

Contents

1. Current Approaches to the Management of Fibroids 1

Isaac Manyonda, Latika Narang

- Expectant Management 2
- Surgical Management 2
- Radiological Treatments 6
- Medical Management 7
- Other Treatment Modalities 13
- Concluding Remarks 14

2. Tumor Markers in Gynecological Cancers.....22

Asha Kapadia, Muzammil Shaikh

- Serum Markers for Ovarian Cancer 22
- Serum Markers in Epithelial Ovarian Cancer 23
- Other Markers for Ovarian Cancer 25
- Serum Tumor Markers in Nonepithelial Ovarian Cancer 26
- Serum Markers for Other Gynecological Cancers 27

3. Emergency Contraception—Rational Use for Women’s Health33

Suneeta Mittal, Neha Gupta

- History 33
- Need for Emergency Contraception in India 34
- Indications of Use of Emergency Contraception 35
- Contraindications of Use of Emergency Contraception 35
- Current Methods of Emergency Contraception 35
- Mechanism of Action of Emergency Contraception 39
- Effectiveness and Probability of Conception 40
- Prescribing the Pill 40
- Initiating Regular Contraception after Emergency Contraception 42
- Social and Ethical Issues with Emergency Contraception Use 45
- Future of Postcoital Contraceptives 46

4. Current Management of Tubal Pregnancy.....49

Vishwanath Karande, Sigal Klipstein

- Incidence 49
- Risk Factors for Tubal Ectopic Pregnancy 50
- Pathogenesis 51
- Diagnosis of Tubal Ectopic Pregnancy 51
- Use of Transvaginal Ultrasonography and Serial Human Chorionic Gonadotropin Levels 52
- Medical Treatment of Tubal Pregnancy 53
- Surgical Treatment of Ectopic Pregnancy 57
- Salpingectomy versus Salpingostomy 58
- Laparoscopic Salpingectomy 58
- Laparoscopic Linear Salpingostomy 58
- Adjunctive Use of MTX 59

5. Optimizing Ovulation Induction63

Madhuri Patil

- Ovarian Cycle and its Physiology 64
- Ovulation Induction 68

X ❖ Clinical Progress in Obstetrics and Gynecology

- Luteal Phase Support 80
- Ovulation Induction in Special Situations 88
- Monitoring Ovulation Induction Cycles 93

6. Third Party Reproduction106

Duru Shah, Anita Soni, Seeru Garg

- Important Definitions 107
- Historical Context 108
- Reproductive Tourism in India 109
- Surrogacy and Law 110
- Egg (Ovum) Donation 121
- Sperm Donation 122
- Embryo Donation 123
- Types of Surrogacy 125
- Our Experiences with Gestational Surrogacy 126

7. A Clinical Approach to Female Sexual Pain134

Shantanu Abhayankar

- Prevalence 134
- Problem of Classification 134
- Definitions 135
- Neurobiology of the Pelvis 135
- Individual Psychological and Personality Characteristics in Women with Vaginismus 136
- Individual Psychological and Personality Characteristics in Women with Dyspareunia (and/or Vestibulitis) 136
- Mucous Membranes and Sexual Pain Disorders 136
- Common Etiologies 137
- Clinical Approach to Sexual Pain 138
- Treatment 144

8. Domestic Violence Against Women—A Universal Challenge147

Suchitra Dalvie

- Risk Factors 148
- Scope of the Problem 149
- Women's Rights are Human Rights 150
- Intimate Partners and Sexual Violence 150
- Social and Economic Costs 151
- Prevention 151
- WHO Response 152
- Violence Against Women in Asia and India 152
- Medical Complications Because of Violence Against Women 154
- Economic Violence 155
- Role of the Law 155
- Role of Physician/Gynecologist 156

9. Metabolic Disorders after Menopause161

Stamatina Iliodromiti, Mary Ann Lumsden

- Menopause and Hyperlipidemia 161
- Menopause and Hypertension 163
- Menopause and Diabetes 164
- Menopause and Endothelial Function 164
- Menopause and Obesity 165

- Menopause and Coronary Heart Disease 166
- Menopause and Ethnicity 168

10. Use of Mesh in Urogynecology.....172
Jay Iyer, Ajay Rane

- Anatomy of the Pelvic Floor and the Functional Relationship to Pelvic Organ Prolapse 172
- Why did Pelvic Floor Surgeons Feel the Need for Mesh? 177
- Tips and Pearls 181
- Postoperative Orders and Management 182
- Change in Practice Following the FDA Notifications 182
- The Future of Mesh in Urogynecology 184

11. Intrapartum Fetal Monitoring Towards Improved Perinatal Outcome186
Niraj Yanamandra, Sabaratnam Arulkumaran

- Prognosis 186
- Clinical Surveillance 188
- Shortfalls with Intermittent Auscultation 189
- Biophysical Methods of Fetal Surveillance 189
- Shortfalls of Electronic Fetal Monitoring Using Cardiotocography 191
- Shortfalls of Fetal ECG 192
- Shortfalls of Fetal Pulse Oximetry 193
- Biochemical Means of Fetal Surveillance 194
- Shortfalls of Fetal Blood Sampling 196

12. Gestational Diabetes Mellitus—A Growing Concern.....199
Sujata Mishra

- Gestational Diabetes Mellitus Pathogenesis 199
- Etiopathogenesis of Gestational Diabetes Mellitus Possible Explanations 200
- Screening and Diagnosis 200
- World Health Organization Diagnostic Criterion 201
- American Diabetes Association Criterion—Evolution 201
- ADA Diagnostic Criteria 202
- Hyperglycemia and Adverse Pregnancy Outcome (HAPO) Study 203
