

Contents

1. A Word about Orthopedics	1
<i>Introduction</i>	1
2. Clinical Method	6
<i>Basics of Clinical Examination</i>	6
<i>Modalities of History Taking</i>	7
<i>Armamentarium Necessary to Examine an Orthopedic Patient</i>	7
<i>Common Orthopedic Complaints</i>	8
<i>Clinical Diagnosis</i>	16
<i>Investigation</i>	17
3. Bone	19
<i>Osteoblast</i>	20
<i>Osteoclast</i>	20
<i>Types of Bone Tissue</i>	21
<i>Blood Supply of Bone</i>	22
<i>Nerve Supply of Bone</i>	23
<i>Cartilage</i>	23
<i>Joints</i>	24
4. Generalized Bone Diseases	26
<i>Developmental Diseases of Skeleton</i>	26
<i>Developmental Disorder of Osteoarticular System</i>	27
5. Metabolic Bone Diseases	50
<i>Causes of Metabolic Disease</i>	50
<i>Paget's Disease (Osteitis Deformans)</i>	51
<i>Rickets</i>	51
<i>Osteomalacia</i>	62
<i>Scurvy</i>	64
<i>Gout</i>	67

6. Congenital Skeletal Deformities	73
<i>Congenital Deformities 73</i>	
7. Common Foot Deformities	113
<i>Foot Deformities 113</i>	
<i>Arches of Foot 114</i>	
<i>Types of Deformed Foot 117</i>	
8. Pyogenic Osteomyelitis	143
<i>Etiology of Hematogenous Osteomyelitis 143</i>	
9. Affections of Joints (Mainly the Arthritis)	165
<i>Joint 165</i>	
<i>Arthritis 166</i>	
<i>Charcot's Joints 178</i>	
10. Tuberculosis of Bone and Joints	181
<i>Tuberculosis—Bones and Joints</i>	
<i>(General Consideration) 181</i>	
<i>Tuberculosis of Spine 190</i>	
<i>Tuberculosis of Hip 200</i>	
<i>Tuberculosis of Knee Joint 207</i>	
<i>Tuberculosis of Foot and Ankle 210</i>	
11. Bone Tumors	214
<i>Classification 215</i>	
<i>Clinical Features 216</i>	
<i>Investigations 222</i>	
<i>Chondrosarcoma 223</i>	
12. Miscellaneous Non-traumatic Common Orthopedic Conditions	252
<i>Orthopedic Conditions 252</i>	
<i>Cerebral Palsy 285</i>	
13. Injuries to Bones and Joints	287
<i>Classification of Fracture 288</i>	
<i>Clinical Features of Fracture 293</i>	
<i>Fracture Healing 295</i>	

<i>Complications of Fractures</i>	305
<i>Compound Fracture (Open Fracture)</i>	316
14. Dislocation of Joint and Skeletal Injury in Children	321
<i>Dislocation of Joint</i>	321
<i>Skeletal Injury in Children</i>	323
15. Fracture of Long Bones	326
<i>Long Bones Fracture</i>	326
16. Accident, Disaster and Emergency Services	331
<i>Accident-emergency Services</i>	332
17. Spinal Injury	339
<i>Mode of Injury</i>	339
<i>Mechanism of Spinal Injuries</i>	340
<i>Effects of Injuries</i>	340
<i>Clinical Features</i>	342
<i>Investigations</i>	344
<i>Management of Spinal Injury Patient</i>	344
18. Pelvic Injury	351
<i>Violence</i>	351
<i>Clinical Features</i>	351
<i>Classification of Pelvic Injuries (Fractures)</i>	352
<i>Investigation</i>	355
<i>Management</i>	355
<i>Complications of Pelvic Injuries</i>	357
19. Injuries Around Hip	358
<i>Blood Supply of Head and Neck of Femur</i>	359
<i>Dislocation of Hip</i>	365
20. Fracture Shaft Femur	383
<i>Femoral Shaft</i>	383
21. Injuries Around Knee	388
<i>Internal Derangement of Knee Joint</i>	401

22. Fracture of Shaft of Leg Bones	408
<i>Fracture of Leg Bones 408</i>	
23. Injuries Around Ankle	413
<i>Ankle Injuries 413</i>	
24. Injuries of Foot	423
<i>Common Injuries of foot 423</i>	
25. Injuries Around Shoulder and Fracture of Shaft of Humerus	434
<i>Clavicle Fracture 434</i>	
<i>Injuries Around Proximal Humerus 440</i>	
<i>Avulsion Fractures of the Tuberosities 441</i>	
<i>Surgical Neck Fracture of Humerus 442</i>	
<i>Fractures of Scapula 443</i>	
<i>Acromioclavicular Subluxation or Dislocation 443</i>	
<i>Injuries of Sternoclavicular Joint 445</i>	
<i>Dislocation of Shoulder 445</i>	
<i>Recurrent Dislocation of Shoulder 451</i>	
<i>Fracture of Shaft of Humerus 453</i>	
26. Injuries Around Elbow	456
<i>Supracondylar Fracture of Humerus 458</i>	
<i>Fracture of Lateral Condyle of Humerus 462</i>	
<i>Fracture of Medial Epicondyle of Humerus 465</i>	
<i>Monteggia Fracture Dislocation and Galeazzi Fracture Dislocation 467</i>	
<i>Dislocation of Elbow 470</i>	
<i>Fracture of Olecranon Process 473</i>	
<i>Fracture of Upper End of Radius 475</i>	
<i>Side Sweep Fracture (Baby Car Fracture-dislocation) 478</i>	
27. Fracture of Forearm Bones (Radius and Ulna)	479
<i>Compartment Syndrome and Volkmann's Ischemic Contracture 483</i>	
28. Injuries Around Wrist Joint	489
<i>Wrist Joint 489</i>	

29. Hand Injury	498
<i>Mode of Injury</i>	498
<i>Clinical Features</i>	498
<i>Management</i>	499
<i>Injuries of Carpals</i>	499
<i>Bennett's Fracture Subluxation</i>	501
30. Head Injury	503
<i>Types of Head Injury</i>	503
<i>Assessment of Head Injury Patient</i>	505
<i>Management</i>	507
31. Chest Injuries	509
<i>Classification</i>	509
<i>Clinical Features</i>	510
<i>Investigations</i>	511
<i>Management</i>	511
32. Mandible and Temporomandibular Joint	513
<i>Ankylosis of Jaw</i>	514
<i>Fracture of Mandible</i>	515
<i>Subluxation and Dislocation of Temporomandibular Joint</i>	516
33. Peripheral Nerve Injury	518
<i>Peripheral Nerve</i>	518
<i>Injuries to Peripheral Nerve</i>	519
<i>Features and Management of Different Important Nerve Affection (in Upper Limb)</i>	525
34. Sports Medicine (Injuries)	545
<i>Sports Injuries</i>	545
35. Amputation	549
<i>Indication for Amputation</i>	549
36. Physical Medicine and Rehabilitation	556
<i>Role of Rehabilitation</i>	556
<i>Functional Rehabilitation</i>	556
<i>Modalities of Rehabilitation Procedure</i>	557
<i>Orthotics</i>	563

37. Traction in Orthopedics	570
<i>Purpose of Traction</i>	570
<i>Types of Traction</i>	570
<i>Modes of Applying Traction</i>	571
<i>Splints</i>	574
 <i>Appendix</i>	 577
 <i>Index</i>	 583
