Bilateral Total Hips.....	45
13. Biodegradable Materials.....	47
14. Bone Graft Substitutes.....	48
15. Bipolar Prostheses.....	50
16. Capitellum Fractures.....	52
17. Capsulectomy in Hip Osteoarthritis.....	53
18. Carbon Composites in Total Hips.....	54
19. Cartilage Transplant.....	55
20. Children: Fractures	56
21. Chondromalacia	58
22. Clavicle Fractures	60
23. Collateral Ligaments (Knee).....	65
24. Colles' Fractures.....	67
25. Compartment Syndromes	74

26. Cruciate Ligaments Injuries	76
27. Deltoid Ligament Injuries.....	78
28. Dislocation of the Hip	79
29. Dislocation of Total Hips	80
30. Dislocation of the Proximal Tibiofibular Joint.....	82
31. Electrical Stimulation	83
32. Endoprostheses	84
33. External Fixators	87
34. Fat Embolism.....	88
35. Femoral Head Fractures	89
36. Femoral Neck Fractures.....	91
37. Femoral Shaft Fractures	93
38. Fibula Fractures and General Behavior.....	97
39. Forearm Fractures.....	99
40. Fracture Healing	103
41. Fusion—Hip	109
42. Galeazzi Fractures	111
43. Graft: Acetabulum—Total Hips	113
44. Gunshot Wounds (Fractures)	116
45. Hemiplegia	118
46. Heterotopic Bone	119
47. Humeral Head Fractures	121
48. Humeral Shaft Fractures.....	127
49. Hybrid Total Hips.....	137
50. Ilizarov Technique	139
51. Incongruity	141
52. Infection in Total Hip Surgery	144
53. Intertrochanteric Fractures— Interlocking Nailing.....	146
54. Isoelastic Total Hip Prostheses	151
55. Labrum (Acetabulum)	153
56. Laminar Airflow Systems.....	155
57. Length Discrepancy (Total Hip Surgery).....	157
58. Lysis.....	159
59. Malrotation (Tibial Fractures).....	163

60. Medial Epicondyle Fractures	165
61. Meniscus Injuries—Repair and Grafts	166
62. Metacarpal Fractures	170
63. Metal-backed Acetabular Cups in Total Hips	172
64. Metal-on-metal Total Hips	173
65. Minimally Invasive Total Hip Surgery.....	175
66. Modular Components.....	177
67. Nonunion in Tibial Fractures.....	179
68. Olecranon Fractures	184
69. Open Fractures.....	186
70. Osteoarthritis.....	190
71. Osteoarthritis—Destructive	192
72. Osteomyelitis (Chronic)	194
73. Patella Fractures.....	196
74. Peripheral Nerve Injuries	199
75. Peroneal Tendons (Dislocation).....	201
76. Plafond Fractures: Tibial.....	203
77. Plica.....	205
78. Plugging the Medullary Canal in Total Hip Surgery.....	206
79. Precoated Total Hip Implants.....	207
80. Press-fit Total Hip Prostheses—The Noncemented Prosthesis	208
81. Pressurization of Cement	210
82. Progress in Total Hip Surgery	212
83. Radial Head Fractures.....	215
84. Radioulnar Joint—Distal	216
85. Rehabilitation	217
86. Revision and Major Surgery without Trochanteric Osteotomy.....	219
87. Rotator Cuff Tears	222
88. Running and Exercising.....	224
89. Shortening in Fractures.....	225
90. Shoulder Dislocations	231
91. Shoulder Subluxation	232
92. Smoking and Fracture Healing.....	233
93. Spinal Cord Injuries.....	234

94. Spondylolisthesis	237
95. Synostosis—Ankle	238
96. Synovial Chondromatosis and Intra-articular Osteochondromas	240
97. Talus Fractures	242
98. Tendon Transplants	243
99. Tibial Condylar Fractures	244
100. Tibial Shaft Fractures	248
101. Thromboembolism	257
102. Titanium in Total Hip Replacement	259
103. Total Hip Surgery: Factors Predictive of Success	263
104. Trochanteric Nonunion	266
105. Tuberculosis	267
106. Ulnar Fractures	269
107. Varus Deformity in Hip Fractures	272
108. Vascular Injuries in Total Hip Surgery	273
109. Wear	274
110. Wires (Broken) Total Hip	276
111. Wound Closure and Dressing	278

SECTION 2: MISCELLANEOUS

112. Advertising	281
113. American Academy of Orthopedic Surgeons (AAOS)	283
114. AO: Association for the Internal Fixation of Fractures	286
115. Arthroscopy, MRI and CT Scans	288
116. Association for the Rational Treatment of Fractures (ARTOFs)	291
117. Certificate of Additional Qualifications (CAQs)	293
118. Complications in Surgery	295
119. Erosion of Orthopedics	297
120. Fragmentation of Orthopedics	299
121. Grand Rounds	301
122. Greed	303
123. Health Care Reform	305
124. Orthopedic-Industrial Complex	307
125. Interviewing Prospective Residents	309

126. Journals and Other Publications.....	312
127. Litigation.....	315
128. Magnetic Resonance Imaging (MRI).....	318
129. Outcome Studies.....	319
130. Podiatry.....	322
131. Professionalism.....	326
132. Registries.....	327
133. Royalties.....	329
134. Setting Limits.....	331
135. Sports Medicine.....	333
136. Subspecialties in Orthopedics.....	335
137. Teaching.....	337
138. Traumatology.....	339

SECTION 3: ADDENDA

139. Staying the Course.....	343
140. Thoughts on the Role of Orthopedics in Basic Research.....	349
141. On the Education of the Orthopedic Resident.....	352
142. Are We Losing Objectivity?.....	356
143. The Will to Action.....	361
144. The Devil is in the Details.....	364
145. Responding to Change.....	368
146. Medicine and Industry—The Payer, the Piper and the Tune.....	371
147. Reflections on Our Profession.....	380
148. Joint Replacement Registries—The Hurdles Ahead.....	388
149. Is Socrates Dying?.....	391
150. Rise and Decline.....	394
151. Taking Advantage of an Opportunity.....	397
152. On Orthopedic Residents and Fellows Education.....	402
153. Thoughts on Orthopedic Guidelines.....	404
154. The AAOS' Annual Meeting—A Reflection of the Academy?.....	406
