

Contents

1. Introduction to Psychology	1
• Introduction	1
• Meaning and Definition	1
• Psychology as a Science	4
• Branches and Field of Psychology	7
• Scope of Psychology	12
• Relation of Psychology with Other Sciences	13
• Methods of Psychology	19
2. Biology of Human Behavior	36
• Introduction	36
• Nervous System	36
• Components of Nervous System	40
• Body-Mind Relationship	47
• Genetic and Behavior	48
• Glandular Control of Behavior	50
• Muscular Control of Behavior	51
3. Sensation, Attention and Perception	54
• Introduction	54
• Definition of Sensation	54
• Nature of Sensation	54
• Attention	62
– Nature of Attention	62
– Characteristics of Attention	63
– Types of Attention	64
– Importance of Attention	64
– Factors Influencing Attention	65
• Perception	67
– Definition	67
– Nature and Characteristics	67
– Factors Influencing Perception	71
– Errors in Perception	77

4. Learning and its Theories	85
• Introduction	85
• Nature of Learning	85
• Characteristics of Learning	86
• Types of Learning	87
• Methods of Learning	88
• Process of Learning	91
• Theories of Learning	93
• Transfer of Learning	97
• Learning and Sickness	99
• Implications of Learning in Nursing	100
5. Memory and Forgetting	103
• Introduction	103
• Nature of Memory	103
• Types of Memory	104
• Process of Memory	105
• Forgetting	108
– Types of Forgetting	109
– Improvement of Memory or Memory Training	110
– Factors Causing Forgetting	111
– Memory and Sickness	113
– Memory and Nursing	114
6. Thinking	117
• Introduction	117
• The Process of Thinking	117
• Types of Thinking	118
• Level of Thinking	118
• Building Blocks of Thought/Thinking	119
• Factors Influencing Thinking Process	120
• Thinking and Sickness	121
7. Intelligence and Aptitude	124
• Introduction	124
• Nature and Meaning of Intelligence	124
• Characteristics of Intelligence	125
• Theories of Intelligence	125

- Emotional Intelligence 128
 - Nature and Meaning of Emotional Intelligence 128
 - Intelligent Quotient 129
 - Measurement of Intelligence 129
 - Factors Influencing Intelligence 131
 - Use of Intelligence Tests 132
 - Limitations of Intelligence Tests 132
 - Intelligence and Sickness 133
 - Intelligence and Nursing 133
- Aptitude 134
 - Introduction 134
 - Classification of Aptitude 135
 - Measurement of Aptitude 135
 - Use of Aptitude Tests 137

8. Motivation and Emotion 140

- Introduction 140
- Meaning and Definition 140
- Nature of Motives 141
- Functions of Motivation 141
- Motivational Cycles or Sequence 142
- Types of Motivation 144
- Theories of Motivation 146
- Methods to Measure Needs/Motives 150
- Motivation and Health 151
- Motivation and Nursing 152
- Emotion 152
 - Definition 152
 - Characteristics of Emotions 153
 - Typical Emotions 153
 - Physiological Changes in Emotions 155
 - Theories of Emotion 155
 - Measurement of Emotions 157
 - Emotion in Health and Sickness 157
 - Implication of Emotion in Nursing 158

9. Stress, Conflict and Frustration 161

- Introduction 161
- Types of Stressor 163
- Response of Body to Stressors 164

- Sources of Stress 164
- Models of Stress 165
- Symptoms of Stress 166
- Stress Adaptation—Coping Strategies 167
- Stress Management 170
- Conflict 172
 - Definition 173
 - Types of Conflict 173
 - Levels of Conflict 174
 - Causes of Conflict 176
 - Conflict Resolution and Techniques 176
- Frustration 177
 - Causes of Frustration 177
 - Reactions to Frustration 178
 - Management of Frustration 179
 - Nursing Implications 179

10. Attitude

184

- Introduction 184
- Meaning and Definition 184
- Features of Attitude 185
- Nature of Attitudes 185
- Functions of Attitude 186
- Components of Attitude 186
- Types of Attitude 187
- Development of Attitudes 189
- Attitude Change 191
- Factors Affecting Attitude Change 193
- Psychometric Assessment of Attitude 194
- Importance of Attitude in Nursing 194

11. Personality

197

- Introduction 197
- Definition 197
- Types of Personality 198
- Factors Influencing Personality 201
- Theories of Personality Development 202
- Psychometric Assessment of Personality 216
- Alterations in Personality 222
- Personality and Nursing 224

12. Developmental Psychology	228
• Introduction	228
• Patterns of Growth and Development	228
• Stage of Growth and Development and Tasks	230
• Principles of Growth and Development	232
• Factors Affecting Growth and Development	236
• Psychological Needs of Different Age Group People	238
• Psychological Needs of Vulnerable Population	240
• Nursing Implications of Growth and Development	242
 13. Mental Health and Mental Hygiene	 246
• Introduction	246
• Objectives of Mental Hygiene	247
• Functions of Mental Hygiene	248
• Mental Health	249
– Introduction	249
– Definition	249
– Characteristics of Mentally Healthy Person	250
– Warning Signs of Poor Mental Health	252
– Enhancing Mental Health	253
– Mental Illness: Introduction	254
– Characteristics of Mental Illness	254
– Cause of Mental Illness	255
– Sign and Symptoms of Mental Illness	255
– Misconceptions about Mental Illness	256
– Strategies to Deal with Stigma and Prejudices	257
 14. Adjustment Psychology	 259
• Definition	259
• Concept of Adjustment	260
• Types of Adjustment	260
• Areas of Adjustment in Nursing	260
• Characteristics of a Well-adjusted Person	261
• Methods of Adjustment	262
• Characteristics of Adjustment Mechanism	262
• Warning Signs of Maladjustment	263
• Symptoms of Maladjustment	263
• Factors Causing Maladjustment	264

15. Guidance and Counseling 268

- Guidance 268
 - Introduction 268
 - Meaning and Definition 268
 - Types of Guidance 269
 - Need of Guidance 269
- Counseling 270
 - Meaning and Definition 270
 - Differences between Guidance and Counseling 271
 - Principles of the Counseling 271
 - Steps in the Counseling Process 272
 - Types of Counseling Approach 273
 - Skills/Techniques Required for Effective Counseling 274
 - Prerequisites of Counseling 275
 - Organization of Counseling Services 277
 - Problems in Counseling 277
 - Need of Guidance and Counseling Services in Nursing 278

16. Psychological Assessment and Tests 284

- Introduction 284
- Types of Psychological Tests 284
- Purpose of Psychological Tests 287
- Characteristics of a Good Psychological Test 287
- Uses of Psychological Tests 288
- Role of Nurse in Administration of Psychological Tests 289
- Implications of Psychological Test in Nursing 290
