

CONTENTS

PART I

ISSUES IN THE MANAGEMENT OF NEAR MISS IN OBSTETRICS

1. An Introduction to Near Miss in Obstetrics.....	3
<i>PK Sekharan</i>	
Definitions.....	4
Methods of Identifying Severe Maternal Morbidity	4
Clinical Criteria Related to a Specific Disease Entity	4
Mortality Index	6
2. Essential Obstetric Care	9
<i>Latha Venkataram, Anbukkani Subbian</i>	
Essential Obstetric Care	9
Level Source of Evidence.....	16
3. Sociocultural and Economic Issues in SAMM.....	19
<i>Arulmozhi Ramarajan</i>	
Case Scenario.....	19
Too Soon to Marry, Too Soon to Carry.....	20
Unwed Mothers	20
Sex Selective Abortions.....	20
Mistrust and Minimal Use of Family Planning Services	21
Poverty and Low Social Class	21
Ill Health and Infections	21
Influence of Sociocultural Matters on Maternal Health.....	22
Case Scenario.....	22
Steps Towards Safer Motherhood	24
The National Rural Health Mission	25
4 Critical Care in Obstetrics.....	29
<i>Pankaj Desai, Shobhana Mohandas</i>	
Identify the Patient Requiring Critical Care	29
Principles of Management.....	30
Clinical Monitoring	30
Mental Status	30
Heart Rate	30
Blood Pressure.....	30
Respiration	30
Urine Output	30
Electronic Monitoring and Invasive Hemodynamic Monitoring	30

Blood Investigations.....	31
Respiratory Support in the Critically Ill.....	32
Hemorrhagic Shock.....	33
Septic Shock.....	34
Pre-Eclamptic Toxemia	35
5. The Obstetric High-Dependency Unit (HDU).....	37
<i>Arulmozhi Ramarajan</i>	
Levels of Care and the Concept of High-Dependency Unit.....	37
Standard Maternity Ward.....	37
Intensive Care Unit.....	37
Obstetric High-Dependency Unit	38
Message.....	40
6. Audit in Obstetric Near-Miss Situations	41
<i>Arulmozhi Ramarajan</i>	
What is Audit?.....	41
What is Clinical Audit?.....	41
Clinical Audit in Obstetric Near-Miss Situations.....	41
Stage 1: Identifying the Problem or Issue	42
Stage 2: Setting Criteria and Standards	42
Stage 3: Observing Practice and Data Collection.....	42
Stage 4: Comparing Performance with Criteria and Standards.....	42
Stage 5: Implementing Change.....	43
Who Should Conduct Clinical Audits?	43
7. Communication in Near-Miss Situations	45
<i>Susheela Rani BS</i>	
Communication	45
Communication in an Emergency.....	46
Communication—Who and How?	47
Communication—Clear and Complete.....	47
Communication—Clear, Complete and Written Legibly	48
Communication that is Best Avoided	48
Communication within the Team.....	48
Communication with the Referring Doctor.....	48
Communication when Referring a Patient	49
8. Medicolegal Issues and Litigation in Obstetric Morbidities.....	51
<i>Arulmozhi Ramarajan, Sunitha</i>	
Medicolegal Issues.....	51
Perspective of the Judicial Authorities	51
The Informed Consent	52
Legal Redress	52
An Affected Party can Seek Legal Redress through Three Routes.....	52
Maternal Morbidity Related Litigations.....	52
How to Avoid Medicolegal Problems?.....	53

PART II

OBSTETRIC HEMORRHAGE

9. Antepartum Hemorrhage	57
<i>Arulmozhi Ramarajan, Susheela Rani BS</i>	
Placenta Previa	57
Early Diagnosis and Expectant Management	57
During Expectant Management	59
Vaginal Delivery	60
Cesarean Section	60
Abruptio Placentae	62
Key Points in APH	64
Advice	64
10. Postpartum Hemorrhage	65
<i>Sheela V Mane, Arulmozhi Ramarajan</i>	
Practical Issues in Postpartum Hemorrhage	65
Predisposing Factors and Causes	66
Management of Postpartum Hemorrhage	66
Begin Basic Monitoring and Support	66
Attempt a Quick Assessment on the Cause of Hemorrhage	66
Replace Lost Blood Volume	67
Start Blood Transfusion at the Earliest, to Prevent Dilutional Coagulopathy or 'Washout Phenomenon'	67
Clinical Assessment of Blood Loss	68
Prevention of Postpartum Hemorrhage at Vaginal Delivery	69
Active Management of the Third Stage of Labor (AMTSL)	69
Systematic Review of Effects of AMTSL Components	70
Prevention of Postpartum Hemorrhage at Cesarean Delivery	71
Management of Postpartum Hemorrhage at Vaginal Delivery	71
Uterotonics	71
How to Do Condom Tamponade?	71
How to Do Bimanual Compression of the Uterus?	72
How to Give Aortic Compression?	72
Management of Postpartum Hemorrhage at Cesarean Delivery	73
Newer Developments in the Management of Postpartum Hemorrhage	73
PPH: Key Recommendations	75
Further Measures to Prevent Postpartum Hemorrhage	76
11. Case Scenarios in Postpartum Hemorrhage	79
<i>Arulmozhi Ramarajan, Sheela V Mane</i>	
Case 1. Atonic Postpartum Hemorrhage Following Normal Delivery	79
Case 2. Traumatic Postpartum Hemorrhage from an Episiotomy	80
Case 3. PPH Following Repeat LSCS: Inferior Epigastric Vessel Rupture	80
Case 4. Postpartum Hemorrhage in Placenta Previa—Obstetric Hysterectomy	81

Case 5. Atonic Postpartum Hemorrhage in Twin Gestation: Condom Tamponade.....	82
Case 6. Placenta Previa—Postpartum Hemorrhage on Table	83
Case 7. A Case of Disseminated Intravascular Coagulation.....	84
Case 8. Massive Hemorrhage during Lower Segment Cesarean Section.....	84
12. Serious Hazards of Transfusion.....	87
<i>C Shivaram</i>	
Incorrect Blood Component Transfusion	88
Acute Transfusion Reactions.....	88
Delayed Transfusion Reactions.....	89
Post-Transfusion Purpura.....	89
Transfusion-Related Acute Lung Injury (TRALI)	90
Etiology of TRALI.....	90
Diagnosis of TRALI.....	90
Post-Transfusion GVHD	91

PART III

HYPERTENSION AND ECLAMPSIA

13. Complications of Severe Pre-eclampsia.....	97
<i>Prakash K Mehta</i>	
Systemic Derangements.....	97
1. Cardiovascular	97
2. Hematologic	98
3. Renal	98
4. Hepatic	98
5. Central Nervous System.....	98
Complications	98
Eclampsia.....	98
HELLP Syndrome.....	98
Hematological Complications	98
Hepatic Complications.....	99
Antepartum Hemorrhage.....	100
Cardiovascular Dysfunction	100
Pulmonary Problems.....	101
Neurological Complications	102
Renal Complications	105
Gastrointestinal Complications	107
Musculoskeletal Complications.....	107
Fetal Complications.....	107
Mortality/Morbidity	107
Complications due to Drugs	108
Long Term Effects	108
Prevention of Complications.....	109

14. Case Situations in Pregnancy-Induced Hypertension (PIH)	111
<i>Prakash K Mehta</i>	
Case 1. Eclampsia in All its Floridity	111
Case 2. Multiple Complications—Eclampsia/HELLP/DIC/Oliguria/PRES/Pancreatitis.....	112
15. Eclampsia.....	115
<i>Gomathy Narayanan</i>	
A Case of Eclampsia	115
Investigations	115
Discussion.....	116
Prevention and Treatment of Convulsions with Magsulf	117
Magnesium Toxicity	117
Commonly Used Antihypertensive Drugs in Severe Pre-Eclampsia and Eclampsia.....	117
Maternal Complications	117
16. The Eclampsia Drill.....	119
<i>BSOG RCOG Workgroup</i>	
Aims.....	119
Severe Pre-eclampsia/Imminent Eclampsia.....	119
Management of Eclampsia	119
Eclampsia Kit.....	119
Further Management of Eclampsia.....	119
Anticonvulsants	119
Investigations	120
Fluid Management	121
Delivery	121
Shifting to Tertiary Care Center.....	121

PART IV

SEPSIS

17. Sepsis in Relation to Abortions	127
<i>Susheela Rani BS</i>	
The Providers	128
The Procedure	128
Septic Abortion.....	128
Uncomplicated Sepsis	128
Severe Sepsis.....	129
Multiple Organ Dysfunction Syndrome	129
Septic Shock.....	129
Diagnosis.....	129
Antimicrobial Treatment	130
Indications for Surgery	130
Surgical Management of Septic Abortion	130

Supportive Care	131
Prevention of Septic Abortion.....	131
Advantages of Medical Method of Abortion.....	132
Strategies to Reduce Unsafe Abortions	133
18. Puerperal Sepsis.....	135
<i>Shobha N Gudi</i>	
Puerperal Sepsis.....	135
Incidence	135
Predisposing Factors	135
Bacteriology	136
Pathogenesis	136
Clinical Presentation	136
Differential Diagnosis of Puerperal Fever.....	137
Investigations	137
Treatment	137
Management of Puerperal Septic Shock.....	138
Complications of Puerperal and Postabortal Sepsis.....	138
Septic Pelvic Thrombophlebitis	139
Toxic Shock Syndrome.....	139
Tetanus	139
Prevention of Infection.....	139
Prevention during Cesarean Section.....	140
Other Factors in Sepsis.....	140

PART V

OBSTRUCTED LABOR

19. Dysfunctional Labor	143
<i>Arulmozhi Ramarajan</i>	
Common Causes of Dysfunctional Labor	145
Use of Oxytocin.....	146
Case Situations of Dysfunctional Labor	147
Case 1. Prolonged Labor, CPD.....	147
Case 2. Rupture Uterus in Trial of Labor after Cesarean (TOLAC)	148
Case 3: Shoulder Dystocia	149
Case 4. Undiagnosed Breech.....	150
Case 5: Instrumental Delivery.....	150
Practice Recommendations	151
20. Obstetric Drills.....	153
<i>BSOG RCOG Workgroup</i>	
The Partogram.....	153
Details are Recorded on the Partogram.....	153
Purpose of the Partogram.....	155
Forceps and Ventouse	156

Shoulder Dystocia.....	156
Risk Factors.....	156
Management.....	157
Vaginal Breech Delivery	158
Prerequisites for Attempting Vaginal Breech Delivery	158
Situations where Breech Delivery should not be Attempted	158
21. Rupture of the Uterus	161
<i>Narayanan R</i>	
Etiology	161
Classification	161
Incidence	161
Clinical Presentation	162
Differential Diagnosis	163
Site of Rupture	163
Complications	163
Mortality	163
Case Scenarios	163
Case 1.....	163
Case 2.....	164
22. Cesarean Section.....	167
<i>Jaya Narendra</i>	
Causes for SAMM in Cesarean Section	167
Causes for Severe Bleeding	168
Case History 1	168
Placenta Previa and Abnormal Placental Invasion (API)	168
Cesarean Delivery of a Very Preterm Fetus	174
Case History 2	175
Case History 3	175
Case History 4	178
Cesarean Hysterectomy	179
Common Indications for Emergency Hysterectomy	179
Surgical Considerations and Technique.....	179
A Total or Subtotal Hysterectomy	179

PART VI

BOLT FROM THE BLUE

23. Amniotic Fluid Embolism.....	185
<i>RK Saxena, GS Sandhu</i>	
Pathophysiology	185
Clinical Presentation	186
Case 1.....	186
Case 2.....	187
Clinical Indicators of Severe Acute Maternal Morbidity	190

Differential Diagnosis	190
Key Investigations	190
Treatment	190
24. Thromboembolism in Pregnancy.....	197
<i>Prathima Reddy</i>	
Case 1.....	197
Case 2.....	198
Pathophysiology	198
Incidence	198
Sequelae	199
Risk Factors.....	199
Prevention.....	199
Clinical Features	200
Diagnosis.....	200
Management	201
25. Anesthetic Near-Misses in Obstetrics	205
<i>Sunitha</i>	
Challenges.....	205
Common Obstetric Presentations.....	206
Obstetric Anesthesia Cases.....	206
Case 1: Emergency Lower Segment Cesarean Section.....	206
Case 2: Traumatic Postpartum Hemorrhage on Table.....	207
Case 3: Supine Hypotension Syndrome.....	207
Case 4: Cardiac Arrest following Subarachnoid Block	207
Case 5: Amniotic Fluid Embolism at Cesarean Section.....	208
Labor Analgesia (LA)	210
Case 6: Labor Analgesia—Post-dural Puncture Headache.....	211
General Anesthesia.....	211
<i>Index</i>	213
