

Contents

SECTION 1: PHYSIOLOGY AND PATHOPHYSIOLOGY

- 1. Critical Care Illness in the Obstetric Patient** **1**
Alokendu Chatterjee, Joydev Mukherjee
Breathing 7
Circulation 7
Shock 7
Hypertensive Disorders in Pregnancy 13

SECTION 2: SHOCK AND SYNDROME

- 2. Amniotic Fluid Embolism** **17**
Sudip Chakravarti
Incidence 17
Imaging Studies 20
Histologic Findings at Autopsy 20
- 3. Disseminated Intravascular Coagulation in Obstetrics** **24**
Manju Gita Mishra, Usha Sharma
Minimal Acceptable Criteria 24
Amniotic Fluid Embolism 27
Chronic DIC 30
- 4. Trauma in Obstetrics** **32**
Kusum Gopal Kapoor
Physiological Changes 33
Injury to the Mother 34
Injury to Uterus and Fetus 35
General Approach to Trauma Patient 36
Diagnostic Imaging 37
Electric Injury 37
- 5. Burn** **39**
Mala Sinha
Causes 39
Accidental 39
Homicidal 41
Suicidal 41
Always Overestimate the Percentage of Burn Area 43
Extremes of Ages Tolerate Burn Injuries Poorly 43
Men are Tougher Against Burn Injury 43
Obesity is an Ardent Enemy of Burn Injury 43
Mortality 44
Treatment 44

6. Sepsis in Obstetrics	48
<i>Narendra Malhotra, Jaideep Malhotra</i>	
Recent Understanding of Sepsis and its Pathophysiology	49
Assessment and Management	54
Medication	55
The Future of Sepsis Management	57
7. Massive Obstetric Hemorrhage	60
<i>Revathi S Rajan, Kamini A Rao</i>	
Management of Massive Obstetric Hemorrhage	61
Plan of Action in Obstetric Hemorrhage (Antepartum)	61
Considerations During Blood Transfusion	62
Recommended Protocol For Blood Products in Massive Obstetric Hemorrhage	63
Plan of Action in Obstetric Hemorrhage (Post-Partum)	66
Management	66
Uterine Packing	68
Uterine Tamponade	68
Compression Sutures	69
Surgical Ligation of Pelvic Vessels	70
Selective Arterial Embolization	71
8. Ovarian Hyperstimulation Syndrome (OHSS) and Pregnancy	73
<i>Duru S Shah, Shefali Bansal</i>	
Pathogenesis of OHSS	73
OHSS Classification	73
Prediction and Prevention of OHSS	74
Types of OHSS	74
Management of OHSS in Pregnancy	78
9. Postpartum Collapse	82
<i>Rita Sinha</i>	
Incidence	82
Causes	82
Presentation	83
Diagnosis	83
Prevention	86
Specific Management	87
10. Critical Care in Septic Shock	89
<i>SN Tripathy</i>	
Pathophysiology	91
Role of Macrophages	91
Role of Microvascular Endothelial Cells	91
Role of Neutrophils	92
Receptors	92
Other Inflammatory Barriers	93
Management	97

SECTION 3: MEDICAL DISORDERS IN PREGNANCY

- 11. Thyroid and Emergencies in Pregnancy 104**
Nirmala Saxena
 Maternal Hypothyroidism 106
 Treatment 107
 Myxedema Coma 107
 Hypoparathyroidism 107
 Management 108
 Maternal Hyperthyroidism 108
 Management 109
 Thyroid Crisis 110
- 12. Acute Respiratory Diseases in Pregnancy 113**
Pramila Modi, Charu Modi
 Infections 113
 Investigating Respiratory Diseases in Pregnancy 115
 Goals of Asthma Control During Pregnancy 118
 Respiratory Emergency in Pregnancy and Labor 118
- 13. Acute Pancreatitis in Pregnancy 122**
Neelam
 Causes and Risk Factors 122
 Pathogenesis 122
 Pathophysiology 123
 Presentation, Symptoms and Signs 123
 Investigations 124
 Differential Diagnosis 124
 Diagnosis 125
 Prognostic Indicators 125
 Clinical Indicators of Poor Prognosis: Ranson's Criteria 125
 Management 125
 Treatment 126
 IV Fluids 126
 Respiratory System Care 126
 Cardiovascular Complication 126
 Metabolic Complications 126
 Antibiotics 126
 Role of Surgery 127
 Diagnostic and Therapeutic Algorithm 127
 Complications 127
 Pregnancy Considerations 129
- 14. Acute Renal Failure in A Critically-ill Obstetric Patient 131**
Shyam V Desai, Gaurav S Desai, Bindu Sudhir
 Definition of Acute Renal Failure 131
 Etiology 132
 Pathogenesis 132
 Pregnancy Related Causes 133
 Diagnosis and Evaluation 133

- 15. Fatty Liver Disorder with Jaundice in Pregnancy** **135**
Neelu Soni, Sushma Jhamad
 Liver Function in Normal Pregnancy 135
 Acute Fatty Liver of Pregnancy 136
 Preeclampsia/Eclampsia 140
 HELLP Syndrome 142
 Viral Hepatitis 146
- 16. Pregnancy with Cardiac Disease: A Critical Review** **150**
Sushma Singh, Abha Rani Sinha, Shanti HK Singh
 Normal Physiological Change During Pregnancy,
 Delivery and Postpartum 150
 Risks to the Mother 150
 Risk to the Fetus 151
- 17. Critical Care of Severely Anemic Patient** **159**
Alka Kriplani, Reeta Mahey, BB Dash
 Predisposing Factors for Anemia in Pregnancy 159
 Impact of Maternal Anemia 160
 Investigation for a Patient with Severe Anemia 161
 Calculation of Iron Dose Requirement 163

SECTION 4: MIXED BAG

- 18. Obstructed Labor** **168**
Shobha Chakraborty
 Obstructed Labor—An Avoidable Tragedy 168
 Management 170
 Craniotomy 172
- 19. Severe Preeclampsia, Eclampsia: Obstetrician's Nightmare** **175**
Jagdishwari Mishra, Abha Rani Sinha, Rita Kumari Jha
 Etiopathogenesis 175
 Risk Factors 176
 Laboratory Findings 177
 Management 178
- 20. Care of Baby Born of Critically-ill "Mothers"** **184**
Arun Kumar Thakur
 Resuscitation of Newborn 185
 Anticipation of Resuscitation Need 186
 Initial Steps 186
 Medications 190
 Postresuscitation Care 191
 Guidelines for Withholding and Discontinuing Resuscitation 192
 Structure of Educational Programs to Teach Neonatal Resuscitation 193

21. Airway and Ventilation	197
<i>Rajendra Prasad</i>	
Indications for Airway Care	198
Indications for Ventilation/Respiratory Support	198
Indications for Ventilatory Support	199
Who can Provide Care?	200
What are the Ways and Means to Provide Them?	200
Difficult Airway Prediction and Strategical Approach	205
Monitoring During Respiratory Support	209
Ventilatory Support in Special Conditions	209
Complications Associated with Artificial Ventilation	210
22. Blood and Blood Components Transfusion in Obstetric Practice	211
<i>Upendra Prasad Sinha, Hemali Heidi Sinha</i>	
Magnitude of the Problem	211
Massive Transfusion	212
Clotting Factors	213
Platelet	214
Risk of Transfusion	215
Hospital Transfusion Committee	218
23. Acute Hypertensive Crisis in Pregnancy	220
<i>Pragya Mishra Choudhary</i>	
Defining A Crisis	221
Minimizing Organ Damage	221
Management	224
24. Antepartum Hemorrhage	230
<i>Suneeta Mittal, Pakhee Aggarwal</i>	
Definition	230
Management	230
Problems at Cesarean	233
Management	235
25. Fetal Considerations in the Critically-ill Gravida	239
<i>K Aparna Sharma, Shrikanth Srinivasan, Dipika Deka</i>	
Etiology of Critical Illness in Pregnancy	239
Maternal and Fetal Physiology	240
Fetal Considerations in Trauma	242
Maternal Radiological Investigation of the Abdomen	242
Complications of Maternal Trauma in the Fetus	243
Evaluation of the Fetus	243
Management of the Mother	244
Management of the Fetus	245
Indications for Delivery	246
Cardioversion in Pregnancy	246
Medications	246
Perimortem Cesarean Section	247

SECTION 5: NEW FRONTIERS

26. Cancer in Pregnancy	249
<i>CN Purandare, Madhuri Patel, Mukesh Patil, Nikhil Purandare</i>	
Principles of Cancer Therapy During Pregnancy	249
Genital Tract Cancer	251
Cervical Cancer in Pregnancy	251
Management	253
Ovarian Cancer in Pregnancy	255
Endometrial Carcinoma in Pregnancy	257
Vulvar Cancer in Pregnancy	258
Vaginal Cancer in Pregnancy	258
Breast Cancer in Pregnancy	259
27. Role of Imaging in Obstetric Emergencies	268
<i>PK Shah, Vijay Ghorpade</i>	
Obstetric Emergencies	268
28. Perimortem Cesarean Delivery	291
<i>Shanti Roy</i>	
Pregnancy Specific Conditions Associated with Sudden Cardiac Arrest	291
Maternal Advantages of PMCD	292
Timing of PMCD	292
Procedure	292
29. Medicolegal Aspects of the Critically-ill Obstetric Patient	294
<i>Gita Ganguly Mukherjee, Basab Mukherjee, Mayukh Ray</i>	
Critical Care in Obstetrics—An Overview	294
Outline of Management	296
<i>Index</i>	301
