

Contents

Chapter 1:	Introduction and Classification	1
	<i>Luis Felipe Chiaverini Ensina</i>	
Chapter 2:	Prevalence of Angioedema in Patients with Chronic Urticaria	5
	<i>Misbah Noshela Ghazanfar, Jennifer Astrup Sørensen, Simon Francis Thomsen</i>	
Chapter 3:	The Role of Mast Cells in Angioedema	10
	<i>Michael Rudenko</i>	
Chapter 4:	Pathophysiology of Angioedema	15
	<i>Dennis Wong, Hermenio Lima, Susan Wasserman, Gordon L Sussman</i>	
Chapter 5:	Hereditary Angioedema with Normal C1 Inhibitor	23
	<i>Semra Demir, Derya Unal, Aslı Gelincik, Joanemile Pacheco de Figueiredo, Regis de Albuquerque Campos</i>	
Chapter 6:	Women Specificities and Hereditary Angioedema	31
	<i>Aurelie Du-Thanh, Laurence Bouillet</i>	
Chapter 7:	Acquired Angioedema	38
	<i>Jonathan A Bernstein</i>	
Chapter 8:	Angioedema Related to Fruit Allergies	45
	<i>Naoko Inomata</i>	
Chapter 9:	Drug-induced Angioedema	53
	<i>Maia Gotua, Jonathan Peter</i>	
Chapter 10:	Vibratory Angioedema	61
	<i>Kanokvalai Kulthanan, Chuda Rujitharanawong</i>	
Chapter 11:	Palpebral Angioedema in Cholinergic Urticaria	67
	<i>Yoshiko Oda, Atsushi Fukunaga, Shunsuke Takahagi, Michihiro Hide</i>	
Chapter 12:	Angioedema due to Acquired C1-inhibitor Deficiency	73
	<i>Leonor Esteves Caldeira, Célia Costa, Maria Luiza Oliva Alonso, Solange Oliveira Rodrigues Valle</i>	

Chapter 13: Hereditary Angioedema: The Genomic Challenge	79
<i>Anastasios E Germentis, Michael Makris, Fotios Psarros</i>	
Chapter 14: Quality of Life and Burden of Disease	89
<i>Iris Medina, Carla Ritchie</i>	
Chapter 15: Diagnostic Methodologies for C1-inhibitor Deficiency	95
<i>Katie Ridge, Niall Conlon</i>	
Chapter 16: Laboratory Investigation of Nonhistaminergic Angioedema	101
<i>Rosana Câmara Agondi, Marcelo Vivolo Aun, Pedro Giavina-Bianchi</i>	
Chapter 17: Differential Diagnosis of Angioedema	108
<i>Indrashis Podder, Domenico Simeoli, Silvia Mariel Ferrucci, Margarida Gonçalo, Emek Kocatürk</i>	
Chapter 18: Treatment of Histaminergic Angioedema	122
<i>Désirée Larenas-Linnemann, Claudio Parisi, Roberta Fachini Jardim Criado, Angèle Soria</i>	
Chapter 19: Management of Bradykinin-mediated Angioedema	133
<i>Mona Al-Ahmad</i>	
Chapter 20: Predictive Factors of Angioedema and Its Severity	139
<i>Sami Aqel, Maryam Al-Nesf, Riccardo Asero</i>	
Chapter 21: Preventive Measures for Hereditary Angioedema Attacks	144
<i>Faradiba Sarquis Serpa, Fernanda Lugão Campinhos, Eli Mansour</i>	
Chapter 22: Treatment of Hereditary Angioedema in Childhood: Acute Treatment	150
<i>Catherine Keying Zhu, Sofianne Gabrielli, Alex Nguyen, Moshe Ben-Shoshan</i>	
Chapter 23: Treatment of Hereditary Angioedema in Childhood: Long-term Preventive Treatment	156
<i>Christina Weber, Noemi Leu, Davina Schretzmann, Peter Schmid-Grendelmeier, Carole Guillet</i>	
Chapter 24: Patient-reported Outcome in Recurrent Angioedema	161
<i>Ivan Cherrez-Ojeda, Magdalena Zajac, Mateusz Zamlynski, Alicja Kasperska-Zajac, Jose Ignacio Larco, German Dario Ramon</i>	

Chapter 25: Patient Information on Angioedema (Both Histamine and Bradykinin Angioedema)	164
<i>Iman Nasr, Salma Al Abri, Zainab Ansari, Hasina Al Bahri, Bushra Al Hinai</i>	
Chapter 26: Hereditary Angioedema	170
<i>Hasina Al Bahri, Iman Nasr, Zainab Ansari, Salma Al Abri, Bushra Al Hinai</i>	
Chapter 27: A Simplified Approach to a Patient of Angioedema: Differentiate Between Mast Cell Mediator-induced and Bradykinin-mediated Angioedema	175
<i>Ankur Jindal, M Sendhil Kumaran</i>	
Index	181
