

Contents

PART ONE: DICTIONARY 1-57

PART TWO: VOCABULARY BUILDER 59-400

SECTION 1: BASIC SCIENCE

1. Anatomy	61
2. Physiology	78
3. Optics	86
4. Pharmacology: Ophthalmic Drugs and Toxic Substances	92
5. Genetics	118
6. Embryology	123
7. Research Terms	127
8. Basic Computer Terms	134

SECTION 2: REFRACTION, SPECTACLES, AND CONTACT LENSES

9. Refraction	145
10. Spectacles	154
11. Contact Lenses	180

SECTION 3: DISORDERS OF THE EYE

12. Disorders of the Cornea and Conjunctiva	210
13. Glaucoma	232
14. Strabismus	246
15. Disorders of the Retina and Vitreous	261
16. Ocular Tumors	278
17. Systemic Diseases and the Eye	287
18. Neuro-ophthalmology	300

SECTION 4: SURGERY OF THE EYE

19. Cataract Surgery	322
20. Intraocular Lenses	334

xviii Ophthalmic Dictionary and Vocabulary Builder

21. Glaucoma Surgery	342
22. Corneal Surgery	345
23. Eyelid, Lacrimal and Orbital Surgery	351
24. Laser Surgery	357
25. Retinal and Vitreous Surgery	362
26. Strabismus Surgery	367
27. Refractive Surgery	370

SECTION 5: OPHTHALMIC TESTS, DEVICES, IMAGING AND MISCELLANEOUS TERMS

28. Ophthalmic Tests and Devices	375
29. Miscellaneous Terms	392

APPENDICES

A. Abbreviations and Symbols in Clinical Use	402
B. Metric Conversion (US)	404
C. Estimating Visual Loss	406
D. Vertex Conversion Table	408
E. Conversion Table Relating Diopters by Corneal Refracting Power to Millimeters of Radius of Curvature	410
F. Compensation for Effect of Vertex Distances (Used When Plus Lens is Moved Away from the Eye)	412
G. Compensation for Effect of Vertex Distances (Used When Plus Lens is Moved Toward the Eye)	414
H. Dioptric Curves for Extended Range of Keratometer	416

<i>Bibliography and Supplementary Readings</i>	419
