## 1. Classification and Diagnosis of Hypertensive Disorders of Pregnancy: A Practical Approach

1

*Sanjay A Gupte, Girija Wagh*

- Definition of Hypertension During Pregnancy 1
  - Gestational Hypertension 1
  - Preeclampsia 1
  - Chronic Hypertension 3
  - Preeclampsia Superimposed on Chronic Hypertension 3
  - Paradox 3
- Clinical Classification of Preeclampsia 4
- Severity Classification of Preeclampsia 4
- HELLP Syndrome 4
  - Classification of HELLP 5
- Diagnosis of Hypertension in Pregnancy 5
  - Proteinuria 6
  - Weight Gain and Edema 6
- Symptoms 6
- Laboratory Evaluation 7
  - Hemodynamic Investigations 7
- Differential Diagnosis 7
- Challenges in the Low Resource Settings 7

## 2. Etiology and Pathophysiology of Hypertensive Diseases

11

*Hiten D Mistry, Fiona Broughton Pipkin*

- Placentation 11
- Hypertensive Disorders of Pregnancy 12
  - Chronic Hypertension 13
  - Gestational Hypertension 14
- Preeclampsia 14
  - Risk Factors for Preeclampsia 14
  - The Cardiovascular System and Preeclampsia 15
  - Renal Function and Preeclampsia 16
  - Placentation and Preeclampsia 16

- Oxidative Stress and Preeclampsia 17
- Antioxidant Supplementation in Preeclampsia 18
- Endothelial Dysfunction and Preeclampsia 19
- Growth Factors and Preeclampsia 20
- Immunology and Preeclampsia 21
- Paternal Contribution 21
- Genetics and Preeclampsia 22

### 3. Prediction of Preeclampsia: Biochemical and Biophysical Parameters

30

*Vikram Sinai Talaulikar, Sabaratnam Arulkumaran*

- Preeclampsia as a Spectrum of Disease and “Early” Versus “Late” Onset Preeclampsia 30
- Predictive Tests for Preeclampsia 30
- Biophysical Parameters 31
  - Clinical Factors (Maternal History and Examination) 31
  - Doppler Ultrasound of Uteroplacental Circulation 33
  - Structural Capillary Rarefaction and the Onset of Preeclampsia 34
- Biochemical Parameters 34
  - Free Fetal Nucleic Acids 35
  - Pregnancy Associated Protein A 35
  - Placental Protein 13 35
  - Cystatin C 36
  - Fetal Hemoglobin and Alpha1-Microglobulin 36
  - Pentraxin 3 36
  - Markers Related to Angiogenesis 36
  - Other Markers 37
- Combining Biophysical and Biochemical Markers for Preeclampsia Prediction 37
- Screening—Need for Simplicity as Well as Accuracy 38

### 4. Prevention Strategies in Preeclampsia

42

*Gita Arjun*

- Identifying Risk Factors for Developing Preeclampsia 42
- Screening Tests for Preeclampsia 42
- Interventions for the Prevention of Preeclampsia 43
  - Antiplatelet Agents 43
  - Low Molecular Weight Heparin 45
  - Calcium 45

- Antioxidant Therapy 45
- Nitric Oxide 46
- Other Measures 46

## 5. Maternal Vascular Differences in Preeclampsia

48

*Vikram Sinai Talaulikar, Isaac T Manyonda*

- Early Vascular Changes in the Uteroplacental Circulation in Normal Pregnancy and Preeclampsia 48
- Doppler Assessment of Uterine Vasculature 49
- Microcirculation in Normal Pregnancy and Preeclampsia 50
- Vascular Endothelium in Normal Pregnancy and Preeclampsia 51
  - Role of Nitric Oxide, Prostacyclins and Other Molecules 52
- Changes in Circulating Angiogenic Factors in Preeclampsia 54

## 6. Antihypertensive Therapy in Hypertension

58

*Evita Fernandez, Sirisha Rao Gundabattula*

- Severity of Hypertension 58
- Goal of Treatment 58
- Antihypertensive Rationale—How Does it Differ from Nonpregnant Adults? 59
- Chronic Hypertension 59
  - Preconception Counseling 59
  - Antenatal Period 59
  - Postnatal Period 59
- Gestational Hypertension and Preeclampsia 59
  - Antenatal Period 59
  - Postnatal Period 59
- Antihypertensive Agents in Pregnancy 59
  - Angiotensin-converting Enzyme Inhibitors 60
  - Methyldopa 60
  - Beta-Blockers 61
  - Nifedipine 61
  - Hydralazine 61
  - Sodium Nitroprusside 61
  - Diuretics 61
  - Ketanserin 62
- When to Start Antihypertensive Therapy? 62
  - Severe Hypertension 62
  - Mild to Moderate Hypertension 62

## Hypertensive Disease in Pregnancy

xiv

- What is the Target Blood Pressure to be Achieved? 62
- Which Antihypertensive Medication is Preferred? 63
  - Nonsevere Hypertension 63
  - Severe Hypertension 63
  - Very High Blood Pressure 63
- How to Administer Therapy? 63
- Antihypertensives in the Postpartum Period 64

### 7. Fetal Assessment in Hypertensive Diseases in Pregnancy

66

*PK Shah, Parikshit D Tank*

- Rationale for Fetal Assessment in Hypertensive Disease in Pregnancy 66
- Evidence for Fetal Assessment in Hypertensive Disease in Pregnancy 66
- Fetal Assessment in Early Pregnancy 67
- General Principles for Fetal Assessment in Late Pregnancy 68
  - Fetal Movement Counting 68
  - Electronic Fetal Heart Rate Monitoring 68
  - Fetal Biometry 69
  - Amniotic Fluid Index and Biophysical Profile 69
  - Color Doppler Velocimetry—Umbilical Artery 70
  - Color Doppler Velocimetry—Other Vessels 72

### 8. Maternal Assessment in Hypertensive Disease of Pregnancy

75

*Suchitra N Pandit, Gorakh G Mandrupkar, Rana Choudhary*

- Severity of Hypertension 75
- Classification 75
  - Gestational Hypertension 76
  - Preeclampsia 76
  - Chronic Hypertension 76
  - Preeclampsia Superimposed on Chronic Hypertension 76
  - Eclampsia 76
- Measurement of Blood Pressure 76
  - Measurement Devices 76
  - Twenty-four Hour Ambulatory Blood Pressure Monitoring 76
- Investigation of New Onset Hypertension in Pregnancy 76
  - Measurement of Proteinuria 76
  - Complete Blood Count 77
  - Liver Function Tests 77
  - Renal Function Tests 77
  - Special Investigations 77

- Monitoring 77
  - The Research Need of the Hour 77
  - Fetal Surveillance 78

## 9. Medical Disorders Presenting with Hypertension in Pregnancy—Renal, Vascular, Connective Tissue and Endocrine Disease: Diagnosis and Management

79

*Vikram Sinai Talaulikar, Sabaratnam Arulkumaran*

- Definition and Magnitude of the Problem 79
- Risks to Mother and Fetus 79
- Etiology of Chronic Hypertension in Pregnancy 79
- Diagnosis and Investigation of Medical Conditions Presenting with Hypertension in Pregnancy 80
  - History 80
  - Clinical Examination 80
  - Blood, Urine and Imaging Investigations 80
- Management of Chronic Hypertension in Pregnancy 81
  - Rationale Behind Treatment 81
  - Prepregnancy Care and Counseling 81
  - Antenatal Care and Antihypertensive Therapy 81
  - Timing of Initiation and Goals of Therapy 81
  - Choice of Antihypertensive Agent 82
  - Fetal Surveillance 83
  - Intrapartum and Postpartum Care 83
- Specific Medical Conditions in Pregnancy 84
  - Renal Disorders in Pregnancy 84
  - Coarctation of the Aorta 85
  - Connective Tissue Disorders 85
  - Conn's Syndrome, Pheochromocytoma and Cushing's Syndrome 86

## 10. HELLP Syndrome

88

*Vikram Sinai Talaulikar, Sabaratnam Arulkumaran*

- Definition 88
- Incidence 89
  - Maternal and Perinatal Risks 89
- Pathophysiology 89
- Clinical Features and Laboratory Findings 90
  - Symptoms and Signs 90
  - Laboratory Findings 90

## Hypertensive Disease in Pregnancy

---

xvi

- Differential Diagnosis 90
  - Acute Fatty Liver of Pregnancy 91
  - Thrombotic Thrombocytopenic Purpura 91
  - Hemolytic Uremic Syndrome 91
- Management 91
  - Intrapartum Management 92
- Corticosteroids for Treatment of HELLP Syndrome 93
- Postpartum Care and Counseling for Future Pregnancies 93

### 11. Atypical Presentations in Hypertensive Disease in Pregnancy 96

*Alex C Vidaeff, Michael A Belfort*

- Areas of Contention in the Conventional Diagnosis of Preeclampsia 96
- The Challenge of Severe Atypical Preeclampsia 97
- Atypical Eclampsia in Epidemiologic and Clinical Context 100

### 12. Timing and Mode of Delivery in Hypertensive Disorders of Pregnancy 107

*Lavanya Rai*

- Timing of Delivery 107
  - Evaluation/Stabilization Window 108
  - Factors to Decide Timing of Delivery 108
- Severe Preeclampsia/Gestational Hypertension Prior to 34 Weeks 108
  - Aggressive Management 109
  - Expectant Management 109
- Severe Preeclampsia Prior to 28 Weeks 111
- Mild Preeclampsia/Gestational Hypertension 112
- Route of Delivery 113
  - Factors to Decide Route of Delivery 113
  - Cesarean Delivery 114
- Eclampsia 115
- Chronic Hypertension and Superimposed Preeclampsia 116
- Management of Labor 116
  - First Stage 116
  - Second Stage 117
  - Third Stage 117
- Postpartum Management 117
- Indications for Critical Care Unit and Invasive Monitoring 117

### 13. Anesthetic Considerations for Hypertensive Disease in Pregnancy 121

*Anthony Addei*

- Definitions and Classification 121
  - Preeclampsia 121
  - Severe Preeclampsia 122
  - Eclampsia 122
  - Hemolysis, Elevated Liver Enzymes and Low Platelet Count (HELLP) Syndrome 122
- Effect of Preeclampsia on Organ Systems and Anesthetic Implications 122
  - Central Nervous System 122
  - Respiratory System 122
  - Cardiovascular System 122
  - Hepatic System 122
  - Renal System 123
  - Hematologic System 123
  - Uteroplacental System 123
- Antenatal Management 123
  - High Dependency Care 123
  - Monitoring 123
  - Blood Pressure Control 123
  - Fluid Management 124
  - Eclampsia Prophylaxis 125
  - Analgesia and Anesthesia 125
- Postpartum Management 126

### 14. Management of Second and Third Stages of Labor in Hypertensive Disorders 130

*Hema Divakar, Girija Wagh, Jarita Deb*

- Dynamics of the Second and Third Stage of Labor—Difference in Hypertensive Disorder 130
  - Maternal Considerations—Second Stage Delays 132
  - Fetal Considerations—Fetal Hypoxia 132
- Maternofetal Considerations During an Eclamptic Convulsion 133
- Risk Assessment in Second Stage of Labor in Pregnancy Hypertension 133
  - Monitoring of Mother and Fetus in Second Stage of Labor 133
  - Obstetric Assessment 134

- Management in Second Stage of Labor in Pregnancy Hypertension 134
  - Prevention of Seizure and Control of Hypertension 134
  - Reduction of the Duration of the Second Stage of Labor 134
  - Management in Second Stage of Labor in HELLP Syndrome 134
  - Interventions that may be needed and Caution to be exercised 135
  - Pregnant Women with Chronic Hypertension 135
- Third Stage Management in Hypertension 136

### 15. Care of the Critically ill Mother

138

*Nishkantha Arulkumaran*

- Severe Preeclampsia 138
  - Hydralazine 139
  - Labetalol 140
  - Nitrates 140
  - Nifedipine 140
- Eclampsia 140
- Complications Related to Severe Preeclampsia 141
  - Acute Respiratory Failure 141
  - Altered Neurology 142
  - Acute Kidney Injury 142
  - HELLP Syndrome 143

### 16. Immediate Postpartum and Long-Term Care following Hypertension Disease in Pregnancy

146

*Nirmala Chandrasekaran, Basky Thilaganathan*

- Cardiovascular Physiology in the Postpartum Period 146
- Immediate Care During the Puerperium 147
- Analgesia and Thromboprophylaxis 147
- Monitoring 147
  - Blood Pressure Control 148
  - Other Therapeutic Strategies 148
- Long-Term Risks Associated with Hypertensive Diseases of Pregnancy 149
  - Risk of Recurrence in Subsequent Pregnancies 149
  - Risk of Cardiovascular Diseases and Stroke 149
- Predicting Future Disease 149
- Preventative Strategies 150
