

Serial No.	Chapters Name
Section 1: Overview of Basics in Dermatology	
1	History of Dermatology
2	Embryology of Skin
3	Anatomy of Skin
4	Functions of Skin
5	Basics of Immunology in relation to Skin
6	Basics of Genetics in Relation to Skin
7	Basics of Dermatopathology
8	Clinical Signs in Dermatology and Approach to Diagnosis
9	Bedside Tests in Dermatology
10	Laboratory Investigations Specific to Dermatology Disorders
11	Skin Through Ages
12	Diet in Dermatology
13	Environment and Skin
14	Evidence Based Dermatology
15	Medical Statistics
Section 2: Pruritus, Urticaria, Allergy and Eczemas	
16	Pruritus and Prurigo
17	Psycho dermatology
18	Urticaria and Urticarial Syndromes
19	Figurate Erythema
20	Eczema: Concept and Classification
21	Atopic Dermatitis
22	'Seborrheic Dermatitis
23	Contact Dermatitis
24	Occupational Dermatoses
25	Plant Dermatoses
26	Photodermatitis
27	Autosensitization Dermatitis
28	Erythroderma
29	Eosinophilic Dermatitis
30	Pregnancy Dermatitis
31	Necrolytic Disorder
Section 3: Pediatric Dermatology	
32	Neonatal Dermatoses
33	Nevi
34	Genodermatosis
35	Epidermolysis Bullosa
36	Genetic Acantholytic Disorders of Skin
37	Porphyria

38	Genetic Disorders of Connective Tissue
Section 4: Infections and Infestations	
39	Normal Skin Flora and Its Implication
40	Bacterial Skin Disease
41	Mycobacterial Skin Diseases
42	Superficial Fungal Infection
43	Deep Fungal Infection
44	Cutaneous Viral Infection
45	Leishmaniasis and other Protozoal Infection
46	Scabies, Pediculosis and Other Infestations
47	Bites and Stings
Section 5: Autoimmune Skin Diseases	
48	Introduction to Autoimmune Blistering Disease
49	Pemphigus
50	Subepidermal Bullous Disease
51	ANA and Introduction to AICTD
52	SLE
53	Lichen Sclerosus and Morphea
54	Scleroderma and Other Sclerodermatous Skin Changes
55	Dermatomyositis
56	Sjogren's and Other AICTD
Section 6: Papulosquamous Diseases	
57	Psoriasis
58	Pityriasis rubra Pilaris and Other Papulosquamous Diseases
59	Lichen Planus and other Lichenoid Disease
60	Porokeratosis
61	Perforating Disease
62	Ichthyosis
63	Keratoderma
Section 7: Skin and Systemic Disease	
64	Skin Changes in DM and Endocrine Disease
65	Skin Changes in Systemic Diseases
66	Sarcoidosis
67	Cutaneous Manifestations of Internal Malignancy
68	Cutaneous Amyloidosis
69	Other Metabolic Disorder of Skin
70	Nutritional Skin Disorder
Section 8: Hair, Nail, Mucosa, Adnexa and Connective Tissue	
71	Acne and Other Acneform Diseases
72	Rosacea and Related Diseases
73	Diseases of Eccrine and Apocrine Glands

74	Alopecias
75	Hypertrichosis and Hirsutism
76	Nail Disorders
77	Dermal Hypertrophies
78	Cutaneous atrophy
79	Panniculitis
80	Lipodystrophies
81	Disorders of Oral Cavity and Mucosa
Section 9: vascular diseases	
82	Raynauds Phenomenon
83	Purpura
84	Leg Ulcers
85	Vasculitis
86	Diseases of Artery Vein and Lymphatics
87	Neutrophilic Dermatositis
Section 10: Neoplastic Skin Diseases	
88	Benign Acanthomas of Skin
89	Premalignant conditions of Skin
90	SCC, BCC
91	Vascular Tumour and Tumor Like Condition
92	Malignant Melanoma
93	CTCL and Other Lymphoma
94	Mastocytosis
95	Other Neoplasm of Skin
96	Histiocytosis and Xanthomas
Section 11: Pigmentary and Miscellaneous Skin Disorders	
97	Disorder of Hyperpigmentation
98	Albinism and Genetic Disorders of Pigmentation
99	Vitiligo
100	Other Hypopigmented disorders
101	Cutaneous Drug Reaction
102	Topical Steroid Damaged Skin
103	Erythema Multiforme, Steven Johnson, Toxic Epidermal Necrolysis
104	Graft versus Host Disease
105	Skin Signs of Abuse
106	Sports Dermatology
107	Teledermatology
Section 12: Leprosy	
108	Introduction and History
109	Ultrastructure and Microbiology of M Leprae
110	Immunology of Leprosy

111	Classification Through Ages
112	Animal Models in Leprosy
113	Histopathology of Leprosy
114	Clinical Features of Leprosy
115	Systemic Involvement in Leprosy
116	Nerve Involvement in Leprosy and PNL
117	Lepra Reaction
118	Laboratory Tests in Leprosy
119	Management of Leprosy
120	Newer Drugs and Regimens in Leprosy
121	NLEP
122	Deformity, Disability and Rehabilitation in Leprosy
Section 13: Sexually Transmitted Disease	
123	Introduction and Overview of STD
124	Anatomy of Male and Female Genitalia
125	Syphilis
126	Non Venereal Treponematoses
127	Chancroid
128	Lymphogranuloma Venereum
129	Donovanosis
130	Gonorrhoea
131	Non Gonorrheal Urethritis
132	Viral STD
133	Reactive Arthritis
134	Cervicitis and Vulvovaginitis
135	PID
136	Balanoposthitis
137	Non Venereal Diseases of Genitalia
138	Syndromic Management in STI
139	HIV Introduction and Virology
140	Cutaneous manifestations of HIV
141	Laboratory Diagnosis in HIV
142	Antiretroviral Therapy
Section 14: Therapeutics in Dermatology	
143	Principles and Advances in topical Therapy
144	Topical Steroids
145	Topical Antibiotics
146	Topical Immunomodulators
147	Topical Antifungal
148	Topical Retinoids
149	Moisturisers

150	Sunscreen
151	Miscellaneous Topical Therapy
152	Systemic Corticosteroids
153	Antihistamines
154	Dapsone
155	Antimalarial Drugs
156	Cytotoxic and Immunomodulators
157	Antibiotics in Relation to Dermatology
158	Systemic Antifungal
159	Antiviral Drugs
160	Oral Retinoids
161	Biologics in Dermatology
162	Miscellaneous Systemic Therapy
Section 15: Procedural Dermatology	
163	Phototherapy and Photochemotherapy
164	Basics of Dermatosurgery
165	Wound Repair
166	Nail Surgery
167	Acne Scar Surgery
168	Moh's Micrographic Surgery
169	Hair Transplant
170	Radical Surgery in Dermatology
171	Cryotherapy
172	Lasers in Dermatology
173	Sclerotherapy
174	Liposuction
175	Chemical Peels
176	Botulinum Toxin
177	Soft Tissue Augmentation
178	Platelet Rich Plasma
179	Camouflage
180	Recent Advances in Drug Therapy
