Chapter 1: Anatomy and Biomechanics of the Knee	1
Anatomy of Knee Joint	1
Patellofemoral Cartilage	5
Biomechanics	14
Chapter 2: Evaluation	26
History	26
Physical Examination	28
Chapter 3: Soft Tissue Injuries	48
Medial Collateral Ligament Injury	48
Meniscus Injury	55
Cruciate Ligament Injury	69
Chapter 4: Common Arthritic Conditions	82
Osteoarthritis of Knee	82
Patellofemoral Dysfunction	84
Chondromalacia Patellae	115
Osteochondritis Dissecans	117
Overuse Injury	118
Osgood-Schlatter Disease	119
Patellar Tendonitis (Jumper's Knee)	122
Iliotibial Band Friction Syndrome	123
Prepatellar Bursitis	126
Genu Valgum	127
Genu Varum	130
Knee Flexion Deformity	132
Genu Recurvatum	133
Chapter 5: Fractures and Dislocations	139
Injury to Extensor Mechanism	139
Lateral Dislocation of Patella	141
Fracture Shaft of Femur	146

Supracondylar Fracture Femur 149

Fracture Femoral Condyles 151

Fracture Tibial Condyles 151

Fracture Both Bones of Leg 153

Dislocation of Knee 155

Chapter 6: Physiotherapy in Surgical Conditions 164

Synovectomy 164

Knee Replacement 166
