

Contents

1. Screening: The Rationale and Feasibility	1
• Criteria for Positive Screen	2
• Lacunae	6
• Feasibility of Screening	7
2. Whom to Screen.....	8
• Community-based Screening	8
• Opportunistic Screening	8
3. Location of Screening Activity	9
4. Program Management Timelines.....	10
• Phase 1: Manpower Planning	10
• Phase 2: Prescreening Protocol Implementation	10
• Phase 3: Screening Day	11
• Phase 4: Monitoring and Reporting	11
5. Conforming with Regulation	12
• General Guidelines for Seeking Permissions	12
• General Guidelines for Ethical Clinical Practice	13
6. Prescreening Protocol.....	15
7. Information, Education and Communication	18
• Mass Approach	18
• Group Approach	19
• Individual Approach	20
• IEC Material	20
8. The Team	23
• Essential	23
• Desirable	24

9. Community Participation	26
• Voluntary Organizations	26
• Local Medical Practitioners	26
• Non-Governmental Organizations (NGO)	26
• Organizations/Associations	27
• Government Sector	27
• Media	27
10. Equipment Checklist	28
• Registration Station	28
• Visual Acuity Station	28
• Tonometry Station	28
• Slit-lamp Station	28
• Counselor Station (Optional)	29
• Emergency Medication Kit	29
• Miscellaneous	30
11. On Site Checklist.....	31
• Furniture	31
• Electrical Points	31
• Hygiene Facilities	31
• Adequate Emergency Exits	32
12. Patient Flow	33
13. Standard Operating Procedures	34
• Visual Acuity	34
• Non-contact Tonometry	36
• Anterior Chamber Depth	37
• Slit-lamp Biomicroscopy:	
Fundus Examination 90 D Lens	39
• Goldmann Applanation Tonometry	40
• Gonioscopy	42
14. Postscreening Follow-up	44

15. Efficacy Measures 46

- Efficacy Measures for the Screening Program 46
- Performance Parameters to be Evaluated for Each of the Screening Units 47
- Supervisors 47
- Timelines 48

Appendix 49

- Waiver 49
- Screening Form 51
- Postscreening Form 53
- Screening Feedback Form 54
