

CONTENTS

1. Basics of Genetics	1
<i>Seetha Ramamurthy Pal</i>	
• Genome 1 ; • Chromosome 1 ; • Deoxyribonucleic Acid 2 ; • Genes 2	
2. Pedigree Charting	5
<i>Megha Sharma, Rekha Gupta</i>	
• Autosomal Dominant 5 ; • Autosomal Recessive 7 ; • X-linked Dominant 7 ; • X-linked Recessive 7	
• Y-linked Disorders 9 ; • Mitochondrial Inheritance 9	
3. Carrier Screening and Genetic Inheritance	10
<i>Malathi G Prasad, Safa Abdul Syed Basheerudeen</i>	
• Genetic Carrier Testing/Screening 10 ; • Genetic Inheritance Pattern 10 ; • Types of Genetic Tests 11	
• The American College of Obstetricians and Gynecologists Recommendations 12	
4. Preconception Genetic Counseling	14
<i>Deepti Gupta, Dpankar Banerji</i>	
• Definition 14 ; • Risk Assessment 14 ; • Genetic Testing 15 ; • Pretest Counseling 15	
• Post-test Counseling 16	
5. Genetic Tests and their Significance in Prenatal Evaluation	17
<i>Shyama Devadasan</i>	
• Noninvasive Prenatal Screening 17 ; • Diagnostic Procedures 17	
• Indications of Prenatal Genetic Testing 19 ; • Types of Genetic Tests 19	
6. Genetic Counseling in Cases of Abnormal Serum Screening	22
<i>Suma Vishnu</i>	
• Serum Screening 22 ; • Types of Screening Tests 23 ; • Second Trimester 23 ; • Counseling 23	
• Interpretation of Results 23 ; • Diagnostic Testing 24	
7. Genetics and Counseling in Hemoglobinopathies	27
<i>Megha Kamalapurkar, Vaishnavi PK</i>	
• Incidence 27 ; • Normal Hemoglobin 27 ; • Classification 27	
• Screening of Hemoglobinopathies 29 ; • How to do Screening? 29	
8. Common Congenital Fetal Anomalies and Genetic Associations.....	32
<i>Vandana Bansal, Meera Jayaprakash</i>	
• First Trimester Nuchal Translucency and Anomaly Scan 32 ; • Second Trimester Genetic Sonogram 33	
• Second Trimester Structural Anomalies and Association with Genetic Abnormalities 34	
• Central Nervous System 36 ; • Fetal Face 38 ; • Fetal Abdomen 38	
• Congenital Lung Malformations 39 ; • Fetal Gastrointestinal Anomalies 40	
• Skeletal System 40 ; • Fetal Genitourinary Anomalies 40 ; • Fetal Heart 41	

9. Genetics and Infertility	46
<i>Shovandeb Kalapahar, Sujoy Dasgupta</i>	
• Genetics in Female Infertility 46; • Genetics of Male Infertility 48	
• Genetics for Preimplantation Genetic Testing 50	
10. Genetics and Recurrent Pregnancy Loss	53
<i>Debasmita Mandal, Jyotshna Rani Panigrahi</i>	
• Aneuploidy 53; • Translocation 54; • Copy Number Variations 54	
• Mosaicism 54; • Mutations and Single Nucleic Variations 54	
• Epigenetic Studies 55; • Evaluation of Products of Conception 56	
• Management Options for Genetic Issues of Recurrent Pregnancy Loss 56	
11. Preimplantation Genetic Diagnosis	58
<i>Dipanjana Datta</i>	
• Process Development and Testing Platforms for Preimplantation Genetic Testing 58	
• Indications for Preimplantation Genetic Testing 59; • Why is it A Screening Test? 60	
12. Genetics and Inherited Cancers.....	62
<i>Saswati Mukhopadhyay</i>	
• Mechanisms of Hereditary Cancer Predisposition 62	
• Major Types of Hereditary Cancer Syndromes 63; • Management of Hereditary Tumors 64	
13. Gene Therapy.....	66
<i>Shruti Jain, Meenakshi Lallar</i>	
• Types of Gene Therapy 66; • In Utero Gene Therapy 66; • Strategies of Gene Therapy 67	
• Approach to Gene Therapy 67; • Methods of Gene Delivery 67; • History of Gene Therapy 67	
• Challenges with Gene Therapy 68
