

Contents

Part 1—Spotlight: Neonatal Nutrition

- 1. Nutrition in the Newborns: An Overview** **1**
Pankaj Barabde, Satish Tiwari
Nutritional Needs of a Newborn 2; Nutritional Implications for the Term Infant 4; Breastfeeding the Late Preterm Infant 6; Nutritional Implications for the Premature Infant 7; Enteral Nutrition 8; Parenteral Nutrition (PN) 12; Feeding in Specific Diseases/ Situations 15
- 2. Immunonutrients in Neonatal Practice** **25**
Uma Raju, Biju John, Daljit Singh, Shamsheer Dalal
Etiopathogenesis of Disease in Neonates 26; Immunonutrients 27; Current Dilemmas and Future Perspectives 33
- 3. Nutrition of the High-risk Neonates** **38**
Suraj Gupte, Mary Asher
Approach to Nutrition 39; Guidelines 39; Prematurity/ Low-birth Weight 39; Necrotizing Enterocolitis 40; Spontaneous Intestinal Perforation 41; Liver Failure 41; Renal Failure 41; Short Gut Syndrome 42; Postdischarge Follow-up 42
- 4. Vitamin D in the Perinatal Period: Emerging Concepts** **45**
Sheila S Mathai, KM Adhikari, Uma Raju
Sources of Vitamin D 46; Role of Vitamin D in the Pregnant Mother 46; Role of Vitamin D in the Fetus and Young Infant 47; Supplementation During Pregnancy 47; Supplementation in the Neonates and Infants 48; Recent Advances 49
- 5. Human Milk Banking: The Movement Crying for Rejuvenation** **52**
Suraj Gupte, Mary Asher, Nasreen Azmi
Background Philosophy 53; Chequered History 53; Applications 55; Regulatory Modalities 55; Risks 58; Current Scenario in Resource-limited Countries 58; Hopes, Concerns and Perspectives 59

Part 2—Miscellaneous Topics

- 6. Neonatal Resuscitation**

Ajay Gaur

Assessment of Oxygen, Need and Administration of Oxygen 63; Pulse Oximetry 63; Administration of Supplementary Oxygen 64; Initial Oxygen Concentration for Resuscitation in Case of PPV 64; Drugs 64; Supportive Care 65

61
- 7. Early-term Neonates: Are They Really Term?**

Bahubali D Gane, B Vishnu Bhat

Factors Contributing to Increased Birth Rate of Early-term Infants 69; Health Risks Associated with Early-term Birth 70; Prevention of Nonmedically-indicated Early-term Deliveries 73

68
- 8. Neonatal Transport: Current Status**

Dinesh Kumar Chirla, Preetham Kumar

Neonatal Transport: An Evolving Concept in India 78; Types of Transport 78; Organization of a Neonatal Transport Service 79; Clinical Stabilization Before Transfer 85; Communication and Documentation 86; Quality Assurance 86; Financial Implications 86; Use of CPAP in Neonatal Transport 86

77
- 9. Biomarkers for Encephalopathy in Perinatal Asphyxia**

Bahubali D Gane, B Vishnu Bhat

Important Biomarkers 91; Clinical Applications of Biomarkers 95

90
- 10. Therapeutic Hypothermia on Oxidative Stress-induced DNA Damage in Perinatal Asphyxia**

Bahubali D Gane, B Vishnu Bhat

Pathophysiology of Hypoxic Ischemic Encephalopathy 101; Oxidative Stress and DNA Damage in Asphyxia 102; Evaluation of DNA Damage 103; Effect of Therapeutic Hypothermia on Oxidative Stress-induced DNA Damage 106; Methods of Hypothermia 108

100
- 11. Neuroprotection in the Newborns**

Premashish Mazumdar

Pathogenesis of Neonatal Brain Injury 116; Identifying Babies at Risk 119; Neuroprotective Therapies/Strategies 120

115

12. Noninvasive Respiratory Support: Nasal CPAP and Noninvasive Ventilation	133
<i>Kannan Venkatnarayan, Uma Raju, Daljit Singh, Shamsher Dalal</i>	
How Does CPAP Work? 133; Indications of CPAP 134; Devices for CPAP 134; Devices for Generating Pressure 135; Timing of CPAP for Respiratory Distress Syndrome (RDS): How Early? 136; Prophylactic CPAP 136; Delivery Room CPAP 136; Optimal Pressure of CPAP 137; Use of Surfactant with CPAP 137; CPAP after Surfactant Administration 138; MIST and Other Methods of Surfactant Replacement 138; Weaning off CPAP 139; Failure of CPAP and its Predictors 139; CPAP for Post-extubation Scenarios 139; Noninvasive Respiratory Ventilation (NIV) 139; Mechanism of Action 140; Types of NIPPV and Instruments 140; Indications 140; Suggested Ventilator Settings and Criteria for Use of NIV 141; Nasal IPPV vs Nasal CPAP: Which is Better? 141; Commonly Encountered Practical Problems 142	
13. Neural Tube Defects	147
<i>Ramani Ranjan, Sudhir Mishra, Satish Tiwari</i>	
Spectrum 147; Epidemiology 148; Embryology 148; Etiology 149; Management 154; Prevention 156	
14. Newborn Screening	158
<i>Raktima Chakraborty, Balraj Yadav, Sanjay Wazir, Vishesh Kumar, Satish Tiwari</i>	
Criteria for Screening Programs 158; Metabolic Screening 163; Screening for Critical Congenital Heart Diseases 164; Hearing Screening 165; Vision Screening 166; Screening for Retinopathy of Prematurity (ROP) 166; Screening for Neonatal Hyperbilirubinemia 169; Neonatal Screening for Malformation 169; Screening for Developmental Dysplasia of Hip 171; Developmental Screening 172; Brief Description of the Commonly Screened Disorders 172	

- 15. Respiratory Distress in the Newborns**

Harmesh Singh Bains, Gaurav Singla

Normal Lung Development 178; Transition at Delivery 178; Breathing Patterns in Newborns 179; Acute Respiratory Disorders 179; Etiological Considerations in Neonatal Respiratory Distress 179; Transient Tachypnea of the Newborn 180; Respiratory Distress Syndrome 181; Meconium Aspiration Syndrome 182; Infections 182; Less Common Causes 183; Diagnostic Approach 185; Treatment 188

177
- 16. Persistent Pulmonary Hypertension of the Newborns—Newer Insights**

B Vishnu Bhat, Shruthi K Bharadwaj

Transition from Fetal to Neonatal Circulation 196; Pathophysiology of Pulmonary Hypertension 197; Pharmacotherapy 199

195
- 17. Neonatal Hyperbilirubinemia—What is New?**

Kannan Venkatnarayan Uma Raju, Daljit Singh, Shamsher Dalal

Risk Factors for Bilirubin Neurotoxicity 211; Indian Context 211; Clinical Spectrum of Bilirubin Induced Neurotoxicity 211; Guidelines for Management of Hyperbilirubinemia 213; Bilirubin Estimation for Risk Stratification 215; PredischARGE Risk Stratification 216; Phototherapy (PT) 217; Blood Exchange Transfusion (BET) 221; Role of Additional Therapies 223; Fluid Supplementation 224; Other Available Modalities 224

210
- 18. Neonatal Hypotension and Shock**

Shamsher Dalal, Uma Raju, Daljit Singh, Kannan Venkatnarayan

Measuring Blood Pressure in Neonates 231; Defining Hypotension in Neonates 231; Shock 232; Pathophysiology of Hypotension in Newborns 233; Etiology 234; Clinical Evaluation 235; Management 236; Common Clinical Scenarios of Shock in the Neonate and their Management 240

230
- 19. Neonatal Sepsis: Role of Genomics in the Diagnosis and Management**

B Vishnu Bhat, D Benet Bosco Dhas

Human Genome Project 245; Hapmap Project 245; Single Nucleotide Polymorphisms 246; Clinical Applications 250; Limitations of Genomic Markers 250

244

20. Neonatal Acute Kidney Injury (AKI)	257
<i>Harsh Sharma, Anjali Kulkarni</i>	
Criteria for Diagnosis 258; Incidence 258; Physiological Considerations 258; Etiology 259; Evaluation 260; Clinical Features 262; Management 263; Prognosis 268	
21. Perinatal Stroke	271
<i>Shamsher Dalal, Uma Raju, Daljit Singh, Kannan Venkatnarayan</i>	
Incidence 272; Pathology 272; Pathophysiology and Risk Factors 273; Cerebral Sinovenous Thrombosis 275; Clinical Presentation 275; Diagnostic Evaluation 276; Long-term Outcome 279	
22. Necrotizing Enterocolitis	283
<i>Dinesh Kumar Chirla</i>	
Incidence 284; Risk Factors 284; Clinical Presentation 288; Investigations 288; Pathology 292; Treatment Protocol 292; Mortality 296; Sequelae 296; Interventions and Directions for Future Research 296	
23. Community Care of the Newborns	300
<i>Bratati Banerjee</i>	
Continuum of Care 300; Evidence from Around the World 304; WHO and UNICEF Recommendations 305; Situation in India 306; Rationale for Home-based Newborn Care (HBNC) 307; Objective of HBNC 308; Key Activities in HBNC 308; Indicators to Measure Program Outcome 309; Present Status of HBNC 309	
24. Managing Pain in the Neonates	311
<i>KM Adhikari, Sheila S. Mathai, Uma Raju</i>	
Adverse Consequences 312; Painful Situations in a Neonate 312; Response of Neonates to Painful Stimuli 312; Assessment of Pain in Neonates 313; Management of Pain in Neonates 315; Surgery in Neonates and Pain Management 323; Pain Management in Neonatal Period: The Way Ahead 325	
25. Dysmorphic Neonates	330
<i>Vandana Negi, Shuvendu Roy, Uma Raju, VV Tewari</i>	
Incidence of Congenital Anomalies 331; Definitions 331; Diagnostic Clues 332; Approach to the Dysmorphic Neonate 333; Clinical Interpretation 337; Confirmation 338; Chromosomal Microarray Analysis (CMA) 341; Intervention 342	

26. Antibacterial Drugs in Neonatology Practice	346
<i>Suraj Gupte, Novy Gupte, Nafisa Quereshi</i>	
Amikacin 347; Ampicillin 348; Ampicillin-Sulbactam 348; Aztreonam 349; Ceftazidime 350; Ceftobiprole 350; Ceftriaxone 351; Cefotaxime 351; Clindamycin 352; Gentamicin 353; Metronidazole 353; Imipenem-Cilastatin 354; Linezolid 354; Meropenem 355; Netilmicin 356; Penicillin G (Crystalline Penicillin, Benzyl Penicillin) 356; Piperacillin 357; Piperacillin with Tazobactam 357; Rifampin (Rifampicin) 358; Ticarcillin 359; Ticarcillin with Clavulanic Acid 359; Tobramycin 360; Vancomycin 361	

<i>Index</i>	363
