

1. Endoluminal Bariatric Surgery: Emerging Trends and Techniques	1
<i>Subhash Khanna</i>	
Indications	1
Endoscopic bariatric devices and therapies	2
Restrictive procedures	8
Bypass liners and small bowel diverting therapies	10
Other investigational devices and modalities	11
2. The Minimal Access Surgical Skills: What is the Optimal Training Technique Today?	17
<i>Rahul Gupta, Daniel B Jones</i>	
Fundamentals of laparoscopic surgery	18
Fundamentals of endoscopic surgery	20
Fundamental use of surgical energy program	21
Computer-based simulators	21
Minimally invasive surgical trainer—virtual reality	22
Competency-based surgical education	23
SAGES university master's program	25
Minimal access surgical training	25
3. Training and Assessment Path in Minimal Access Surgery: From Basic and Advanced to Specialty Procedures	28
<i>Jack Jakimowicz, Sandeep Ganni</i>	
Grade I Basic minimal access surgery program	29
Grade II Advanced minimal access surgery program	30
Grade III Specialist minimal access surgery program	30
Task difficulty and practice variability	35
Who can enroll?	36
Nontechnical skills training	37
4. Laparoscopic Entry: Current Perspectives of Safe Access Techniques	40
<i>Sanoop Koshy Zachariah</i>	
Laparoscopic entry	40
Techniques for laparoscopic access	41
Primary access techniques	41
Radially expanding access system	45
Sites of entry	45
Alternative access sites	46
Choice of technique	48
Summary, practice points and overview of recommendations	50
5. 3D Vision Versus 2D Vision in Minimal Access Surgery: A Prospective Randomized Controlled Study	54
<i>V Venkatesh, Ramya Jayaram, V Nandini</i>	
Subjects and methods	54
Benefits to patients	55

Benefits to surgeons	55
Monocular aspects	55
How we see stereoscopic in 3D?	55
Principles of depth perception	56
Anaglyph filter glasses	58
Polarizing filters	58
Shutter glasses	60
Displays currently available	61
How does the 3D endoscope work?	61
Results	61
Discussion	61

6. Hernia in Obesity: Recent Guidelines **67**

Ramen Goel, Amrit Nasta

Pathogenesis of hernias in obese	67
Epidemiology of hernias in obese	68
Hernia repair options	69
Complications of hernia repair in obese	69
What to treat first: hernia or obesity?	70
Other weight loss options prior to hernia surgery	70
ASMBs guidelines on hernia in obese	72

7. Minimal Access Surgery in Recurrent Inguinal Hernia **75**

*Prasanna Kumar Reddy, Nadeem Mushtaque Ahmed,
Juneed M Lanker*

Recurrence statistics	75
Surgical anatomy	76
Etiology of recurrence after hernia repairs	79
Recurrence after laparoscopic inguinal hernia repair	79
Local factors	79
General factors	81
Management	83
Laparoscopic repair of recurrent inguinal hernia	83
Ten important points for minimally invasive hernia repair to prevent recurrence	85
Mesh fixation in laparoscopic approach	85

8. Endoscopic versus Surgical Procedures for Gastroesophageal Reflux Disease **88**

Ravi Teja Pasam, Vasanth Stalin

Methods	89
Stretta	89
Transoral incisionless fundoplication	92
LINX reflux management system	96

9. Management Options for Complications and Failure of Surgery for Gastroesophageal Reflux Disease **104**

M Kanagavel, K Balaji Singh, SM Chandramohan

Complications and failures	104
Evaluation	105
Intraoperative complications	107

Postoperative complications	108
Causes of mortality	108
Failures	108
Endotherapy for failed fundoplication	109
Gastroparesis	109
Surgery for failed fundoplication	110
Redo surgery	110
10. Laparoscopic Vagal Sparing Total Gastrectomy: Patient Selection and Operative Technique	113
<i>Cuong Duong, John Spillane</i>	
Introduction	113
Patient selection	113
Operative technique	114
Postoperative course	119
Discussion	119
11. Bariatric Surgery in Diabetes	122
<i>Mahendra Narwaria, Ahmad Jan</i>	
Diabetes remission following bariatric surgery	124
Commonly performed bariatric surgical procedures	128
12. The Indications for Reoperation and the Outcomes of Roux-en-Y as a Rescue Procedure	135
<i>Pradeep Chowbey, Vandana Soni</i>	
Indications	135
Patient evaluation	137
Roux-en-Y as a revision procedure	139
13. Reoperative Bariatric Surgery	144
<i>Jaydeep Palep</i>	
Indications	144
Types of re-operative bariatric surgery	145
Outcomes	145
Preoperative evaluation	147
Complications	150
14. Current Trends in the Management of Gallstones with Concomitant Bile Duct Stones	152
<i>S Easwaramoorthy, B Krishna Rau, Subhash Khanna</i>	
Case capsule 1	152
Case capsule 2	152
Case capsule 3	153
Clinical presentation	153
Investigation	153
Options for management of gallstones with concomitant bile duct stones	154
Role for urgent preoperative ERCP	154
Role for elective preoperative ERCP	154
Philosophy of single-stage ERCP with lap cholecystectomy	154

A case for laparoscopic cholecystectomy with laparoscopic common bile duct exploration	156
Transcystic exploration of common bile duct	156
Laparoscopic ductal exploration	157
Bile duct stone following lap cholecystectomy	157
Management of difficult bile duct stones	158
15. The Technique of Minimal Access Hepatectomy	160
<i>Gómez-Gavara Concepción</i>	
Minimal invasive liver surgery benefits	161
Pure laparoscopic approach	161
Laparoendoscopic single site	171
Hand-assisted approach	171
Robotic liver resection	173
16. Recent Advances in the Role of Laparoscopy in Oncological Sciences	177
<i>Govindara JK, JC Bose, Karunaharan T, Parthasarathy R, Srinivasan KN, Arthi Vaishnavi B, Prasanna Kumar S, Visakan M</i>	
Indications	178
Technique	178
Contraindications	179
Peritoneal cancer index	179
Sugarbaker technique	180
Diagnostic accuracy of the procedure	181
17. Minimally Invasive Colorectal Surgery	185
<i>K Lakshmi Kona, TV Aditya Chowdary, Ramachandrarao P</i>	
Advantages of minimally invasive versus conventional open surgery	185
Early short-term outcomes	186
Oncological outcomes between minimally invasive and conventional open surgery	186
Complete mesorectal excision	187
Newer minimally invasive techniques	187
Technique of laparoscopic right hemicolectomy	190
Technique of laparoscopic left colectomy/sigmoid resection	192
18. A Review on Long-term Outcomes of Laparoscopic Surgery in Colorectal Cancer	196
<i>Ahmed Pervez, Chelliah Selvasekar</i>	
Objectives	196
Methodology	196
Data analysis (results)	197
Discussion	197
19. Medicolegal Dilemmas for Minimal Access Surgery Surgeons	208
<i>Promod Kohli</i>	
Spectrum of issues	208
Dilemmas	208

What is medical negligence?	209
What does not amount to medical negligence?	209
What is criminal negligence?	210
Medical records	211
Professional jurisdiction	213
Patient communication	214
Delivering bad news	215
Doctrine of consent	215
Video recording of communication	218
Video recording of procedures	218
Instrument failure	218
Conversion	219
Online consultations	219
Handling google patients	220
Discounts	220
Hospital violence	221
Discharge/death summary	221
Leaving against medical advice cases	222
Annexure 1	223
Annexure 2	224
Annexure 3	225
Annexure 4	226
Annexure 5	227

20. the “Triple-track Technique for Laparoscopic Proctocolectomy” in Colonic Neoplasia: Optimizing Minimal Access Surgical Oncology 228

*Suviraj John, Parveen Bhatia, Sudhir Kalhan
Mukund Khetan, Vivek Bindal*

Rationale for the triple-track technique for laparoscopic proctocolectomy	228
Technical summary	229
Aim	230
Objectives	230
Indications	230
Contraindications	231
Patient preparation	231
Operative theater setup	232
Anesthesia	233
Patient position	233
Position of the surgical team	234
Port strategy	235
Stages of the operation	236
Examination of the resected specimen	248
Results	249
Discussion	250
