

CONTENTS

SECTION 1 Fundamentals

Chapter 1	Introduction and Scope of Minimally Invasive Spine Surgery	3
	<i>Christopher D Witiw, Richard G Fessler</i>	
	♦ The Rationale 3	
	♦ Scope 4	
Chapter 2	Development of Minimally Invasive Spine Surgery	10
	<i>Laura A Snyder, John E O'Toole, Kurt M Eichholz, Mick J Perez-Cruet, Richard G Fessler</i>	
	♦ Additional Minimally Invasive Developments 13	
Chapter 3	Concept of Tubes in Minimally Invasive Spine Surgeries	17
	<i>Arvind G Kulkarni, Abhilash Dhruv</i>	
	♦ METRx System 17	
	♦ Advantages of the Tubes 19	
Chapter 4	Applied Anatomy and Surgical Approaches in MISS Surgeries	23
	<i>Rishi Aggarwal, Kshitij Chaudhary</i>	
	♦ Paraspinal Lumbar Approach 23	
	♦ Applied Anatomy 24	
	♦ Transpsoas Approach 25	
	♦ Applied Anatomy 26	
	♦ Minimally Invasive Anterior Midline Approach to Lumbosacral Spine (Mini ALIF) 28	
	♦ Presacral Approach to L5–S1 (AxialLIF) 30	
	♦ Video-assisted Thoracoscopic Approach 32	
	♦ Extreme Lateral Minithoracotomy Approach 34	
	♦ Surgical Approach (Extreme Lateral Minithoracotomy) 34	
	♦ Applied Anatomy of the Thoracic Cavity 35	
Chapter 5	Ultrasonic Bone Dissectors in Minimally Invasive Spine Surgery	43
	<i>SM Rohidas</i>	
	♦ Clinical Material and Methods 43	
	♦ Surgical Techniques and Results 46	
	♦ Results 48	
	♦ Discussion 48	
Chapter 6	Hazards of Radiation in Minimally Invasive Spine Surgery	51
	<i>Subir N Jhaveri</i>	
	♦ How is Radiation Measured? 51	
	♦ Effects of Ionizing Radiation 51	
	♦ Radiation Emitted in Routine Radiological Procedures 52	
	♦ Radiation and the Minimally Invasive Spine Surgeon 52	
	♦ Tips and Suggestions to Reduce Fluoroscopic Radiation Exposure 55	

Chapter 7 Diagnostic and Therapeutic Applications of Percutaneous Transpedicular Approaches to the Spine **57**

Mihir R Bapat, Susmit Naskar, Amandeep Gujral

- ◆ Applications 57
- ◆ Technique 57
- ◆ Recent Advances and Future Directions 61

SECTION 2 MIS in Cervical Spine

Chapter 8 Anterior Cervical Disectomy without Fusion **65**

CE Deopujari, Shumayou Dutta

- ◆ Evolution and Indications 65
- ◆ Applied Anatomy and Technique 65
- ◆ Complications of Anterior Cervical Disectomy 68
- ◆ Author's Experience 69
- ◆ Complications 69

Chapter 9 Tubular Retractors in Cervical Spine **72**

G Balamurali, T Ganesh Keshav

- ◆ Tubular Retractor Systems 72
- ◆ Types of Tubular Retractors 73
- ◆ Advantages and Disadvantage of Tubular Retractors 73
- ◆ Applied Anatomy of Posterior Cervical Spine 75
- ◆ Techniques 78

Chapter 10 Cervical Laminoforaminotomy **83**

Satish Rudrappa

- ◆ Introduction and History 83
- ◆ Indications 83
- ◆ Contraindications 84
- ◆ Advantages 84
- ◆ Disadvantage 84
- ◆ Anesthesia and Positioning 84
- ◆ Surgical techniques 84
- ◆ Complications 86
- ◆ Outcome 87

Chapter 11 Minimally Invasive Transarticular C1–C2 Fixation (MIS-TAS) **89**

Vishal Kundnani, Sachin Patil

- ◆ Indications 90
- ◆ Preoperative Planning 92
- ◆ Surgical Technique 93
- ◆ Postoperative Protocol 97
- ◆ Outcomes 98

SECTION 3 MIS in Lumbar Spine—Non-instrumented

Chapter 12	Microdisectomy	103
	<i>Samir Dalvie, Pramod Saini</i>	
	◆ Applied Anatomy 103 ◆ Indication and Application 104 ◆ Surgical Technique: Authors' Preference 104 ◆ Complications and their Avoidance 105 ◆ Outcomes 106	
Chapter 13	Philosophy and Basis of PELD	109
	<i>Satishchandra Gore</i>	
	◆ Summary 113	
Chapter 14	Transforaminal Percutaneous Lumbar Endoscopic Disectomy	113
	<i>Arun Bhanot</i>	
	◆ Indications 113 ◆ Applied Anatomy 113 ◆ Equipment 114 ◆ Technique 114 ◆ Risks and Complications 121 ◆ Tips and Pearls 121 ◆ Results 122 ◆ Case Studies 122	
Chapter 15	Lumbar Canal Stenosis Treated by Transforaminal Endoscopic Access	126
	<i>Satishchandra Gore</i>	
	◆ Indications and Contraindications for Transforaminal Endoscopic Intervention in Stenosis 126 ◆ Patient Selection 126 ◆ Complications 131 ◆ Postoperative Care 131 ◆ Outcome 132 ◆ Tips 132	
Chapter 16	Percutaneous Endoscopic Lumbar Disectomy in Spondylodiskitis	134
	<i>Pradyumna Pai Raiturkar</i>	
	◆ Anatomy of the Transforaminal Endoscopic Approach 135 ◆ Preoperative Planning 136 ◆ Technique 136 ◆ Complications 142 ◆ Review of Literature 142	

Chapter 17	Microlumbar Discectomy	145
	<i>CE Deopujari, Shumayou Dutta</i>	
	♦ Evolution of Discectomy 145 ♦ Introduction to Microlumbar Discectomy 145 ♦ Principles of Microlumbar Discectomy 146 ♦ Technique 146 ♦ Operative Positioning and Patient Preparation 146 ♦ Surgical Steps 147 ♦ Review of Literature 151	
Chapter 18	Microendoscopic Discectomy	154
	<i>Aaron J Clark, Matthew T Brown, Kevin T Foley</i>	
	♦ Indications and Applications 154 ♦ Applied Anatomy 155 ♦ Techniques 156 ♦ Complications 158	
Chapter 19	Microendoscopy for Lumbar Disk Prolapse	161
	<i>Amit Jhala, Dhruv Patel</i>	
	♦ Indications and Applications 161 ♦ Contraindication 162 ♦ Applied Anatomy 162 ♦ Surgical Technique 162 ♦ Postoperative Protocol 164 ♦ Complications 164 ♦ Applications of MED 164 ♦ Outcomes of MED 164	
Chapter 20	Tubular Decompression Technique in Lumbar Spinal Stenosis	167
	<i>Arvind G Kulkarni, Ankit Patel, Sameer Ruparel, Navin Mewara</i>	
	♦ Indications and Contraindications 167 ♦ Advantages 167 ♦ Disadvantages 168 ♦ Technical Tips for Contralateral Decompression 172 ♦ Complications 173	
Chapter 21	Endoscopic Lumbar Canal Decompression in Degenerative Stenosis	178
	<i>Mohinder Kaushal</i>	
	♦ Clinical Presentation 179 ♦ Treatment 179 ♦ Clinical Outcome and Complications 184	

SECTION 4 MIS in Lumbar Spine—Instrumented

Chapter 22	MIS–TLIF Systems	189
	<i>Rajkumar Deshpande</i>	
	♦ Complication 190 ♦ Indications 190 ♦ Contraindications 191	

Chapter 23	Minimally Invasive Surgery—Transforaminal Lumbar Interbody Fusion	193
	<i>Arvind G Kulkarni, Hussain Bohra, Vishwanath Patil</i>	
	♦ Advantages 194 ♦ Evolution 194 ♦ Indications 194 ♦ Contraindications 194 ♦ Preoperative Preparations 194 ♦ Diagnostic Testing 195 ♦ Surgical Technique 195 ♦ Surgical Procedure 195 ♦ Postoperative Care 199 ♦ Application of MIS–TLIF In Special Situations 199 ♦ Complications and Management 201 ♦ Outcomes 203	
Chapter 24	Transforaminal Lumbar Interbody Fusion (TLIF): MISS/Mini-open	206
	<i>Vikas Gupte, Kumar Shetty</i>	
	♦ Historical Perspective 206 ♦ Terminology 206 ♦ Indications, Contraindications and Applications 206 ♦ Applied Anatomy and Technique 207 ♦ Complications 212	
Chapter 25	Outcomes of Lumbar Microendoscopic Decompression Surgery	213
	<i>Mehta Satyen, Jain Vikas</i>	
	♦ Microendoscopic Discectomy 213 ♦ Complications 215	
Chapter 26	Outcomes in Minimally Invasive Spinal Surgery—Instrumented	217
	<i>Sreeharsha</i>	
	♦ Minimally Invasive Decompression Surgeries 218 ♦ Minimally Invasive Fusion Surgeries 218 ♦ MIS and Special Considerations 220	
Chapter 27	Management of Surgical Site Infection after Minimally Invasive Spine Surgery	223
	<i>Arvind G Kulkarni, Ravish Patel</i>	
	♦ Epidemiology 223 ♦ Microbiology 225 ♦ Imaging 226 ♦ Classifications 226 ♦ Preventive Strategies 227 ♦ Management 227 ♦ Surgical Treatment 228 ♦ Authors' Experience 229	

SECTION 5 Tumors, Infections and Osteoporosis

Chapter 28	Vertebroplasty and Vesselplasty	235
	<i>Arvind Bhawe</i>	
	♦ Vertebroplasty 235 ♦ Diagnosis 235 ♦ Physical Examination 237 ♦ Technical Considerations: Image-guided Approach 237 ♦ Complications of Vertebroplasty 238 ♦ Outcomes Measures 239 ♦ Case Studies 239 ♦ Vesselplasty 243 ♦ Procedure 243 ♦ Case Studies 245	
Chapter 29	Kyphoplasty	249
	<i>Abhay Nene, Manish Kothari, Kunal Shah</i>	
	♦ Indications 249 ♦ Contraindications 249 ♦ Applied Anatomy 249 ♦ Preoperative Workup 250 ♦ Technique 251 ♦ Complications 257	
Chapter 30	Scope of Minimally Invasive Techniques in Spinal Infections	262
	<i>Arvind G Kulkarni, Navin Mewara</i>	
	♦ Various MIS Techniques 263	
Chapter 31	Minimally Invasive Spine Surgery for Spinal Intradural Tumors	275
	<i>Alok Ranjan, Rahul Lath</i>	
	♦ Advantages 275 ♦ Disadvantages 275 ♦ Future Directions 278 ♦ Case Illustration 278	

SECTION 6 Pain Management

Chapter 32	Epidural Steroid Injection	283
	<i>DK Baheti</i>	
	♦ How Does Epidural Steroid Injection Work? 283 ♦ Approaches for Cervical or Lumbar Epidural Steroid Injection 285 ♦ Postprocedural Care 287 ♦ Postprocedure Check 287 ♦ Complications 288	
Chapter 33	Radiofrequency Ablation of Facet Joints	289
	<i>Doshi Preeti P</i>	
	♦ History and Evolution 290 ♦ General Physics and Principles of Radiofrequency Ablation 290	

- ◆ Advantages of RF Lesioning over Other Neurodestructive Techniques 292
- ◆ Indications 292
- ◆ Patient Selection Criteria 293
- ◆ Contraindications and Limitations 293
- ◆ Minimal Standards and Recommendations 293
- ◆ Procedures 293
- ◆ Outcome of Radiofrequency Thermal Ablation Current Evidence 297

Chapter 34 Failed Back Surgery Syndrome 299

Sandeep Diwan, Miraj

- ◆ Cause of persistent pain 299
- ◆ Management 300
- ◆ Pharmacological Intervention 300
- ◆ Percutaneous adhesiolysis 304
- ◆ Spinal Endoscopy 305
- ◆ Spinal Cord Stimulation 307
- ◆ Post Successful Trial 308

SECTION 7 Advances in MISS

Chapter 35 Robotics in Spine Surgery: An Ideal Surgical Assistant 315

Pramod K Sudarshan, Aditya P Panda, Sajan K Hegde

- ◆ Indications and Applications 315
- ◆ Contraindications 315
- ◆ Techniques 316
- ◆ Postoperative Protocol 316
- ◆ Complications 318
- ◆ Discussion 318

Chapter 36A Lumbar Spinous Process Splitting Approach for Decompression in Lumbar Canal Stenosis 324

Rishi M Kanna, Ajoy P Shetty, S Rajasekaran

- ◆ Indications 324
- ◆ Contraindications 324
- ◆ Applied Anatomy 324
- ◆ Technique 325

Chapter 36B Computer-assisted Spine Surgery: Navigation-guided Instrumentation in Minimally Invasive Spine Surgery (Nav-MISS) 327

Vishal Kundnani, Tarun Dushad

- ◆ Basics and Concepts of Navigation 328
- ◆ Technique: Navigation-guided MIS Percutaneous Instrumentation in MIS-TLIF: Author's Experience 330
- ◆ Technique of Navigation-guided Percutaneous Instrumentation 331
- ◆ Utilization of Navigation Technology in Minimally Invasive Spine Surgery 332
- ◆ Discussion 333

Chapter 37 Navigation in Minimally Invasive Spine Surgery 339

Benjamin Mayo, Junyoung Ahn, Benjamin Kuhns, William Long, Dustin Massel, Krishna Modi, Kern Singh

- ◆ History, Evolution and Equipment 339
- ◆ Application in Spine Surgery 340

- ◆ Limitations 341
- ◆ Current Navigation Modalities 341
- ◆ Future of Navigation 344

Chapter 38 Minimally Invasive Atlantoaxial Fusion 348

Umesh Srikantha

- ◆ Indications 348
- ◆ Contraindications/Caution 348
- ◆ Rationale and Applied Anatomy 348
- ◆ Surgical Technique 349
- ◆ Complications and Avoidance 349
- ◆ Literature Review and Discussion 351

Chapter 39 Minimally Invasive Surgery in Tuberculosis of Spine 354

Nitin Garg

- ◆ Management 354
- ◆ Indication 354
- ◆ Limitation 355
- ◆ Surgical Approaches 355
- ◆ Surgical Methods 357

Chapter 40 Percutaneous Pedicle Screw Instrumentation 370

Neeraj Gupta

- ◆ Open versus Percutaneous Pedicle Screw Fixation 370
- ◆ Preoperative Planning 371
- ◆ Surgical Technique 371

Chapter 41 Tubular Retractors in Thoracic and Lumbar Spine 376

G Balamurali, Vignesh Pushparaj

- ◆ Applied Anatomy of the Thoracolumbar Spine 376
- ◆ Indication 376
- ◆ Tubular Retraction 377
- ◆ Guidewire Insertion 377

Index 383
