SECTION 1

Disorders of Red Cells

1. Introduction	3
<i>Definition</i>	3
<i>Hematopoiesis</i>	4
2. Classification of Anemia	9
<i>Red cell</i>	9
<i>Anemia</i>	10
3. Iron Deficiency Anemia	14
<i>Iron metabolism</i>	14
<i>Iron deficiency anemia</i>	17
4. Megaloblastic Anemia	24
<i>Metabolism of vitamin B₁₂ and folic acid</i>	25
<i>Etiology of megaloblastic anemia</i>	28
<i>Laboratory findings of megaloblastic anemia</i>	29
<i>Anemias of vitamin B₁₂ deficiency</i>	33
<i>Anemia of folate deficiency</i>	38
<i>Nonmegaloblastic causes of macrocytic anemias</i>	39
5. Introduction and Classification of Hemolytic Anemia	41
<i>Hemolytic anemia</i>	43
<i>Classification of hemolytic anemias</i>	49
6. Hemolytic Anemias due to Red Cell Membrane Disorders	51
<i>Hereditary spherocytosis</i>	52
<i>Hereditary elliptocytosis</i>	55
7. Thalassemia Syndromes	57
<i>β-Thalassemia</i>	58
<i>α-Thalassemia</i>	66
8. Sickle Cell Disease	69
<i>Sickle cell anemia</i>	70
<i>Sickle cell trait</i>	78
<i>Other sickling syndromes</i>	79
<i>Other hemoglobinopathies</i>	80

9. Hemolytic Anemias due to Red Cell Enzyme Deficiencies	83
<i>Metabolic pathways in red blood cells</i>	83
<i>Glucose-6-phosphate dehydrogenase deficiency</i>	84
<i>Pyruvate kinase deficiency</i>	87
10. Immunochemolytic Anemia	89
<i>Alloimmune hemolytic anemia</i>	89
<i>Autoimmune hemolytic anemia</i>	92
11. Fragmentation Syndrome	98
<i>Classification</i>	98
<i>Laboratory findings</i>	99
12. Paroxysmal Nocturnal Hemoglobinuria	100
<i>Definition</i>	100
<i>Etiology and pathogenesis</i>	100
<i>Clinical features</i>	101
<i>Laboratory findings</i>	102
13. Aplastic Anemia	104
<i>Definition</i>	104
<i>Etiology</i>	104
<i>Pathogenesis</i>	105
<i>Clinical features</i>	106
<i>Laboratory findings</i>	107
14. Pure Red Cell Aplasia	110
<i>Definition</i>	110
<i>Etiology</i>	110
<i>Clinical features</i>	110
<i>Laboratory findings</i>	111
15. Miscellaneous RBC Disorders	112
<i>Anemia of chronic disease</i>	112
<i>Anemia of renal disease</i>	114
<i>Anemia of liver disease</i>	114
<i>Anemias of blood loss</i>	114
<i>Anemia associated with marrow infiltration (myelophthisic anemia)</i>	115
16. Sideroblastic Anemia	117
<i>Hereditary sideroblastic anemias</i>	118
<i>Acquired idiopathic sideroblastic anemia</i>	119
<i>Congenital dyserythropoietic anemias</i>	119
17. Approach to Anemias	121
<i>Approach to the diagnosis of anemia</i>	121
<i>Approach to the diagnosis of hemolytic anemia</i>	125

SECTION 2

Disorders of White Cells

18. Quantitative and Qualitative Disorders of White Blood Cells	129
<i>Classification of WBC disorders</i>	131
<i>Quantitative disorders of leukocytes</i>	132
<i>Qualitative disorders of leukocytes</i>	138
19. Infectious Mononucleosis	141
<i>Definition</i>	141
<i>Pathogenesis</i>	141
<i>Clinical features</i>	143
<i>Laboratory findings</i>	144
<i>Lesions associated with EBV infection</i>	146
20. Introduction to Acute Leukemia	147
<i>Neoplastic proliferations of white cells</i>	147
<i>Acute leukemia</i>	148
21. Acute Lymphoblastic Leukemia	158
<i>Acute lymphoblastic leukemia</i>	158
<i>Acute lymphoblastic lymphoma</i>	162
22. Acute Myelogenous Leukemia and Related Neoplasm	164
<i>Acute myelogenous leukemia</i>	164
<i>Myeloid sarcoma</i>	167
23. Myelodysplastic Syndromes	170
<i>Definition</i>	170
<i>Classification</i>	170
<i>Etiology and molecular pathogenesis</i>	172
<i>Clinical features</i>	173
<i>Laboratory findings</i>	173
24. Myeloproliferative Neoplasm	176
<i>Essential thrombocythemia</i>	177
<i>Primary myelofibrosis</i>	178
25. Chronic Myelogenous Leukemia and Other Myeloid Neoplasms	182
<i>Chronic myelogenous leukemia</i>	182
<i>Myelodysplastic/myeloproliferative neoplasms</i>	189
26. Polycythemia	192
<i>Polycythemia vera</i>	193

27. Chronic Lymphocytic Leukemia and Other Lymphoid Leukemias	197
<i>Chronic lymphocytic leukemia</i>	197
<i>Prolymphocytic leukemia</i>	201
<i>Hairy cell leukemia</i>	202
28. Plasma Cell Neoplasms	206
<i>Multiple myeloma (plasma cell myeloma)</i>	207
<i>Plasmacytoma</i>	215
<i>Immunoglobulin deposition diseases</i>	216
<i>Monoclonal gammopathy of uncertain significance</i>	216
<i>Osteosclerotic myeloma</i>	216
29. Lymphopoietic System	219
<i>Lymph nodes</i>	219
<i>Development of lymphocytes (lymphopoiesis)</i>	221
30. Lymphoid Neoplasms	226
<i>Classification of lymphoid neoplasms</i>	227
<i>Precursor lymphoid neoplasms</i>	228
<i>Mature B cell neoplasms</i>	228
<i>Mature T cell and NK cell neoplasms</i>	240
31. Hodgkin Lymphoma	247
<i>Classical Hodgkin lymphoma</i>	251
<i>Nodular lymphocyte predominant Hodgkin lymphoma</i>	256
<i>Etiology and pathogenesis of Hodgkin lymphoma</i>	258
<i>Laboratory findings</i>	259
<i>Clinical features</i>	260
32. Langerhans Cell Histiocytosis	264
<i>Definition</i>	264
<i>Morphology</i>	264
<i>Laboratory findings</i>	265

SECTION 3

Disorders of Hemostasis

33. Normal Hemostasis and its Components	269
<i>Platelets</i>	269
<i>Blood vessel wall</i>	270
<i>Coagulation system</i>	271
<i>Coagulation regulatory mechanism</i>	274
<i>Fibrinolytic system</i>	275
<i>Normal hemostasis</i>	276

34. Bleeding Disorders: Vessel Wall Abnormalities	280
<i>Disorders of hemostasis</i>	280
<i>Bleeding disorders caused by vessel wall abnormalities</i>	283
35. Bleeding Disorders: Abnormalities of Platelet	286
<i>Quantitative platelet disorders</i>	286
<i>Qualitative platelet disorders</i>	296
36. Bleeding Disorders: Abnormalities of Coagulation Factors	300
<i>Hereditary deficiencies</i>	301
<i>Acquired coagulation disorders</i>	306
<i>Disseminated intravascular coagulation</i>	307
37. Thrombotic Disorders: Hypercoagulable States	313
<i>Inherited hypercoagulable states</i>	314
<i>Acquired hypercoagulable states</i>	315

SECTION 4

Clinical Pathology

38. Anticoagulants and Collection of Blood	321
<i>Anticoagulants</i>	321
<i>Steps in hematological investigation</i>	323
39. Hematopoiesis	329
<i>Erythropoiesis</i>	329
<i>Myelopoiesis</i>	331
<i>Megakaryopoiesis</i>	333
40. Hemoglobin Estimation	335
<i>Indications for hemoglobin estimation</i>	335
<i>Methods of hemoglobin estimation</i>	335
41. Cell Count	343
<i>Red blood cell count</i>	345
<i>Total WBC count</i>	347
<i>Platelet count</i>	349
<i>Absolute eosinophil count</i>	351
42. Peripheral Blood Smear Examination	354
<i>Stains for blood smear</i>	354
<i>Preparation of the peripheral blood smear</i>	355
<i>Fixation of the smear</i>	356
<i>Staining of the smear</i>	356
<i>Examination of a peripheral blood smear</i>	357

43. Reticulocyte Count	366
<i>Methods of reticulocyte count</i>	366
<i>Significance of reticulocyte count</i>	368
44. Hematocrit, Red Cell Indices and ESR Estimation	370
<i>Hematocrit</i>	370
<i>Red cell (erythrocyte) indices</i>	373
<i>Erythrocyte sedimentation rate</i>	375
<i>Lupus erythematosus cell test</i>	378
45. Bone Marrow Examination	381
<i>Bone marrow aspiration</i>	381
<i>Bone marrow trephine biopsy</i>	384
46. Osmotic Fragility Test	387
<i>Procedure</i>	387
<i>Interpretation</i>	388
47. Cytochemistry in Leukemia	390
<i>Definition</i>	390
<i>Myeloperoxidase</i>	390
<i>Sudan black B</i>	391
<i>Nonspecific esterase</i>	391
<i>Periodic acid-Schiff reaction</i>	391
<i>Neutrophil alkaline phosphatase</i>	392
48. Laboratory Evaluation of Hemostatic and Thrombotic Disorders	394
<i>Tests for platelet component</i>	395
<i>Tests for platelet and vascular component</i>	396
<i>Tests for coagulation component</i>	398
<i>Tests for fibrinolytic activity</i>	402
49. Automation in Hematology	408
<i>Automated hematology analyzer</i>	408
<i>Flow cytometry</i>	415
50. Urine Analysis	418
<i>Collection of urine specimen</i>	418
<i>Preservation of urine</i>	419
<i>Examination of urine</i>	419
<i>Physical examination</i>	419
<i>Chemical examination</i>	424
<i>Microscopic examination</i>	439
51. Body Fluids	446
<i>Examination of body fluids</i>	447
<i>Examination of synovial fluids</i>	448

52. Cerebrospinal Fluid Examination	451
<i>Importance of CSF examination</i>	451
<i>Collection of CSF</i>	451
<i>Examination of CSF</i>	453
53. Semen Analysis	457
<i>Different procedures of semen analysis</i>	457
<i>Cryopreservation of spermatozoa</i>	462
54. Pregnancy Test	466
<i>Pregnancy tests</i>	466
55. Sputum Examination	470
<i>Sputum collection</i>	470
<i>Examination of sputum</i>	471
56. Cytology	474
<i>Cytology of female genital tract</i>	477
<i>Cytology of other systems</i>	480
<i>Buccal smear for Barr body</i>	480
<i>FNAC appearance of some common lesions</i>	481
57. Glucose Tolerance Test	484
<i>Oral glucose tolerance test</i>	484
<i>Glycosuria</i>	486
58. Blood Group System	487
<i>ABO blood group system</i>	487
<i>Rh blood group system</i>	492
<i>Other blood group systems</i>	493
59. Antiglobulin Test	495
<i>Direct antiglobulin test</i>	495
<i>Indirect antiglobulin test</i>	497
60. Transfusion Medicine	499
<i>Blood transfusion</i>	499
<i>Blood components</i>	503
<i>Transfusion reactions</i>	505
<i>Exchange transfusion</i>	508
61. Hematopoietic Stem Cell Transplantation	510
<i>Definition</i>	510
<i>Sources of hematopoietic stem cells</i>	510
<i>Types of hematopoietic stem cell transplant</i>	511
<i>Indications for hematoporetic stem cell transplantation</i>	511
<i>Autologous stem cell transplant</i>	511

<i>Allogeneic stem cell transplantation</i>	512
<i>Complications of hematopoietic stem cell transplantation</i>	513
62. Gastric Function Tests	515
<i>Tests for gastric acid secretion</i>	515
<i>Other tests</i>	516
63. Liver Function Tests and Liver Biopsy	518
<i>Liver function tests</i>	518
<i>Liver biopsy</i>	524
64. Renal Function Tests	529
<i>Tests for renal function</i>	529
<i>Renal biopsy</i>	531
65. Thyroid Function Tests	533
<i>Thyroid function tests</i>	534
66. Stool Examination	538
<i>Stool examination</i>	539
<i>Stool culture and sensitivity</i>	545
67. Clinical Scenario	546
<i>Symptoms and signs that suggest a blood disease</i>	546
<i>Patterns strongly suggestive of a blood disease</i>	547
Bibliography	555
Appendices	557
<i>Appendix 1: WHO classification of tumors of hematopoietic and lymphoid tissues</i>	557
<i>Appendix 2: Laboratory values of clinical importance</i>	562
Index	569
