

Contents

Section 1: Basic Principles and Procedures

1. Introduction: The History, Evolution and Development of Phonomicrosurgery	3
2. Patient Selection	5
Patient Selection and Consent	5
Documentation	6
Timing of Voice Surgery	6
3. Anatomy and Physiology of the Voice: A Brief Overview	8
Anatomy of the Voice	8
Physiology of the Voice	12
4. Preoperative Voice Evaluation and Care	16
History	16
Physical Examination	16
Voice Measures	16
Informed Consent, Timing of Voice Surgery and Related Considerations	17
5. Indirect Laryngoscopy	18
Surgical Techniques	19
6. Direct Laryngoscopy	21
7. Anesthesia	25
Local Anesthesia	25
General Anesthesia	26
8. Instrumentation	30
9. Submucosal Infusion and Laryngeal Microsurgery	37

Laryngeal Surgery

10. Laryngeal Laser Surgery	38
<i>Jean Abitbol, Robert T Sataloff</i>	
Characteristics of Lasers Required for Phonomicrosurgery	40
Types of Lasers	40
Limitations of Surgery	43
Phonomicrosurgical Procedures	43
Microlaryngoscopy Procedures	44
Anesthesia Techniques, Risks and Complications	44
Principles of CO ₂ Laser Phonomicrosurgery	45
Laser Phonomicrosurgical Techniques for Types of Lesions	45
Surgical Classifications	47
Complications of Laser Phonomicrosurgery	48
Surgical Techniques: KTP Laser	49
Surgical Techniques: CO ₂ Laser	50
11. Voice Cosmesis: The Voice Lift	54
12. Postoperative Voice Care	56
Voice Rest	56
Steroids	56
Antireflux Medications	56
Voice Therapy	56
Individual Considerations	57

Section 2: Benign Structural Lesions

13. Vocal Fold Cysts	61
Surgical Techniques	65
14. Vocal Fold Nodules	71
Vocal Fold Nodules in Children	71
Surgical Techniques	73
15. Vocal Fold Polyps	77
Surgical Techniques	80
16. Varicosities, Ectatic Vessels and Vocal Fold Hemorrhage	86
Surgical Techniques	89

17. Reinke's Edema	92
Surgical Techniques	94
18. Granulomas and Vocal Process Ulcers	98
Surgical Techniques	99
19. Papilloma	105
Surgical Techniques	107
20. Supraglottoplasty	113
Surgical Techniques	113
21. Vocal Fold Scar	116
Therapy for Vocal Fold Scar	116
Surgery for Vocal Fold Scar	117
Surgical Techniques	119
22. Sulcus Vocalis	127
Pseudosulcus Vocalis and Sulcus Vergeture	127
Treatment of Sulcus Vocalis and Mucosal Bridge	128
23. Laryngeal Webs	130
24. Posterior Glottic Stenosis	135
<i>Joseph R Spiegel, Robert T Sataloff, Farhad Chowdhury, Mary J Hawkshaw</i>	
Endolaryngeal Procedures	136
Open Laryngeal Procedures	136
Surgical Techniques	138
25. Subglottic Stenosis	140
Surgical Techniques	141
26. Bowed Vocal Folds and Presbyphonia	149
Bowed Vocal Folds	149
Presbyphonia	149

Section 3: Premalignant and Malignant Lesions of the Larynx

27. Premalignant Lesions of the Larynx	153
<i>Carole M Dean, Robert T Sataloff, Farhad Chowdhury, Mary J Hawkshaw</i>	
Terminology	153

Laryngeal Surgery

Epidemiology and Etiological Factors 155

Malignant Transformation 156

Laryngeal Papillomas 158

Surgical Techniques 160

28. Laryngeal Cancer

165

Timothy D Anderson, Robert T Sataloff, Farhad Chowdhury

Supraglottic Tumors 165

Glottic Tumors 170

Voice and Swallowing Rehabilitation after Total Laryngectomy 178

Subglottic Cancer 179

Surgical Techniques: Endoscopic Resection of Cancer
Involving the True Vocal Fold 179

Section 4: Neurogenic Voice Disorders

29. Vocal Fold Paresis/Paralysis

187

Adam D Rubin, Robert T Sataloff, Farhad Chowdhury

Teflon Injection 187

Gelfoam Injection 188

Collagen, Alloderm and Fascia Injection 188

Autologous Fat Injection 190

Removal of Teflon 192

Surgical Techniques 193

30. Thyroplasty

202

Type I Thyroplasty 202

Revision Thyroplasty 203

Other Types of Thyroplasty 205

Nomenclature 207

Surgical Techniques 207

31. Arytenoid Cartilage Adduction/Rotation, Cricothyroid Subluxation Arytenoidopexy and Arytenoidectomy

214

Nerve Anastomosis 220

Arytenoidectomy 221

32. Nerve Muscle Pedicle Surgery	223
Other Techniques	223
33. Other Techniques for Bilateral Vocal Fold Paralysis	225
34. Thyroarytenoid Neurectomy	227
<i>Robert T Sataloff</i>	

Section 5: Laryngeal Trauma

35. Laryngotracheal Trauma	231
<i>Yolanda D Heman-Ackah, Robert T Sataloff</i>	
Blunt Injury	231
Evaluation of the Blunt Trauma Patient without Airway Distress	235
Evaluation of the Blunt Trauma Patient with Airway Distress	238
Surgical Evaluation	238
Open Exploration and Repair	239
Penetrating Injuries	243
Caustic and Thermal Injuries	244
Iatrogenic Injuries	244
36. Vocal Process Avulsion	248
Surgical Techniques	248
37. Cricothyroid and Cricothyroid Joint Fixation and Injury: Evaluation and Treatment	251
Cricothyroid Joint Injury	251
Embryology and Anatomy	252
Arytenoid Dislocation: Diagnosis	253
Techniques for Surgical Reduction of Arytenoid Dislocation	255
Adjunctive Measures	258
Cricothyroid Joint Injury	261
