

Contents

1. History of Pacemaker	1
2. Introduction to Physiological Pacing	16
Adverse effects of RV Apical Pacing	16
Electrocardiographic Changes	16
Morphological Changes	22
Metabolic Changes	25
Mechanical	26
3. Managing Algorithm	41
Strategies of reducing Pacing Burden	41
AV Search Hysteresis	42
Managed Ventricular Pacing (MVP)	43
Ventricular Intrinsic Preference (VIP)	47
AAIsafeR Mode	47
Reverse Mode Switch (RhythmiQ Mode)	50
Outcome Data	50
4. Selective Site: Right Ventricular Septal Pacing	60
Anatomy	61
Radiology	66
Tools and Technique	68
Electrocardiographic Characteristics	72
Cardiomyopathy and RV Pacing	86
Evidence	86
5. Selective Site: His Bundle Pacing	90
Anatomy	90
Electrocardiographic Characteristics	92
Indications	96
Implantation	98
6. Selective Site: Right Atrial Septal Pacing	106
Anatomy	106
Electromechanics	108
Implantation	121
7. Case Discussion	138
Case 1	138
Case 2	143
Case 3	146
Case 4	151
Case 5	154
Case 6	157
8. Introduction to Cardiac Resynchronization Therapy	163
Indication	166

9. Role of Pre-procedure ECG Analysis	202
Role of Surface ECG	202
Case 1	210
Case 2	212
10. Anatomy of Coronary Sinus	215
Anatomy	215
Venography	221
Other Imaging Modalities	224
Target Vein and Target Site	225
11. Implantation Technique	230
Approach	230
Lead Implantation Order	231
Placement of LV Lead	231
Buddy Wire Technique	236
Retrograde Buddy Wire Technique	237
Venoplasty	238
Anchor Balloon Technique	240
Antegrade Snare Technique	242
Retrograde Snare Technique	243
Balloon-facilitated Delivery	243
Placement of RV lead	245
Anatomical Inter-lead Distance	247
Electrical Inter-lead Distance	249
Alternative Techniques	251
Epicardial Pacing Techniques	253
Endocardial Pacing Techniques	255
12. Surface Electrocardiography: CRT Follow up	259
ECG of Right Ventricular Pacing in CRT	259
Case 1	270
Case 2	273
Case 3	275
Case 4	281
Case 5	283
Case 6	288
Fusion	290
13. Optimizing Response	295
Definition of Response	295
Responders and Super-responders	296
Cardiac Assist Devices	306
14. Newer Advances	309
Multisite and Multipoint LV Pacing	309
<i>Index</i>	325
