

Contents

1. Introduction	1
History and Clinical Examination	1
Investigations	2
Radiographic Classification of Osteoarthritis of Knee	2
Physiotherapy, Education and Training	3
Medicines to be Started	3
Medicines to be Stopped Prior to Surgery	4
Informed Consent for Surgery	4
Patient and Relatives' Signature for Risk/Benefit Ratio	5
Preoperative Planning for TKR	5
Applied Anatomy	7
Types of Total Knee Replacement	9
Preparation of the Patient for Surgery and Arranging Blood	10
2. Total Knee Replacement (Cruciate-substituting Fixed Bearing TKR)	11
Tourniquet Application	11
Positioning	11
Scrubbing	12
Draping	12
Incision	13
Exposure of Knee	13
Tibial Cut	14
Femoral Cut	15
Resurfacing of Patella	24
Tibial Preparation	25
Cementing	26
Application of Tibial Insert	31
Wound Closure	32
Transfer of Patient from OT	32
Postoperative Advice	32
Follow-up Schedule	36
Assessment during Follow-up	36
3. Difficult Situations and Important Points	38
Total Knee Replacement (TKR) in Difficult Situations	38
Post-HTO TKR	48
Important Points	51
Implants and Cement Required for Primary TKR	58
Knee Implants	59
Summary of TKR (Steps in Sequence)	59
Instruments Required for TKR	60
4. Rotating Platform High Flexed TKR	62
Fixed Bearing versus Mobile Bearing TKR (RPF)	62
Instruments Required for RPF TKR	65
Fundamentals of TKR	65

5. Complications and Revision TKR	67
Periprosthetic Fracture	67
Infection	70
Knee Arthrodesis with Limb Reconstruction System in Cases of Infected TKR	75
Extensor Mechanism Patellar Tendon Rupture	81
Aseptic Loosening	85
Revision TKR	86
Standard Condylar Revision Knee System	88
Implants Required during Revision TKR	95
Two-stage Revision TKR for Late Infections	97
TC3 RP and MBT Revision Tray System (TC3 RP System and Metaphyseal Sleeve Fixation)	99
S-ROM Noiles Rotating Hinge Knee System	105
6. TKR by Navigation System	107
Steps	108
Additional Instruments Required during TKR by Navigation System	111
7. Total Hip Replacement	112
Preoperative Planning	112
Positioning—Lateral Position	117
Draping	118
Posterior Approach	118
Uncemented THR (Summit Stem)	120
Instruments Required for Uncemented THR (Summit Stem)	133
Instruments Required for Pinnacle Cup and Head	134
Instruments Required for Delta Motion Cup and Head	135
Implants Required for Uncemented THR (Summit Stem)	135
Implants Required for Pinnacle Cup and Head (Ceramic on Ceramic or Ceramic on Polyethylene Liner)	135
Implants Required for Delta Motion Cup and Head	135
Different Measurements of Femoral Stem	136
Features of Summit Tapered Hip System	136
Cemented THR (C-stem)	137
Instruments Required for Cemented THR (C-stem)	142
Implants and Cement Required for Cemented THR (C-stem)	143
Features of Triple Taper C-stem	144
Assessment during Follow-up	144
Summary of THR (Steps in Sequence)	145
8. Important Points and THR in Difficult Situations	147
Important Points	147
Total Hip Replacement in Difficult Situations	151
9. Bone Cement	172
Indications	172
Contraindications	172
Precautions	173
Special Warnings	173
Information for Use	173
Undesirable Effects	174
Package Quantities	174

10. Ultrasonic System for Cemented and Uncemented Revision Surgeries	175
Goal 175	
Principle 175	
Ultrasonic System 175	
Technique 176	
Factors that Affect Risk of Thermal Energy 178	
Precautions during Surgical Procedures 179	
11. Complications and Revision THR	180
Complications 180	
Acetabular Defects 180	
Femoral Defects 183	
Stem Fracture 189	
Periprosthetic Fracture 193	
Infection 199	
Implants Required for Revision THR 206	
Moreland Instruments Required for Removal of Bone Cement and Failed Implants 208	
12. Physiotherapy in TKR and THR	209
TKR 209	
THR 209	
13. Patient's Guide to Arthritis and Joint Replacement	211
Suggestions to the Patients 213	
Job Recommendation for Person who has Undergone TKR and/or THR 213	
14. OT Setup for Joint Replacement surgery	214
Vertical Laminar Flow Ventilation 214	
Prevention of Infection 216	
Factors Responsible for Contamination in OT 216	
Recommendation by British Medical Council for OT Setup 216	
Nano TiO ₂ (Titanium Dioxide) Enviro-shield 216	
<i>Bibliography</i>	217
<i>Index</i>	221
