• <i>OSCE Station 5: Preoperative Assessment of Patients Prior to Surgery</i>	60
• <i>OSCE Station 6: Prioritisation on Labour Ward</i>	66
• <i>OSCE Station 7: Prioritisation of the Patients for Surgery</i>	72
5. Communication with Patients	79
• <i>Communication Stations</i>	79
• <i>Counselling Skills</i>	80
• <i>OSCE Station 1: Congenital Anomaly</i>	83
• <i>OSCE Station 2: Breaking Bad News Related to the Presence of Malignancy</i>	91

- *OSCE Station 3: Communication Skills—Failed Procedure (Ectopic Pregnancy Remains Intact)* 97
 - *OSCE Station 4: Preoperative Counselling (Counselling the Patient about to Undergo Abdominal Hysterectomy)* 104
- 6. Communication with Colleagues 112**
- *Modes of Communication* 113
 - *Identifying Risks* 117
 - *OSCE Station 1: Training a Junior Colleague on Breech Vaginal Delivery* 118
 - *OSCE Station 2: Teaching a Junior Colleague Method of Taking Consent* 126
 - *OSCE Station 3: Delivery Using Forceps* 132
 - *OSCE Station 4: Communication with the Senior and Anaesthetic Colleagues Based on the Requirements (A Post-operative Patient in Shock)* 138
 - *OSCE Station 5: Referral from a GP* 141
- 7. Information Gathering 149**
- *OSCE Station 1: Gynaecological History in Case of Uterine Fibroids* 151
 - *OSCE Station 2: Obstetric History* 159
 - *OSCE Station 3: Antenatal History* 166
 - *OSCE Station 4: Secondary Amenorrhoea* 171
 - *OSCE Station 5: Premenstrual Syndrome* 178
- 8. Application of Knowledge 187**
- *Clinical Skills* 187
 - *Clinical Management of Gynaecological or Obstetric Problems* 187
 - *OSCE Station 1: Delayed Labour due to Occipitoposterior Position* 188
 - *OSCE Station 2: Premature Labour* 193
 - *OSCE Station 3: Abnormal Cardiotocography* 199
 - *OSCE Station 4: Retained Swab* 207
 - *OSCE Station 5: Abnormal Glucose Tolerance Test* 213
 - *OSCE Station 6: Antepartum Haemorrhage* 218
 - *OSCE Station 7: Asthma in Pregnancy* 222
 - *OSCE Station 8: Infertility due to Polycystic Ovarian Disease* 227
- 9. Ethics, Medico-Legal Issues, and Clinical Governance 236**
- *Clinical Governance* 236
 - *OSCE Station 1: Designing a Protocol for the Identification and Management of Foetal Growth Restriction in your Antenatal Care Ward and Demonstrating the Success of your Protocol* 245

- *OSCE Station 2: Setting up a Risk Management Team in your Unit for Identification of Missed Cases of Ectopic Pregnancy* 250
- *OSCE Station 3: Constructing an Audit to Reduce the Morbidity and Mortality Related to Ectopic Pregnancy* 254
- *OSCE Station 4: Clinical Governance (Hypoxic Ischaemic Encephalopathy in a Baby)* 258
- *OSCE Station 5: Audit—Thromboprophylaxis in Patients Undergoing Gynaecological Surgery* 267
