

CONTENTS

Chapter 1. Growth and Development

Md Salim Shakur, K Nedunchelian

- Phases of Growth 1
- Factors Influencing Growth 2
- Physiology 2
- Effects of Growth Hormone 2
- Assessment of Growth 3
- Growth 4
- Bone Age 6
- Growth Disorders 7
- Principles of Development 7
- Domains of Development 7
- Developmental Assessment 10

Chapter 2. Nutrition and its Disorders

Md Salim Shakur, K Nedunchelian

NUTRITION 12

- Nutritional Requirements 12
- Nutrients 13
- Consequences of Undernutrition 15
- Malnutrition 16
- Clinical Features 20
- Management 21
- Steps of Management 23
- Basic Requirements for Community-Based Management of SAM 29
- Enrolment in Community-Based Management of MAM 32

BODY COMPOSITION 32

VITAMIN DEFICIENCIES AND THEIR TREATMENT 33

- Vitamin A 33
- Vitamin B Complex 33

VITAMIN A 37

- Global Perspective 37
- Absorption and Metabolism 37
- Sources of Vitamin A 37
- Clinical Features 38
- Treatment 39
- Prevention 39
- Guidelines for Vitamin A Supplementation 39

VITAMIN D 40

- Vitamin D Metabolism 40
- Vitamin D Deficiency 41
- Vitamin D Deficiency (Nutritional Rickets) 41

1 IRON DEFICIENCY AND IRON-DEFICIENCY ANEMIA 44

- Pathophysiology 44
- Dietary Sources of Iron 45
- Stages of Iron Deficiency 45
- Iron Deficiency Anemia 45

ZINC 47

- Role of Zinc 48
- Dietary Intake and Absorption 48
- Distribution 48
- Zinc and Diarrhea 48

FAILURE TO THRIVE 49

- Causes 49
- Management 49
- Prognosis 50

12 EATING DISORDERS 50

- Anorexia Nervosa 50
- Etiology 50
- Diagnostic Features 50
- Treatment 51
- Bulimia Nervosa 51
- Management 51

OBESITY AND OVERWEIGHT 51

- Pathogenesis of Obesity 51
- Adipose Tissue and Adipokines 52
- Classification of Overweight and Obesity 52
- Life Style Intervention 52
- Pharmacological Intervention 53
- Surgical Intervention 53

Chapter 3. Genetics

58

Srilakshmi Rajagopalan

- Mendel's Laws of inheritance 58
- Genetic Disorders 59
- Genetic Testing 61
- Selected Chromosomal Disorders 62
- Management of Genetic Diseases 65

Chapter 4. Neonatology

67

Indumathy Santhanam, Padmesh Vadakepat

- Current Advances in Ventilatory Care 68
- Terminology 69
- Statistical Indices 69
- Antenatal Investigation 70
- Newborn Screening 70
- Polyhydramnios 73

- Oligohydramnios 73
- Early Identification of Hearing Loss 75
- Role of Neonatal Screening for Prevention of Mental Retardation 78
- An Approach to Inborn Errors of Metabolic Syndromes 78
- Phenylketonuria 80
- Galactosemia 80
- Homocystinuria (Autosomal Recessive) 81
- Tyrosinemia (Autosomal Recessive) 82
- Disorders of Ammonia Metabolism 82
- Twin Pregnancy 83
- History Taking of Newborn Infants and Newborn Examination 83
- When do You Designate a Baby as Term Normal Newborn? 97
- Checklist for First 24 Hours of Life 97
- Rapid Cardiopulmonary Cerebral Assessment to Find Out Whether the Neonate is Well or Sick 97
- Head-to-Toe Examination 97
- Routine Care of the Newborn Just After Delivery 98
- CARE FOLLOWING BIRTH 99**
- Breastfeed 99
- Warmth 99
- Cord Care 99
- Urine and Meconium 99
- Immunization 100
- Vitamin K 100
- Evaluation of Birth Injury and Scalp Swelling 100
- Caput Succedaneum 100
- Cephalohematoma 101
- Subaponeurotic Hemorrhage 102
- INFANT AND YOUNG CHILD FEEDING 104**
- Breastfeeding and Complementary Feeding 104
- Kangaroo Mother Care 107
- Mistaken Beliefs: Barriers to Normal Breastfeeding Initiation 108
- Positioning and Attachment 108
- Measures that Aid in Optimizing Breastfeeding Practices 109
- Hiv Infection and Breastfeeding 110
- CONTRAINDICATION OF BREASTFEEDING 111**
- How Breastfeeding can Help Achieving MDGs? 111
- Breastfeeding in Special Situations 112
- Breastfeeding Twins and High Multiples 114
- Problems with Breastfeeding which May Cause Failure of Breastfeeding 115
- Relactation 117
- COMMON BREAST PROBLEMS 118**
- Inverted/Flat Nipples 118
- Sore/Cracked/Fissured Nipple 118
- Breast Engorgement 118
- Blocked Duct 118
- Mastitis/Breast Abscess 119
- COMPLEMENTARY FEEDING 119**
- Ideal Characteristics of Complementary Feeding 119
- Preterm, Low Birthweight and Intrauterine Growth Restriction 121
- Terminology Related to Low Birthweight 121
- Types of IUGR 122
- Normal Growth and Retarded Growth of Fetus During Pregnancy 122
- Risk of Preterm Low Birthweight Babies 125
- Environmental Factors Associated with LBW 127
- ASSESSMENT OF IUGR AND LBW 129**
- Investigations 129
- Management 129
- SPECIAL CARE OF THE PRETERM LBW (VLBW) 129**
- Prevent Infection 129
- Maintain Warmth 130
- Kangaroo Mother Care 130
- Fluid and Electrolyte Management 130
- Feeding Management 130
- Vitamin K Prophylaxis 131
- Other Vitamins and Micronutrient Supplementation 131
- Low Birthweight: Identification and Management of the Preterm Low Birthweight Baby 133
- More Serious Complications: Brain Injury 134
- PERSISTENT DUCTUS ARTERIOSUS IN PRETERM 141**
- Effects of PDA 141
- Clinical Features 141
- Investigations 141
- Management 141
- NECROTIZING ENTEROCOLITIS 142**
- Epidemiology 142
- Etiology and Pathogenesis 142
- Pathology 142
- Clinical Features 142
- Differential Diagnosis 143
- Investigation 143
- Imaging 143
- Management 143
- Prognosis 146
- Long-Term Complications 146
- Respiratory Distress 146
- Other Causes of Respiratory Distress 146
- Transient Tachypnea of Newborn 146
- APNEA OF PREMATURITY 147**
- Clinical Features 147

- Etiologies 147
- Management 148
- CONGENITAL PNEUMONIA 148**
 - Diagnosis of Congenital Pneumonia/Sepsis 148
- RESPIRATORY DISTRESS SYNDROME 149**
 - Clinical Features 149
 - Pathophysiology 149
 - Autopsy 150
 - Risk Factors of RDS 150
 - Factors that Stimulate Surfactant Production 150
 - Diagnosis 150
 - Management: Prevention and Treatment 150
- ASPIRATION OF FEEDS 154**
 - Clinical Features 154
 - Diagnosis 154
- PNEUMOTHORAX 154**
 - Clinical Features 154
 - Diagnosis 154
 - Treatment 155
 - Prevention 155
 - Pulmonary Interstitial Emphysema 155
 - Bronchopulmonary Dysplasia 155
- MECONIUM ASPIRATION SYNDROME 158**
 - Clinical Features 158
 - Diagnosis: Meconium Aspiration Syndrome 158
 - Prevention or Antenatal Management 158
 - Cardiopulmonary Cerebral Assessment 158
 - General Assessment 159
 - History 159
 - Investigations 159
 - Treatment 159
 - Complications 159
 - Prognosis 159
- CONGENITAL DIAPHRAGMATIC HERNIA 160**
 - Clinical Features 160
 - Investigations 160
 - Differential Diagnosis 160
 - Treatment: Supportive 160
- TRACHEOESOPHAGEAL FISTULA 161**
 - Clinical Features 161
 - Epidemiology 161
 - Association 161
 - Types 161
 - Investigation 162
 - Treatment 162
 - Prognosis 162
- PULMONARY HYPERTENSION AND PERSISTENT PULMONARY HYPERTENSION 163**
 - Clinical Features 163
 - Diagnosis 163
 - Pathogenesis 163
- Etiologies 163
- Clinical Presentation 164
- Investigations 165
- Treatment 165
- Congenital Heart Disease Presenting as Respiratory Distress in Newborn 165
- Investigations 166
- Treatment 166
- RETINOPATHY OF PREMATURITY 167**
 - Risk Factors 167
 - Pathogenesis 167
 - International Classification of Rop 167
 - Management 167
 - Prognosis 167
- METABOLIC BONE DISEASE OF PRETERM BABY (OSTEOPENIA OF PREMATURITY) 169**
 - Pathogenesis 169
 - Chemical 169
 - Radiological Change 169
 - Management 169
 - Prognosis 169
- ANEMIA OF PREMATURITY 169**
 - Clinical Features 170
 - Diagnosis 170
 - Management 170
- BIRTH ASPHYXIA (INTRAPARTUM AND PERIPARTUM): HYPOXIC-ISCHEMIC ENCEPHALOPATHY 171**
 - Introduction 171
 - Definition 171
 - Causes 172
 - Pathophysiology 172
 - Clinical Features 174
 - Laboratory Studies 175
 - Management 175
- RESUSCITATION OF NEWBORN AT BIRTH 176**
 - Before Delivery 176
 - During Delivery 177
 - Postresuscitation Care 180
- NEONATAL SEPSIS 182**
 - Epidemiology and Etiology 182
 - Etiology 183
 - Early-Onset Sepsis and Late-Onset Sepsis 183
 - Recognition and Management of Septic Shock 185
 - Adjunct Therapy 185
 - Fresh Blood Transfusion/Packed Red Blood Cell/Fresh Frozen Plasma 185
 - General Principles 185
 - Prevention of Infection 187
 - Management of Neonatal Sepsis 189
 - Identification of Neonatal Sepsis: Danger Signs 189
- CONGENITAL INFECTION 192**
 - Clinical Features 192
 - Investigations 193
 - Perinatally Acquired Hepatitis B Infection 193

DELAYED PASSAGE OF MECONIUM 195

Meconium Ileus 195
How Will You Investigate? 195

NEONATAL JAUNDICE 196

Why Jaundice is More in Newborn? 196
Criteria for Physiological Jaundice 196
Criteria for Pathological Jaundice 196
Causes 196
Hyperbilirubinemia 197
Clinical Approach and Investigation to Diagnose Neonatal Jaundice 198
Treatment of Unconjugated Hyperbilirubinemia 200
Rhd Hemolytic Disease of Newborn 200
Hemolytic Disease of Newborn due to Non-Rh Incompatibility, Mostly Abo Incompatibility 204
Other Causes of Hemolytic Disorder of Newborn Causing Early Neonatal Jaundice 205
Neonatal Jaundice due to Hemoglobinopathy 205
Diagnosis of Severe Jaundice 205
Breast Milk Jaundice—Clinical Indicators 206
Conjugated or Direct Hyperbilirubinemia (Cholestatic Jaundice) 206
Neonatal Cholestatic Jaundice 207
Biliary Atresia 208

EVALUATION OF LARGE FOR DATE TERM**NEONATES—LGA BABIES 209**

Causes 209

INFANT OF DIABETIC MOTHER 209

Pathophysiology 209
Treatment 210

HYPOGLYCEMIA (NEONATAL) 211

Physiology: Glucose Homeostasis 211
Pathophysiology of Decreased Glucose Availability 212
Clinical Features 213
Investigations 213
Treatment of Hypoglycemia 213

NEONATAL CONVULSION 215

Clinical Features 215
Etiology and Timing of Onset of Neonatal Convulsion 215
Benign Seizure in Neonates 215
Investigations 215
Protocol for the Management of Neonatal Seizures in the Emergency 217

VITAMIN K DEFICIENCY BLEEDING (HEMORRHAGIC DISEASE OF NEWBORN) 219

Pathogenesis 219
Clinical Features 219

Classification 219
Types of Bleeding 219
Investigations 219
Management 219
Treatment During Active Bleeding 220
Congenital Heart Diseases in Newborn 220
Heart Failure During Neonatal Period 221

NEONATAL SURGICAL CONDITIONS 223

Duodenal Atresia 223
Small Bowel Atresias (Jejunal and Ileal Atresia) 224
Malrotation and Volvulus 225
Anorectal Anomalies 226

HIRSCHSPRUNG'S DISEASE 228

Pathology 228
Pathogenesis 228
Type—According to Length Affected 228
Epidemiology 228
Clinical Features (Typical) 228
Rectal Examination 228
Investigations 228
Management 228
Prognosis 228
Anterior Abdominal Wall Defects 228

DRUGS USED IN NEONATOLOGY 231

Emergency Drugs 231

Chapter 5. Gastroenterology**237**

Md Salim Shakur

DIARRHEA 237

Clinical Types of Diarrheal Disease 238
Etiology of Acute Diarrhea 238
Approach to Diagnosis 238
Management (WHO/IMNCI Guideline) 240
Rotavirus Gastroenteritis 242
Invasive Diarrhea 244
Shigella 244
Advances in the Management of Diarrhea 246
Dyselectrolytemia Associated with Diarrhea and Dehydration 248

PERSISTENT DIARRHEA 250

Management 250

CHRONIC DIARRHEA 252

Pathophysiology 252
Causes 253
Diagnosis 253
Treatment 253
Malabsorption 253
Toddler Diarrhea 254

PROBIOTICS 254**GASTROESOPHAGEAL REFLUX AND****GASTROESOPHAGEAL REFLUX DISEASE 255**

Diagnosis 255
Treatment of Mild GERD 256
Management of Severe GERD 257

CYCLICAL VOMITING SYNDROME 257

- Presentation 257
- Bulimia 258
- Rumination 258

INTESTINAL PARASITES 258

- Clinical features 258
- Amebiasis 258
- Giardiasis 261
- Tapeworms (Teniasis) 261
- Hydatid Disease 262
- Hookworm 262
- Roundworm 263
- Pinworm/Threadworm 264
- Whipworm 265
- Helicobacter pylori* Infection 266

COW'S MILK INTOLERANCE AND COW'S MILK PROTEIN ALLERGY 266

- Adverse Reaction to Cow's Milk 266
- Lactose Intolerance 267
- Diagnosis 267
- Treatment 267

CONSTIPATION 267

- Causes 268
- Examination 268
- Investigation 268
- Management Strategies 269

RECURRENT ABDOMINAL PAIN 269

- Nonorganic 269
- Pathophysiology 269
- Functional Abdominal Pain 270
- Organic Causes 270
- Physical Examination 270
- Laboratory Investigations 270
- Management 271

ACUTE APPENDICITIS 271

- Appendicitis in Children 271
- Epidemiology 271
- Clinical Presentation 271
- Laboratory Investigations 272
- Treatment 272

INTUSSUSCEPTION 272

- Epidemiology and Etiopathology 272
- Clinical Features 272
- Investigation 273
- Management 273

INGUINAL HERNIA 273**Chapter 6. Hepatology***Md Salim Shakur*

- Acute Viral Hepatitis 278
- Hepatitis A 279
- Hepatitis B 280

- Hepatitis C 285
- Hepatitis D 287
- Hepatitis E 287
- Liver Failure 288
- Fulminant Liver Failure 288
- Chronic Liver Disease 291
- Metabolic Liver Disease 295
- Nonalcoholic Fatty Liver Disease 297
- Wilson's Disease 298
- Glycogen Storage Diseases 299
- Portal Hypertension 302
- Liver Transplantation 306

Chapter 7. Respiratory System **309***Sarath Balaji, RV Dhakshayani, Indumathy Santhanam*

- Fetal Lung Development 309
- Upper Airway 310
- Lower Airway 311
- Pulmonary Physiology 312
- Pulmonary Gas Exchange 313
- Assessment of Pulmonary Function 314
- Evaluating Hypoxemia and Hypercapnia 315
- Acid-Base Balance Involving
 - Respiratory System 317
- Pulmonary Mechanics 317
- Important Terms and Values in
 - Pulmonary Mechanics 317
- Control of Breathing 318
- Respiratory Failure 318
- Clinical Pulmonology 318
- Symptom Analysis 319
- Examination of the Respiratory System 321
- General Imaging Approach 325
- Bronchoscopy 327
- Pulmonary Function Tests 327
- Peak Flow Meter 329
- Sweat Chloride Test 329
- Congenital Airway Abnormalities 329
- Laryngomalacia 330
- Congenital Subglottic Stenosis 330
- Paralysis of Vocal Cords 331
- Tracheoesophageal Fistula 331
- Congenital Lung Malformations 331
- Pulmonary Agenesis or Hypoplasia 331
- Bronchogenic Cyst 331
- Congenital Pulmonary
 - Airway Malformation 331
- Congenital Lobar Emphysema 331
- Pulmonary Sequestration 331
- Vascular Ring 332
- Stridor 332
- Acute Epiglottitis 333

- Acute Laryngotracheobronchitis 334
- Spasmodic Croup 335
- Respiratory Tract Infection 335
- Common Cold or Sinusitis 336
- Pharyngotonsillitis 337
- Pneumonia 338
- Assessment of Severity of Pneumonia 340
- Lung Abscess 341
- Bronchiectasis 342
- PLEURAL EFFUSION AND EMPYEMA (POST-PNEUMONIC) 344**
- Predisposing Factors 344
- Microorganisms Responsible for Empyema Thoracis 344
- stages of empyema 344
- Clinical Features 344
- Investigations 345
- Management of Empyema 346
- Community Management of Acute Respiratory Infections 347
- Acute Respiratory Infections: IMNCI Guidelines 348
- RECURRENT AND PERSISTENT PNEUMONIA 352**
- Etiologic Factors 353
- History 353
- Physical Examination 354
- Investigations 354
- Treatment 354
- ASPIRATION PNEUMONIA 355**
- Community-acquired Aspiration Pneumonia 355
- Foreign Body Aspiration 356
- BRONCHIOLITIS 357**
- Clinical Features and Assessment of Severity 358
- Risk Factors 358
- Investigations 358
- Treatment 358
- Drug Prophylaxis 359
- Outcome 359
- SLEEP APNEA AND SLEEP ASSOCIATED BREATHING DIFFICULTY 359**
- Diagnosis 359
- Treatment 359
- ASTHMA 360**
- Definition 360
- Pathogenesis 360
- Diagnosis 360
- Investigations 361
- Treatment 362
- CYSTIC FIBROSIS 365**
- Triad of Cystic Fibrosis 365
- History 365
- Examination 365
- Investigations 365
- Management of Cystic Fibrosis 367
- TUBERCULOSIS 367**
- Transmission of Tuberculosis 367
- Pathogenesis 368
- Clinical Forms of Tuberculosis 369
- Diagnosis 375
- Laboratory Test 378
- Other Investigations for Diagnosis of Tuberculosis 379
- Diagnostic Advances 380
- Treatment 384
- Recommended Treatment Regimens 384
- MULTIDRUG-RESISTANT TUBERCULOSIS 385**
- Definitions for Drug-Resistant Tuberculosis 385
- Tuberculosis Preventive Therapy 386
- Bacillus Calmette-Guérin Vaccination 386
- Directly Observed Treatment in Community-Based Management of Tuberculosis Under National Tuberculosis Control Program 386
- TUBERCULOSIS AND HUMAN IMMUNODEFICIENCY VIRUS INFECTION 387**
- Influence of HIV Infection on the Pathogenesis of Tuberculosis 387
- Diagnosis of HIV Infection and Tuberculosis 387
- Treatment 387
- Prevention of Tuberculosis in HIV-Infected Persons 388
- Chapter 8. Cardiac Disorders 392**
- Indumathy Santhanam, J Ritchie Sharon Solomon*
- Cardiovascular Anatomy 392
- Cardiovascular Physiology 394
- Cardiac Output 395
- Investigation Modalities in Pediatric Cardiology 398
- Common Presentations of Cardiovascular Diseases 400
- Cardiovascular Examination in Children 402
- Classification of Congenital Heart Disease 407
- Heart Failure 409
- STRUCTURAL HEART DISEASES: INDIVIDUAL LESIONS 412**
- Ventricular Septal Defects 412
- Atrial Septal Defects 417
- Patent Ductus Arteriosus 419
- Pulmonic Stenosis 424
- Congenital Aortic Stenosis 426
- Coarctation of Aorta 430
- Congenital Cyanotic Heart Disease 433
- Congenital Heart Disease with Mild or No Cyanosis with Systemic Hypoperfusion 438

- Tetralogy of Fallot 440
 Pulmonary Atresia with Ventricular Septal Defect 443
 Complete Transposition of the Great Arteries 443
 Tricuspid Atresia 444
 Truncus Arteriosus 446
 Total Anomalous Pulmonary Venous Return 447
 Ebstein's Anomaly 448
- ACQUIRED HEART DISEASES 450**
 Rheumatic Fever 450
- RHEUMATIC HEART DISEASE 456**
 Mitral Regurgitation (Leaky Mitral Valve) 456
 Mitral Stenosis 457
 Aortic Regurgitation 458
 Aortic Stenosis 460
 Tricuspid Regurgitation 460
 Diagnostic Problems Associated with Rheumatic Heart Disease 461
 Infective Endocarditis 461
 Important Pediatric Cardiac Arrhythmias 465
 Cardiomyopathies 468
 Kawasaki Disease 468
- Chapter 9. Immunization 472**
P Ramachandran, Indumathy Santhanam
 Types of Vaccines 473
 Response After Immunization 473
 Technique of Vaccine Administration 473
 Cold Chain 474
 Adverse Events Following Immunization 475
 Contraindications for Vaccination 475
 National Immunization Schedule 475
- Chapter 10. Infectious Diseases 479**
V Poovazhagi
 Acute Febrile Illness 479
- VIRAL INFECTIONS 481**
 Influenza (FLU) 481
 Measles 482
 Varicella Zoster 486
 Herpes Zoster (Shingles) 486
 Mumps 488
 Rubella 489
 Cytomegalovirus Infection 492
 Herpes Simplex Virus Infection 493
 Dengue 495
 Poliomyelitis 495
 Rotavirus Diarrhea 498
 Rabies 499
 Human Immunodeficiency Virus 501
- BACTERIAL INFECTIONS 506**
 Enteric Fever 506
 Diphtheria 508
 Pertussis (Whooping Cough) 509
- Tetanus 512
 Staphylococcal Infections 513
 Streptococcal Infections 515
 Pneumococcal Infection 517
 Meningococcal Infection 518
Haemophilus influenzae 519
 Anthrax 521
 Leprosy 522
 Rickettsial Infection 524
- PARASITIC DISEASES 526**
 Leishmaniasis 526
 Malaria 528
 Toxoplasmosis 530
- Chapter 11. Nephrology 533**
RV Dhakshayani, R Suresh Kumar
 Renal System 533
- DISORDERS OF RENAL SYSTEM 538**
 Disorders of Renal Development 538
 Structural Anomalies of the Urinary Tract 540
 Disorders of Pelvis and Ureters 541
 Inguinoscrotal Disorders 543
 Urinary Tract Infection 545
 Vesicoureteric Reflux 550
 Disorders of Glomerular Function 553
 Glomerulonephritis 562
 Renal Involvement in Henoch-Schönlein Purpura 567
 Systemic Lupus Erythematosus 568
 Lupus Nephritis 568
 Immunoglobulin A Nephropathy 570
 Membranous Nephropathy 572
 Membranoproliferative
 Glomerulonephritis 573
 Rapidly Progressive Glomerulonephritis 574
 Disorders of Renal Tubules 575
 Hemolytic Uremic Syndrome 579
 Enuresis 583
 Disorders of Electrolytes Relevant to Renal Disorder 585
 Acute Kidney Injury 591
 Chronic Kidney Disease 595
 Peritoneal Dialysis 596
- Chapter 12. Pediatric Endocrinology 601**
Hemchand K Prasad
 General Principles of Hormone
 Production, Regulation and Action 601
 Growth and its Disorders 602
 What is Short Stature? 604
- DIABETES INSIPIDUS 617**
 Clinical Features 617
 Procedure 617

THYROID GLAND AND ITS DYSFUNCTION 618

- Applied Physiology 618
- Biosynthesis of Thyroid Hormones 618
- Regulation of Thyroid Hormone 618
- Congenital Hypothyroidism 619
- Juvenile Hypothyroidism and Goiter 622
- Hyperthyroidism 626

PUBERTY 629

- Applied Physiology 629
- Components of Puberty 629
- Physiology of Puberty 629
- Pubertal Staging 630
- Disorders of Puberty 630
- Delayed Puberty 630
- Precocious Puberty 633
- Normal Variants in Puberty 636

DEVELOPMENT OF GENITALIA AND SEX DIFFERENTIATION 637

- Basic Physiology 637
- Genes and Sex Determination 638
- Sexual Differentiation 638
- Disorders of Sex Development 639

ADRENAL GLAND AND ITS DISORDERS 646

- Applied Physiology 647
- Cushing's Syndrome 647
- Adrenal Insufficiency 650
- Congenital Adrenal Hyperplasia 652

ENDOCRINE DISORDERS OF CALCIUM METABOLISM 655

- Physiology of Calcium Metabolism 655
- Anatomy of Parathyroid Gland 656
- Hormones of Parathyroid Gland 656
- Actions of Parathyroid Hormone 656
- Mechanism of Action of Parathyroid Hormone 656
- Regulation of Parathyroid Hormone 656
- Applied Physiology 656
- Disorders of Calcium Metabolism 657
- Pseudohypoparathyroidism 658
- Hypercalcemia 659

DIABETES MELLITUS 662

- Etiological Classification of Diabetes Mellitus 662
- Diagnostic Criteria for Diabetes Mellitus in Children and Adolescents 662
- Impaired Glucose Tolerance and Impaired Fasting Glycemia 662
- Type 1 Diabetes Mellitus 663
- Type 2 Diabetes Mellitus in Children 670
- Neonatal Diabetes Mellitus 670

A JUNIOR RESIDENT MUST KNOW IMPORTANT LABORATORY INFORMATION IN PEDIATRIC ENDOCRINOLOGY 671

- Objectives 671

Chapter 13. Fluid and Electrolyte Disturbances 672

J Balaji, S Thangavelu, Indumathy Santhanam

- Physiology: Fluids 672
- Fluid Compartments 673
- Loss of Water 674
- Electrolytes 675
- Hyponatremia 679
- Hypernatremia 683
- Hypokalemia 684
- Hyperkalemia 686
- Hypocalcemia 688

Chapter 14. Acid-Base Balance and its Disturbances 692

J Balaji, S Thangavelu, Indumathy Santhanam

- Acid-Base Homeostasis 692
- Sources of Acids 693
- Disturbances of Acid-Base Status 694
- Metabolic and Respiratory Disturbances 694
- Sampling for Arterial Blood Gas 697
- Interpretation of Arterial Blood Gas 697

Chapter 15. Pediatric Resuscitation and Emergency Medicine 701

Indumathy Santhanam

- Overview 701
- Airway 701
- Breathing 702
- Circulation 703
- Disability 708
- Do Not Ever Forget Glucose 708
- Exposure 708
- Documentation 709

BAG VALVE MASK VENTILATION (SELF-INFLATING VENTILATION DEVICE) 711**AIRWAY EQUIPMENT AND TECHNIQUES 712****LARYNGEAL MASK AIRWAY 713****TECHNIQUE OF GOOD QUALITY CHEST COMPRESSIONS 714****STRIDOR 716****BREATHING 719**

- Bronchiolitis 719
- Asthma 719
- Pneumonia 719
- Pulmonary edema 719
- Respiratory Distress 720

HYPOVOLEMIC SHOCK 723

- Pathophysiology 723

SEPTIC SHOCK 724

- Pathophysiology 724
- Management 725

RECOGNITION AND MANAGEMENT OF DENGUE 727

- Objectives 727
- Pathophysiology 727
- Management 728
- Dengue with Warning Signs 729

GENERALIZED TONIC-CLONIC SEIZURES AND STATUS EPILEPTICUS 731

- Generalized Tonic-Clonic Seizures 731
- Status Epilepticus 731
- Disability 732

OXYGEN DELIVERY DEVICES USED IN CHILDREN WHO ARE SPONTANEOUSLY BREATHING 735

- Non-rebreathing Mask 735
- Flow Inflating Ventilation Device 735
- Continuous Positive Airway Pressure 735

Chapter 16. Drug Overdose and Poisoning 737*T Murali, Shanthi Sangareddi*

- History 737
- Assessment and Resuscitation 738
- Airway and Breathing 738
- Circulation 738
- Disability 738
- Exposure 738
- Elimination or Decontamination 738
- Catharsis 742
- Forced Diuresis 742
- Dialysis 743
- Hemoperfusion 743
- Antidotes 743
- Paracetamol Poisoning 743
- Kerosene Poisoning in Children 745
- Organophosphorus Poisoning 746

Chapter 17. Common Procedures in Pediatric Practice 749*Md Salim Shakur, Shanti Sangareddi*

- Handwashing 749
- Universal Precautions 750
- Lumbar Puncture 751
- Bone Marrow Aspiration 753
- Nasogastric Tube Insertion 754
- Urethral Catheterization 756
- Suprapubic Aspiration of Urine 757
- Endotracheal Intubation 758
- Peripheral Vein Cannulation 760

Chapter 18. National Health Programs for Children in India 763*RV Dhakshayani, S Sundari*

- Programs for Communicable Diseases 763
- Programs for Noncommunicable Diseases 763
- National Nutritional Programs 763

- Programs Related to System Strengthening or Welfare 764
- National Vector-Borne Diseases Control Program 764
- Common Strategies for National Vector Control Program 764
- National Malaria Control Program 764
- Malaria: an Overview 765
- National Filaria Control Program 767
- Filariasis: an Overview 768
- National Kala-Azar Control Program 769
- Kala-Azar: an Overview 769
- National Dengue Control Program 770
- Dengue: an Overview 770
- Control of Dengue or Dengue Hemorrhagic Fever 770
- National Japanese Encephalitis Control Program 771
- Japanese Encephalitis: an Overview 772
- National Leprosy Eradication Program 773
- Revised National Tuberculosis Control Program 774
- Tuberculosis Control Program: an Overview 775
- National AIDS Control Program 777
- Universal Immunization Program 779
- National Nutritional Programs 780
- School Health Program 782
- Reproductive and Child Health Program 783
- Integrated Management of Neonatal and Childhood Illness 784

Chapter 19. Pediatric Dermatology 787*Md Salim Shakur, Indumathy Santhanam*

- Skin Disorders in Neonates 787
- Transient Vascular Phenomena 787
- Benign Pustular Dermatoses 788
- Congenital Abnormalities 789
- Skin Disorders in Children 790
- Infectious Diseases of Skin 794

Chapter 20. Joint and Bone Disorders 801*Md Salim Shakur, Indumathy Santhanam*

- Juvenile Idiopathic Arthritis 801
- Henoch-Schönlein Purpura 807
- Systemic Lupus Erythematosus 810
- Genetic Skeletal Diseases 814

Chapter 21. Neurology 820*Sangeetha Yoganandhan, Leema Pauline*

- History Taking 820
- History 820
- Examination 822
- Higher Functions 822
- Cranial Nerves 822
- Motor System 824

- Reflexes 826
 Sensory System 828
 Cortical Sensations 828
 Stereognosis 828
 Rombergism 828
 Cerebellar Signs 828
 Sphincter Function 828
 Gait 829
 Signs of Meningeal Irritation 830
 Cranium 831
 Sutural Overriding 831
 Spine 832
 General Examination 832
 Family History 833
 Neurological Examination of the Newborn 833
 Investigations 834
 Neurophysiology Investigations 836
 Epilepsy 837
 Febrile Seizures 844
 Seizure Mimics (Condition that are Confused as Seizures) 844
 Status Epilepticus 845
 Intracranial Infection 847
 Tuberculous Meningoencephalitis 852
 Viral Encephalitis 853
 Acute Disseminated Encephalomyelitis 854
 Cerebral Palsy 854
 Neurodegenerative Disorders 858
 Coma and Decreased Level of Consciousness 859
 Hydrocephalus 860
 Neural Tube Defects 861
 Neurocutaneous Syndromes 863
 Movement Disorders 863
 Neuromuscular Disorders 865
 Acute Flaccid Paralysis 868
 Floppy Infant Syndrome 868
 Muscular Dystrophies 871
 Neurodevelopmental Disorders 872
 Autism Spectrum Disorders 872
- Chapter 22. Hematology and Oncology 874**
Margaret Chellaraj, Shanthi Sangareddi
- Hemopoiesis 874
 Red Blood Cells 875
 Hemoglobin 875
 White Blood Cells 876
 Platelets 877
 Anemia 877
 Approach to Anemia 877
 Hereditary Spherocytosis 882
 Glucose-6-Phosphate Dehydrogenase Deficiency 884
 Pyruvate Kinase Deficiency 885
 Thalassemia 886
 Hemoglobin E Carriers 887
 HbE Disease 887
- SICKLE CELL ANEMIA 894**
 Pathophysiology 894
 Sickle Cell Trait 894
 Sickle Cell Anemia 894
 Aplastic Crisis 895
 Approach to Bleeding 896
- PLATELET DISORDERS 896**
 Approach to Thrombocytopenia 896
 Immune Thrombocytopenic Purpura 897
 Acute Immune Thrombocytopenic Purpura 897
 Neonatal Thrombocytopenia 898
 Platelet Function Disorders 898
- COAGULATION DISORDERS 899**
 Hemophilia 899
 Mucosal Bleeding 899
- VON WILLEBRAND'S DISEASE 903**
 Epidemiology 903
 Pathophysiology 903
 Classification 903
 History 904
 Investigations 904
 Differential Diagnosis 904
 Laboratory Investigations 904
 Management 904
- DISSEMINATED INTRAVASCULAR COAGULATION 905**
 Factors Predisposing for the Development of DIC 905
 Pathophysiology 905
 History 905
 Examination 905
 Investigations 905
 Complications 905
 Laboratory Investigations 906
 Differential Diagnosis 906
 Treatment 906
- ACUTE LEUKEMIAS 907**
 Classification 907
 Acute Lymphoblastic Leukemia 907
- ACUTE MYELOID LEUKEMIA 911**
 Etiology and Pathogenesis 911
 Cytogenetics and Molecular Genetic Alteration 911
 Classification 912
 Clinical Features 912
 Investigations 912
 Cytogenetics 912
 Management 912

APLASTIC ANEMIA 913

- Epidemiology 913
- Etiology 913
- Pathophysiology 913
- Classification 913
- Clinical Features 913
- Fanconi's Anemia 914
- Shwachman-Diamond Syndrome 914
- Investigations 914
- Differential Diagnosis 914
- Management 915
- Prognosis 915

LYMPHOMAS 915

- Hodgkin's Lymphoma 915
- Non-Hodgkin's Lymphoma 918

NEUROBLASTOMA 921

- Opsoclonus-Myoclonus Syndrome 921

WILMS' TUMOR 924

- Epidemiology 924
- Etiology and Pathogenesis 924
- Clinical Features 924
- Metastasis 924
- Differential Diagnosis 925
- Investigations 925
- Histopathology 925
- Staging 925
- Treatment 925
- Prognosis 925

TUMORS OF THE CENTRAL NERVOUS SYSTEM 926

- Pathogenesis 926
- Classification 926
- Clinical Features 926
- Laboratory Investigations 927
- Management 927
- Complications 927
- Prognosis 927

LANGERHANS CELL HISTIOCYTOSIS 928

- Epidemiology and Etiology 928
- Classification 928
- Clinical Features 928
- Investigations 929
- Treatment 930
- Prognosis 931

FEBRILE NEUTROPENIA 931

- Laboratory Investigations 931
- Management 931

Chapter 23. Diabetic Ketoacidosis 935

J Balaji, Shanthi Sangareddi, Indumathy Santhanam

- Pathophysiology 935
- Clinical Features 936
- Precipitating Factors 937
- Classification 937
- Differential Diagnosis 937
- Laboratory Investigations 937
- Management 937
- Complications 940

Chapter 24. Child Abuse and Child Protection 942

Md Salim Shakur

- Types of Child Abuse 942
- Role of Health-Care Providers in Child Protection 945

Appendices 947

Appendix I: Nutritive Value of Indian Foods 947

Appendix II: Anthropometric Tables 949

Index 951
