

Contents

1. Fibroids and Infertility: Evidence-based Approach to Management	1
<i>Javier Martínez-Salazar, Carlos Iglesias</i>	
• Epidemiology and Etiology	1
• Clinical Manifestations	2
• Diagnosis	3
• Current Management of Fibroids	4
• Medical Treatment	4
• Surgical Treatment	7
2. Management Options for Endometrioma Associated with Infertility	15
<i>Parul Katiyar</i>	
• Pathogenesis	15
• Effects of Ovarian Endometriosis on Fertility	15
• Diagnosis of Endometrioma	16
• Treatment of Infertile Women with Endometrioma	16
3. Pelvic Extraovarian Endometriosis: Diagnosis and Management in the Infertile Patient	26
<i>Graciela Kohls Ilgner</i>	
• Diagnosis	27
• Pelvic Extraovarian Endometriosis and Infertility	27
• The Impact of PEOE on Natural Fertility and the Benefits of Surgery	29
• The Impact of PEOE on IVF and the Benefits of Surgery	30
• Risk from IVF and Pregnancy in Women with PEOE	31
4. Adenomyosis and Infertility: What Are the Options?	40
<i>Abha Bhat</i>	
• Clinical Features	41
• Myometrium: Normal Anatomy and Physiology	41
• Pathogenesis	42
• Classification	43

- Abnormalities in Adenomyosis 45
- Impact on Fertility and Pregnancy 47
- Diagnosis 48
- Management 51

5. Genital Tuberculosis: Scientific Approach to an Age-Old Disease 63

Sonia Malik, Vandana Bhatia

- Clinical Presentation 65
- Diagnosis 66
- Histopathology 69
- Treatment 70
- Dilemmas in Evidence-based Management 72

6. Hydrosalpinx and Assisted Reproductive Technology 75

Pallavi Prasad

- Treatment of Hydrosalpinges 75

7. A Silent Disease: Pelvic Inflammatory Disease and its Consequences 80

Nameeta Bhalerao

- Natural Barriers to Pelvic Inflammatory Disease 80
- Vulnerability to Pelvic Inflammatory Disease 81
- Etiology of Pelvic Inflammatory Disease 81
- Pathology and the Resulting Consequences of Pelvic Inflammatory Disease 82
- Clinical Manifestations of Pelvic Inflammatory Disease 84
- Investigations 87
- Treatment 87
- Long-term Complications 89
- Uncommon Complications of Chlamydia and Gonorrhea 90

8. The Patient with Congenital Uterine Anomalies 92

Nozer Sheriar, Rajneet Bhatia

- Embryology 93
- Etiopathogenesis 95
- Incidence 95
- Clinical Presentation 96
- Diagnosis 97
- Classification 100

9. Intrauterine Pathologies: Evaluation and Treatment for Improving Assisted Reproductive Technology Outcomes 115

M Cerrillo, A Fabris, JM Puente, A Guillen, Juan A García-Velasco

- Diagnosis Methods 115
- Intrauterine Pathologies Diagnosis 118
- Treating Intrauterine Pathologies 122

10. Gynecological Cancers and Fertility: The Way Forward 135

Puneet Rana Arora, Aarthi Maini, Lovy Arora, Megha Malik Aneja

- Effect of Gynecological Cancers and their Treatment on Fertility 136
- Why should Fertility Preservation be Considered? 138
- Fertility Preservation Options 139
- Risk Groups for Gynecological Cancers and Consideration for Fertility Counseling 144
