

Contents

Section 1: Basic Science and Spinal Assessment

1. Basic Science of Degenerative Disk Disease	3
<i>Anthony Petrizzo, Kristina Bianco</i>	
• Morphology of the Normal IVD	3
• Morphologic Changes in the Degenerative IVD	4
• Etiology of IVD Degeneration	5
• Inflammatory Mediators	7
• Novel Management Techniques	8
2. Biomechanics of the Spine	11
<i>Antonio Valdevit</i>	
• The Spinal Column	11
• Intervertebral Disk	12
• The Facet Joint and Uncovertebral Joint	12
• Spinal Motion	13
• Spinal Loading	13
• Spinal Arthroplasty	15
• Mechanical Evaluation and Clinical Implications of Spinal Instrumentation	16
3. Balance, Posture and Stability in Spinal Disorders	18
<i>Virginie Lafage, Barthelemy Liabaud, Frank Schwab, Jean-Pierre Farcy</i>	
• Balance, Stability and Posture	18
4. Differential Diagnosis of Spinal Disorders	23
<i>Michael Gerling, Vadim Goz</i>	
• Risk Factors	23
• Prognosis	23
• Types of Pain	24
• Chronic Pain Syndromes and Threshold Modulation	24
• Differential Diagnosis	24
5. Neurological Differential Diagnosis of Spinal Disorders	30
<i>Devon Ryan, Thomas Cheriyan, Ludmilla Bronfin</i>	
• Conditions that Mimic Radiculopathy	30
• Conditions that Mimic Cervical Myelopathy	33
6. Examination and Evaluation of Neck Pain	36
<i>Jonathan R Stieber, Robert J Ames</i>	
• Prevalence and Natural History	36
• Anatomy	36
• Pathophysiology	37
• History, Physical Examination and Grading	39
• Imaging and Diagnostic Studies	41
7. Examination and Evaluation of Low Back Pain	44
<i>Devon Ryan, Jeffery Perry</i>	
• Institutional Guidelines	44
• Examination and Evaluation of Acute Low Back Pain	45
• Examination and Evaluation of Chronic Low Back Pain	48

8. Clinical Examination and Evaluation of Radiculopathy: A Neurological Perspective	49
<i>Kiril Kiprovski</i>	
• History and Physical Examination	49
• Somatic Referred Pain from the Neck and Lower Back	54
• Red Flags	57
9. Evaluation of Adolescent Scoliosis	60
<i>Stephen P Maier II, Thomas Cheriyan, Baron S Lonner</i>	
• Evaluation of Scoliosis	62
• Classification	67
10. Evaluation of Adult Spinal Deformity	69
<i>Jeffrey H Weinreb, Pierre Devos, Frank Schwab</i>	
• Evaluation	69
• Spine Related Measurements in the Setting of Adult Spinal Deformity	71
• Classification	71
11. Measurement of Adult Spinal Deformity	75
<i>Jeffrey H Weinreb, Thomas Cheriyan, Virginie Lafage, Frank Schwab</i>	
• Imaging	75
• Coronal Plane Measurements	75
• Sagittal Plane Measurements	77
• Spinopelvic Radiographic Parameters	77
• Global Alignment	78
• Criticism of 2D Measurements	78
• 3D Analysis	78
12. Assessment of Disability	81
<i>Juan Carlos Robles</i>	
• Functional Assessment Instruments	81
• Objective Tools	81
• Subjective Tools	83
13. Non-MRI Evaluation of the Cervical and Lumbar Spine	85
<i>Tony Wong, Gina Ciavarra, Leon Rybak</i>	
• Radiographs	85
• Computed Tomography	88
• Nuclear Medicine	95
• Ultrasound	100
14. MRI Evaluation of Cervical and Lumbar Spine Disorders	102
<i>Michael B Mechlin</i>	
• Cervical Spine	102
• Lumbar Spine	108
15. Interventional Diagnostic Procedures: Nerve Blocks and Discography	120
<i>Steven Calvino, Jessie Ng</i>	
• Diagnostic Nerve Blocks	120
• Discography	121
• Anatomy and Function of the Intervertebral Disk	121
• Disk Degeneration and Pain	123
• Procedure	123
• Complications	123
• Evidence	124

16. Rheumatic Diseases and Myofascial Pain	126
<i>Brian D Golden</i>	
• How to tell the Difference between “-ITIS” and “-ALGIA”	126
• Ankylosing Spondylitis as the Prototypical Inflammatory, Rheumatologic Disease Affecting the Spine	126
• Fibromyalgia as the Prototypical Noninflammatory Pain Syndrome	128
17. Diagnosis of Osteopenia and Osteoporosis	130
<i>Stephen Honig, Stephen P Maier II</i>	
• Pathogenesis of Postmenopausal Osteoporosis	132
• Diagnosing Osteopenia and Osteoporosis	132
Section 2: Non-Invasive Therapeutic Intervention	
18. Multidisciplinary Approach to Spinal Pain	139
<i>Kseniya Slobodyanyuk, Thomas Cheriyan, Christopher Gharibo</i>	
• Spinal Pain Pathophysiology	139
• Pharmacologic Treatment	139
• Nonpharmacologic Treatment	141
• Functional Rehabilitation	141
19. Pharmacological Management of Spinal Pain: Narcotics	144
<i>Christopher Gharibo</i>	
20. Pharmacological Management of Spinal Pain: Non-narcotics	147
<i>Juan Carlos Robles, Thomas Cheriyan</i>	
• Acetaminophen	147
• Nonsteroidal Anti-Inflammatory Drugs	147
• Steroids	147
• Anticonvulsants	148
• Tricyclic Antidepressants	149
• Muscle Relaxants	149
• Nonopioid Combination Medication	149
• Topical Medications	150
21. Prevention and Management of Addiction	151
<i>Marianne T Guschwan</i>	
• The Scope of the Problem with Opioids	151
• Addiction Management	152
• Prevention of Addiction	152
22. Therapeutic Management of Osteoporosis	155
<i>Stephen Honig</i>	
• Aging, Falling, and the Concept of Frailty	155
• Calcium and Vitamin D Supplementation	156
• Bone Strengthening Prescription Medications	156
23. Nonoperative Treatment of Cervical Myelopathy and Radiculopathy	159
<i>Kristina Bianco, Faruk Razzak, Gerard Varlotta</i>	
• Task Force for Neck Pain	159
• Pathophysiology	160
• Nonoperative Treatment for Cervical Myelopathy and Cervical Radiculopathy	161
• Other Nonoperative Treatment Methods	164

- Nonoperative versus Operative Treatment of Cervical Myelopathy 164
- Nonoperative versus Operative Treatment of Cervical Radiculopathy 165

24. Alternative Medicine Treatment in Spinal Disorders: Application of Acupuncture 168

Alex Moroz, Brian Freed

- Applications of Acupuncture 169

25. Psychosocial Aspects and Management of Chronic Low Back Pain 171

Matthew B Smith

- Aversion 171
- Central Sensitization 172
- Psychiatric Comorbidity 172
- Personality Factors 173
- Interpersonal and Social Factors 173
- Chronic Illness 174
- Psychiatric and Psychological Treatment Considerations 174
- Countertransference 175

26. A Conservative Care Approach to the Rehabilitation of Patients with Spine Pain 178

Angela Lis, Sherri Weiser

- Triage Criterion 1: Duration of SP 180
- Triage Criterion 2: The Presence of Yellow Flags 180
- Triage Criterion 3: Is the Patient a Candidate for an Intensive Interdisciplinary Conditioning Program? 182

Section 3: Spinal Injection

27. Introduction to Spinal Injections 187

Jamie R Terran, Rachel N Rattenni, Faruk Razzak, Gerard P Varlotta

- History 187
- Trigger Point Injections 187
- Sacroiliac Injections 188
- Peripheral Joint Injections 189
- Sympathetic Nerve Blocks 189
- Epidural Injections 189
- Intra-articular Facet Injections 190
- Median Branch Blocks and Rhizotomy 190
- Intradiscal Electrothermal Therapy, Nucleoplasty, and Biacuplasty 190
- Spinal Cord Stimulators 191
- Complications and Risks 191

28. Diagnostic and Therapeutic Value of Spinal Injections 193

Juan Carlos Robles, Vadim Goz

- Discograms 193
- Epidural Steroid Injections 194
- Selective Nerve Root Blocks, Facet Joint Blocks, and Medial Branch Blocks 195

29. Trigger Point Injections 200

Benjamin Bieber, Devon Ryan

- Diagnosis 200
- Indications 201
- Technique 202

• Preinjection Block	203	
• Evidence	203	
30. Sacroiliac Injections		205
<i>Jackson Liu, Jeffrey Weinreb, Wayne Stokes</i>		
• Anatomy	205	
• Diagnosis	205	
• Injection	208	
• Injection Technique	209	
• Complications	210	
• Newer Techniques	210	
31. Peripheral Joint and Soft Tissue Injections		212
<i>Warren Young</i>		
• Injectables	212	
• Injection Techniques	216	
32. Sympathetic Blocks: Utility in Complex Regional Pain Syndrome		221
<i>Kseniya Slobodyanyuk, Christopher Gharibo</i>		
• Nociceptive and Neuropathic Pain	221	
• Complex Regional Pain Syndrome	221	
• CRPS Management	223	
33. Epidural Steroid Injections		228
<i>Kseniya Slobodyanyuk, Christopher Gharibo</i>		
• Epidural Steroid Injections	228	
• Interlaminar, Transforaminal, and Caudal ESIs	229	
• Complications	231	
34. Intra-articular Facet Injections		233
<i>Kristina L Bianco, Jeffrey H Weinreb, Gerard P Varlotta</i>		
• Facet Joint Anatomy	233	
• Etiology and Pathophysiology	233	
• Grading Scales for Facet Joint Arthropathy	235	
• Diagnosis	235	
• Imaging	236	
• Treatment	236	
• Indications for Injections	237	
• Intra-Articular Facet Joint Injections	237	
• CYST Intervention Results	238	
• Complications	238	
• Differential Diagnosis	238	
35. Complications of Spinal Injections		240
<i>Brian Forzani, Stephen P Maier II, Kseniya Slobodyanyuk, Thomas J Errico, Thomas Cheriyan, Christopher Gharibo</i>		
• Regional/Mechanical Injury	240	
• Needle/Injectate-Related Injuries	241	
• Pressure-Related Injuries	243	
• Infections	244	
• Vascular Injury	244	
• Neural Complications	248	
• Chemical Injury	249	

36. Medial Branch Block and Rhizotomy	253
<i>Devon Ryan, Jamie Terran, Mohammed Khan</i>	
• Medial Branch Block	254
• Rhizotomy (Medial Branch Neurotomy, Radiofrequency Neurotomy)	256
37. Intradiscal Electrothermal Therapy, Nucleoplasty and Biacuplasty	259
<i>Steven Calvino, Rohan Bannis, Sachin Shah</i>	
• Intradiscal Electrothermal Therapy	260
• Nucleoplasty	260
• Biacuplasty	261
38. Spinal Cord Stimulators	264
<i>Brian Park, Yong H Kim</i>	
• What are Spinal Cord Stimulators?	264
• Indications	265
• Ischemic/Visceral Pain	265
• Neurogenic Pain	265
• Spine-Related Conditions	265
• Technique	266
• Trial/Screening	266
• Permanent Implantation	267
• Complications	268

Section 4: Surgical Management

39. History of Surgical Management of Spinal Disorders	273
<i>Justin Paul, Thomas Cheriyan, Thomas J Errico</i>	
• Decompression of Spinal Elements	274
• Stabilization of the Spine	276
• Antibiotics and Orthopedic Instrumentation	277
• Posterior Thoracolumbar Instrumentation	278
• Anterior Thoracolumbar Instrumentation	278
• Posterior Cervical Instrumentation	280
• Anterior Cervical Instrumentation	280
• Interbody Fusion	280
• Alternatives to Fusion—Total Disk Replacement	282
• Deformity Correction	282
• Rods for Distraction and Compression	282
• Segmental Fixation for Increased Rigidity	283
• Multiple Hook Rod for Rotation	283
40. Surgical Management of Lumbar Degenerative Spondylolisthesis	286
<i>Qasim M Husain, Robert P Norton, Jeffrey M Spivak</i>	
• Pathogenesis	286
• Incidence	286
• Presentation	287
• Nonoperative Measures	287
• Surgical Options	287
• Case Example	292

41. Differentiating Cervical Radiculopathy and Peripheral Compressive Neuropathy	294
<i>Themistocles S Protopsaltis, John A Bendo</i>	
• Epidemiology	294
• Clinical Presentation and Relevant Anatomy	294
• C8 Radiculopathy vs Cubital Tunnel Syndrome vs T1 Radiculopathy	296
• Physical Examination	297
• Electrodiagnostic Studies	299
• Peripheral Entrapment Neuropathies and NCS	299
• Treatment	299
• Surgical Results	300
42. Surgical Management of Cervical Disk Herniation	301
<i>Kseniya Slobodyanyuk, Jonathan Stieber</i>	
• Epidemiology	301
• Signs and Symptoms	301
• Treatment	302
• Surgical Options	302
• Anterior Approach	302
• Posterior Approach	303
• Selection of Approach	304
• Complications	306
43. Surgical Treatment of Cervical Stenosis	310
<i>Jane S Hoashi, Stephen P Maier II, Jeffrey D Klein</i>	
• Cervical Spondylotic Radiculopathy	310
• Cervical Spondylotic Myelopathy	311
• Pathogenesis	311
• Treatment Options	313
• Anterior Approach	314
• Posterior Approach	317
• Laminoplasty	318
• Posterior Laminoforaminotomy	320
44. Operative Management of Degenerative Cervical Disorders	324
<i>Hiroyuki Yoshihara, John A Bendo</i>	
• Surgical Indications	324
• Surgical Options	325
• Surgical Outcomes	328
• Complications	329
45. Newer Motion Preservation Technologies	332
<i>Kseniya Slobodyanyuk, Rachel N Rattenni, Thomas Cheriyan, Thomas J Errico</i>	
• Nucleus Replacement	332
• Synthetic Nucleus Replacement	332
• Interspinous Distraction	334
• Dynamic Stabilization	334
• Facet Replacement	335
• Annulus Repair	336
46. Minimally Invasive Lumbar Spine Fusion	337
<i>Noel I Perin</i>	
• Indications	337
• Anterior Approaches (ALIF)	337

- Posterior Approaches 340
- Discussion 343

47. Cervical Total Disk Replacement 345

Robert P Norton, Jeffrey A Goldstein

- Evolution of Implants 345
- Technical Considerations 346
- Indications and Contraindications 347
- Analysis of the FDA IDE Trials 347
- Further Literature Analysis 347
- Complications 349
- Case Example 350

48. Lumbar Total Disk Replacement Surgery 354

Hiroyuki Yoshihara, John A Bendo

- Indications for Lumbar Total Disk Replacement 354
- Surgical Approach and Technique 355
- Prostheses 355
- SB Charité III 355
- Complications 358

49. Conventional, Microscopic and Endoscopic Surgical Treatment of Lumbar Disk Herniations 361

Bartosz Grobelny, Michael L Smith

- History 361
- Modern Techniques 361
- Comparative Trials 365

50. Surgical Treatment of Lumbar Spinal Stenosis 369

Stephen P Maier II, Jane S Hoashi, Jeffrey D Klein

- Clinical Features 369
- Physical Examination and Differential Diagnosis 370
- Diagnostic Imaging 370
- Electrodiagnostic Studies 371
- Indications for Surgery 371
- Surgical Treatment 371
- Surgical Outcomes 373
- Interspinous Spacer Technology 374

51. Overview of Spinal Deformity Surgery 378

Justin Paul, Thomas Cheriyan, Anthony Petrizzo, Thomas J Errico

- Anatomy and Biomechanics 379
- Clinical Evaluation 381
- Radiologic Evaluation 381
- Classification 382
- Treatment 383

52. Operative Management of Pediatric Deformities 388

Justin C Paul, Baron S Lonner, Courtney S Toombs

- Scoliosis 388
- Anatomy/Biomechanics 388
- Clinical Evaluation 389
- Radiologic Evaluation 392
- Classification 393
- Nonoperative Treatment 394

- Operative Treatment 395
 - Surgical Technique 395
 - Outcomes/Complications 397
 - Kyphosis 399
 - Spondylolisthesis 400
- 53. Surgical Treatment of Adult Degenerative Deformity 406**
Jeffrey B Knox, Justin Paul, Frank Schwab
- Surgical Indications 406
 - Presurgical Considerations 407
 - Surgical Planning 407
 - Surgical Techniques 407
 - Staged Operations 410
 - Complications 410
- 54. Surgical Interventions in Osteoporosis and Compression Fracture 414**
Peter G Passias, Andy Chang
- Osteoporotic Compression Fractures 414
 - Conservative Management 414
 - Surgical Treatment 415
 - Adverse Events for Vertebroplasty and Kyphoplasty 417
- 55. Surgical Management of the Rheumatoid Spine 420**
Ronald Moskovich, Jeffrey Knox
- Spine Manifestations 420
 - Clinical Evaluation 421
 - Natural History 421
 - Grading 421
 - Imaging 421
 - Treatment 423
 - Surgical Options 425
- 56. Traumatic Cervical Spinal Fracture Surgery 429**
Justin C Paul, Robert Norton, Themistocles Protopsaltis
- Cervical Spine 429
 - Classification 434
 - Nonoperative Treatment 437
 - Operative Treatment 438
 - Classification 444
 - Operative Care to Optimize Function 445
- 57. Thoracolumbar and Sacral Fracture Surgery 448**
Robert Norton, Justin C Paul, Themistocles Protopsaltis
- Anatomy and Mechanism of Injury 448
 - Clinical Evaluation 448
 - Radiologic Evaluation 448
 - Classification 449
 - Compression Fractures 449
 - Burst Fractures 450
 - Flexion-Distracton Injuries 451
 - Fracture-Dislocation Injuries 451
 - Low Lumbar Injuries 452
 - Treatment Goals 452

58. Tumors of the Spine	456
<i>Donato Pacione, Irene Kim, Dimitris Placantonakis, Anthony Frempong-Boadu</i>	
• Primary Extradural Spinal Tumors	456
• Intradural Extramedullary Spinal Tumors	461
• Intradural Intramedullary Spinal Tumors	463
• Spinal Metastases	468
59. Intraoperative Monitoring in Spine Surgery	482
<i>Thomas Cheriyan, Rachel N Rattenni, Jerry Cheriyan, Athena M Lolis, Thomas J Errico</i>	
• Stagnara Wake-Up Test	482
• Somatosensory Evoked Potential	482
• Motor Evoked Potentials	483
• Spontaneous EMG	484
• Triggered EMG	485
• Multimodal Intraoperative Monitoring	486
<i>Index</i>	489
