• Contraindications 15	
• Some Special Situations 15	
• Qualities of a Cycloplegic Drug 16	
• Cycloplegia and Glaucoma 20	
• Clinical Pearls 21	
3. Hyperopia	23
• Etiopathogenesis 24	
• Children 25	
• Presbyopia 30	
• Intermediate Vision 31	
4. Myopia	33
• Causes and Progression of Myopia 34	
• Classification 35	
• Management 36	
• Quasi-Myopia 40	
• Unilateral Myopia 41	
• Pseudomyopia 42	
• Night Myopia 45	
• Presbyopia and Myopia 46	
• Pathological Myopia 47	
5. Astigmatism	49
• Prescriptions 49	
• Ciliary Overtures 54	
• Bifocals in Astigmatism 55	
• Irregular Astigmatism 57	

6. Presbyopia	60
• How to Determine near Correction? 62 • Bifocals in Children 63 • Near Correction in Adults 64 • Bifocals in Presbyopia 65 • Bifocals for Reading in Bed 68 • Presbyopia and Contact Lenses 68 • Presbyopia in Myope 69	
7. Anisometropia and Antimetropia	74
• Symptomatology of Anisometropia 75 • Aniseikonia 76 • Antimetropia 78 • Anisophoria 81 • Correction in Vertical Gaze 82 • Anisometropia in Children 85	
8. Aphakia	92
• Monocular Aphakia 92 • The Bilateral Aphake 93 • Spectacle Management in Aphakia 94 • Refracting an Aphake 96	
9. Pseudophakia	98
• Monocular Pseudophakia 98 • Bilateral Pseudophakia 99 • Unusual Cases 100 • Pseudophakia in Children 102	
10. Medical Problems and Refractive Error	104
• Effect of Change in Size or Shape of Eye 105 • Glaucoma 105 • Changes in Cornea 105 • Crystalline Lens 106 • Ocular Media and Lens 106 • Changes in Accommodation 106 • Ocular Asthenopia as a Part of Illness 107	
11. The Legacy of Spectacles	109
• History 109 • Lenses 110 • Modern Lenses 111 • Plastic Lenses 112 • Polycarbonate 113	

12. Types and Quality of Lenses	114
• Refractive Index 114	
• Density 115	
• Abbe Number 115	
• UV Cut-off 116	
• Curve Variation Factor 116	
• Lens Materials 117	
• Summary 119	
• Absorptive Lenses 120	
• Progressive Power Lenses 126	
13. Prescription of Spectacles	129
• Weight, Thickness and Warpage 130	
• Decentrations 130	
• Pantoscopic Tilt of Frames 132	
• Spectacle Fitting in Children 133	
• Frames of Spectacles 134	
14. Psychodynamics of Spectacles	138
• Ocular Neurosis 140	
• The Doctor-Patient Rapport 141	
15. The Visually Handicapped	143
• Reasoning for Success Management 144	
• Examination and Refraction 146	
• Determining the Best Aid 146	
• Optical Aids 147
