

Contents

- 1. Anatomy of the Eye** **1-36**
 - Anatomy of the Eye* 2
- 2. The Physiology of the Eyes and Optics** **37-86**
 - The Physiology of the Eye* 37
 - Visual Sensation* 38
 - Photochemical and Electrical Changes that Initiate Vision* 39
 - Physiological Optics* 54
 - Lenses* 61
 - Clinical Optics* 68
 - Abnormal Refraction* 68
 - Hypermetropia (Hyperopia)* 73
 - Aphakia* 78
 - Astigmatism* 80
- 3. Symptomatology** **87-105**
 - Diminished Distant Vision* 88
 - Diminished Near Vision* 99
 - Diminished Vision in Bright Light* 90
 - Diminished Night Vision* 90
 - Diminished Color Vision* 91
 - Colored Halos Round Lights* 91
 - Diplopia (Double Vision)* 91
 - Diminished Field of Vision* 92
 - Frequent Change in Power of Glasses* 95
 - Asthenopia* 95
 - Redness of the Eye* 96
- 4. Examination of the Eye** **106-178**
 - Importance of History Taking in Ocular Examination* 106
 - Ophthalmic Examination* 129
 - Examination of the Lids* 138
 - Lagophthalmos* 144
- 5. Disorders of the Lids** **179-204**
 - Ptosis* 179
 - Congenital Ptosis* 180
 - Acquired Ptosis* 181
 - Myogenic Ptosis* 182
 - Distichiasis* 184
 - Abnormalities of Lid Margin* 185

6. Disorders of the Lacrimal System	205-214
<i>Drainage of Tear</i> 206	
<i>Watering of the Eyes</i> 207	
<i>Chronic Dacryocystitis</i> 210	
7. Diseases of the Orbits	215-225
<i>Proptosis</i> 215	
<i>Exophthalmos</i> 218	
<i>Orbital Cellulitis</i> 219	
<i>Orbital Periostitis</i> 220	
8. Diseases of Conjunctiva	226-246
<i>Hyperemia</i> 227	
9. Diseases of the Cornea	247-272
<i>Congenital Disorders of the Cornea</i> 252	
<i>Contact Lenses</i> 267	
<i>Contact Lens Care</i> 270	
10. Disorders of the Globe and Sclera	273-279
<i>Enophthalmos</i> 274	
<i>Phthisis Bulbi</i> 275	
<i>Episcleritis</i> 276	
<i>Staphyloma</i> 277	
11. Disorders of the Lens	280-301
<i>Cataract</i> 282	
<i>Cataract in Adults</i> 283	
<i>Aphakia</i> 294	
<i>Pseudophakia</i> 296	
<i>Abnormal Position of Lens</i> 299	
12. Disorders of the Uvea	302-323
<i>Hypopyon</i> 312	
13. Glaucoma	324-336
<i>Formation of Aqueous Humor</i> 326	
<i>Types of Glaucoma</i> 328	
14. Disorders of the Retina and Optic Nerve	337-372
<i>Features of Retinal Disorders</i> 338	
<i>Retinal Trauma</i> 344	
<i>Specific Types of Retinitis</i> 347	
<i>Common Macular Disorders</i> 354	
<i>Age-related Macular Degeneration (ARMD)</i> 355	
<i>Hypertensive Retinopathy</i> 358	
<i>Retinopathy of Pregnancy</i> 359	
<i>Retinal Detachment</i> 362	

<i>Tumors of Retina</i>	364
<i>Disorders of the Optic Nerve</i>	365
<i>Papilledema (Swollen Disc)</i>	370
<i>Optic Atrophy</i>	371
15. Squint (Strabismus)	373-386
<i>Diplopia</i>	374
<i>Squint</i>	375
<i>Latent Squint (Heterophoria)</i>	376
<i>Manifest Squint (Heterotropia)</i>	378
<i>Nystagmus</i>	385
<i>Index</i>	387-406
