

Contents

Section I Basics in Immunization

- 1. General Immunology and Principles of Vaccination** 3
Suhas V Prabhu, Rajiv Kumar Bansal
Immune System 3; Types of Immunity 4; Humoral Immune Response 5
Antigen-presenting Cells 5; Cell-mediated Immunity 6
Role of Various Types of Immune Responses in Infections 6
Passive Immunity 7; Active Immunity 8
Vaccines 9; Immune Memory 9; Immunomodulation 10
- 2. General Guidelines for Vaccination** 12
Abhay K Shah, Monjori Mitra, Nupur Ganguly
Staff Education 12; Patient Preparation and Care 12; Vaccine Preparation 13
Vaccine Administration 14
Immunization in Special Situations 16; Documentation 17
Vaccine Storage and Handling 17; Safe Injection Practices and Infection Control 17
Adverse Events Following Immunization 18
- 3. Immunization Schedules** 20
Baldev S Prajapati, Rajal B Prajapati
Principles of Vaccine Scheduling 20; Nature of Vaccine 20
Immunogenicity and Potential Interference by Passively
Transferred Maternal Antibodies 21
Local Epidemiology of the Disease 21; Changing Epidemiology of the Disease 22
Spacing of Multiple Doses of the Same Antigen 22
Simultaneous Administration of Vaccines 22
Combination Vaccines 22; Vaccine Failure 23
Developing and Developed Countries 23; Updating the Subject 23
Practical Training 23; WHO and Immunization Programs 23
National Immunization Schedule 24; IAP Immunization Schedule 24
International Immunization Schedules 24; Immunization in Adolescents 24
Immunization Schedule for an Unimmunized Child 24
- 4. Storage of Vaccines and Maintenance of Cold Chain** 37
Digant D Shastri, Satish Kumar Gupta
Why Should We be Concerned about Proper Vaccine Storage? 37; Cold Chain 37
Storage of Vaccines 38; Levels of Vaccine Storage 39; Cold Boxes (Coolers) 40
Vaccine Carriers 40; Conditioning of ICE Packs 41
Tips for Better Vaccine Storage in Domestic Refrigerators 42
Purpose-built Vaccine Refrigerator 44; Cold Chain Temperature Monitoring 45
Personnel 47; Protocols 47
- 5. Adverse Events Following Immunization** 49
Jyoti Joshi, Narendra K Arora
Vaccine Reactions 50; Reporting and Investigations 53; Causality Assessment 56

6. Safe Injection Practices**58***Divya Dave, Niranjan Shendurnikar*

What is an Injection? 58; What is a Safe Injection? 58

Why are Injections so Popular? 58; Magnitude of the Problem 59

What can be done to Promote Safe and Appropriate Use of Injections? 60

Recommended Routes of Injection and Needle Length 61; Injection Devices 63

What is the Progress? 63; Injection Safety Guidelines 64; Waste Disposal 64

Section II Vaccines Widely Used in Children**7. Immunization Against Tuberculosis****69***Ankur Kumar, Surjit Singh*

Epidemiology of Tuberculosis 69; Prevention of the Disease 70

BCG Vaccination 71; Revaccination 74; Newer Vaccines for Tuberculosis 75

8. Diphtheria, Pertussis and Tetanus Vaccines**85***Vipin Vashishtha, HP Singh*

Epidemiology 85; Diphtheria, Pertussis and Tetanus (DPT) Vaccines 85

9. Immunization Against Poliomyelitis**92***T Jacob John, Naveen Thacker*

Pathogen 92; Host 93; Mode of Transmission 93

Morbidity Including Clinical Spectrum 94; Disease Mortality 94

Vaccines Against Poliomyelitis 94; Vaccine Efficacy 97; Combination Vaccines 98

Vaccine Schedule 98; Vaccine Storage, Handling and Inoculation 99

Adverse Reactions Following Vaccination 99

Contraindications 100; Special Considerations 100

10. Immunization Against Measles, Mumps and Rubella**101***Satish Pandya*

Measles 101; Clinical Features 101; Effect on Immunity 101

Complications 102; Virology 102; Epidemiology 102

Passive Immunization 102; Active Immunization 103; Vaccine Strains 103

Vaccine Composition 103; Dosage and Route of Administration 103

Stability of Vaccine 103; Results of Vaccination 103; Effectiveness of Protection 104

Rubella 109; Clinical Features 109; Virology 110; Epidemiology 110

Significance as a Public Health Problem 111; Indian Data 111

Passive Immunization 111; Active Immunization 111; Vaccine Strains 111

Dosage and Route of Administration 111; Stability of Vaccine 111

Combination with Measles and Mumps 111; Results of Vaccination 112

Mumps 115; Clinical Features 115; Virology 116; Epidemiology 116

Passive Immunization 116; Active Immunization 116; Vaccine Strains 117

Dosage, Route of Administration and Composition 117; Stability of Vaccine 117

Combinations Including Mumps Vaccine 117; Vaccine Use 117

Correlates of Immunity 117; Persistence of Antibodies 118

Protective Efficacy and Effectiveness 118

Simultaneous Administration with Other Vaccines 118; Adverse Events 118

Precautions and Contraindications 119; Epidemiologic Effects of Vaccination 119

Indian Perspective on MMR Vaccine 119

11. Immunization Against Hepatitis B	122
<i>Anil K Dutta, Late Panna Choudhury, Ashok Kumar Dutta, Priya Perriera</i>	
Epidemiology 122; Hepatitis B—Transmission 122; Prevention of Hepatitis B 124	
Vaccine Efficacy 129; Adverse Events 129; Contraindications to Vaccination 129	
Vaccine Escape Mutants 129; Recommendations for Vaccination 130	
World Health Organization (WHO) Recommendations 130	
Public Health Importance of Hepatitis B Vaccination 131	
12. Immunization Against Typhoid Fever	138
<i>Abhay K Shah, Vijay Yewale, Rohit Agrawal</i>	
Burden of Disease 138	
13. Immunization Against <i>Haemophilus influenzae</i> Type B	148
<i>Pravin Mehta, Jaydeep Choudhury</i>	
Disease Spectrum 148; Disease Transmission 148	
Prevention of Hib Disease 149; Hib Vaccine 149	
14. Immunization Against Hepatitis A	153
<i>Nitin K Shah, Ashish Bavdekar</i>	
Epidemiology 153; Clinical Manifestations 155	
Passive Immunization 155; Active Immunization 156	
15. Varicella Vaccine	163
<i>MR Lokeshwar, Tanu Singhal</i>	
Mode of Transmission 164; Clinical Spectrum and Outcome 164;	
Prevention of Varicella 164; Recommendations for Use 168;	
Vaccination in Special Situations 168; Passive Protection with Varicella	
Zoster Immunoglobulin (VZIG) 169	
16. Rotavirus Vaccines	171
<i>SG Kasi, Pramod Jog</i>	
Disease Burden 171; Virus 171; Rotavirus Vaccines 172	
Impact of Rotavirus Vaccines 173; Serotype Replacement 174	
Vaccine Safety 174; Rotavac: The 116E Oral Rotavirus Vaccine 174	
Economic Burden of Rotavirus and Cost-effectiveness of a National	
Rotavirus Vaccination Program 175	
17. Influenza Vaccines: Current Perspectives	178
<i>S Balasubramaniam, Abhay K Shah, Raj Kumar</i>	
Global Influenza Disease Burden 178; Burden of Influenza Disease in India 179	
Influenza Disease Surveillance in India 179; Influenza Vaccines 179	
Vaccine Immunogenicity 181; Adverse Events 182	
Contraindications and Precautions 182; IAP Recommendations 183	
Recent Pandemic in 2014 183; Vaccination Timing in India 184	
Recommended Vaccine Strains for 2015–2016 184	
18. Human Papilloma Virus (HPV) Vaccines	188
<i>Anupam Sachdeva, Raju C Shah</i>	
Background 188; Burden of Disease Caused by HPV 188	
Prevention of Cervical Cancer: Screening or Vaccination 189; Pathogenesis 189	

Protective Immunity 189; HPV Vaccines 190; Quadrivalent Vaccine (HPV4) 191
 Bivalent Vaccine (HPV2) 191; Efficacy Against Genital Warts 192
 Safety of HPV Vaccines 192; Recommendations for Use 192; Dose and Schedule 193
 Catch-up Vaccination 193; Evidence and Justification 194

19. Immunization Against *Streptococcus pneumoniae* 198

Nitin K Shah, Sanjay Srirampur, Pritesh Nagar

Epidemiology 198; Disease Morbidity Including Clinical Spectrum 199
 Disease Mortality 199; Drug Resistance 200; Prevention of Disease 200

Section III Immunization in Special Circumstances

20. Dengue Vaccine 213

Sharad Agarkhedkar, T Anh Wartel, Josemund Menezes

Prevention 214; Trials for Vaccine 214; Acknowledgments and Disclosures 217

21. Immunization of Children in Special Situations 218

Uday Bodhankar, Sheikh Minhaj Ahmed

Preterm and Low-birth-weight Infants 218; Missed Immunization 219
 Adolescent Immunization 220; Adopted Child 220
 Children Residing in Institutions 220; Children Residing in Refugee Camps 221
 Immunosuppressed Child 221; Immunization to Children on Steroid Therapy 223
 Immunization in Children with Malignancy 224
 Immunization in Transplant Recipients 224; Immunization in Asplenic Children 225
 Immunization in the Child with Coagulopathy 226
 Immunization in Children with Progressive Neurological Disorder 226
 Foreign Travel 226; Postexposure Vaccination 227
 Immunization During Epidemics 227

22. Immunization Against *Neisseria meningitidis* 230

Anuradha Bose, Shyam Kukreja

Bacteriology 230; Risk Factors 230; Pathogenesis 230
 Clinical Disease and Presentation 231; Immunity to Meningococcal Disease 231
 Active Immunization 231; History of Meningococcal Vaccine Development 231

23. Immunization Against Rabies 235

Ritabrata Kundu, P Ramachandran

Epidemiology 236; Virus 236; Pathogenicity 237; Reservoir 237
 Modes of Transmission 237; Clinical Presentation of Rabies in Human 237
 Prevention of Rabies 238; Rabies Immunoglobulin 239; Antirabies Vaccines 240

24. Immunization Against Japanese Encephalitis 244

Raj Shankar Ghosh, Devendra Khandait

Geography 244; Disease Burden 245; Epidemiology 246
 Japanese Encephalitis Virus 246; Clinical Presentation of Japanese Encephalitis 246
 Treatment and Management 246; Immunity 247; Laboratory Investigations 247
 Case Classification of Suspected Japanese Encephalitis 249
 Japanese Encephalitis Control 249; Japanese Encephalitis Vaccines 249

Vaccine Interchangeability	253
Japanese Encephalitis Vaccination in Special Risk Groups	253
Impact of Japanese Encephalitis Vaccines	253
WHO Recommendations on Japanese Encephalitis Vaccines	253
Reactive Vaccinations During Outbreaks	254
Japanese Encephalitis Vaccination for Special Risk Groups	254
Japanese Encephalitis Vaccination Program in India	254

25. Immunization of Adolescents 258

Preeti M Galagali

Importance of Adolescent Immunization	258;	Adolescent Immunization Schedule	259
Human Papillomavirus Vaccines	261		
Tetanus and Diphtheria Toxoids and Acellular Pertussis (TDAP) Vaccine	261		
Catch-up Vaccinations	261;	Vaccines in Special Circumstances	262
Vaccines for Adolescent Travellers	264;	Vaccines for Pregnant Adolescents	264
Barriers to Adolescent Immunization	265;	Practice Points for Adolescent Vaccination	267

Section IV Future in Vaccinology

26. Combination Vaccines 271

Sanjay Gandhi, Shailesh Mehta

What is a Combination Vaccine?	271;	Why Combination Vaccines?	271
Efficacy of Combination Vaccines	271;	Safety of Combination Vaccines	276
Which Combination Vaccine Available?	276;	Issues with Combination Vaccines?	277

27. New Technologies and Future Vaccines 278

Suresh Jadhav, Hemant Khanna

Evolution of Vaccine Technologies	278;	HIV	287
-----------------------------------	------	-----	-----

28. Newer Vaccine Delivery Systems and Newer Technologies for Vaccine Delivery 305

Alagiriswamy Parthasarathy, Hitt Sharma

Newer Vaccine Delivery Systems	305;	Newer Technologies for Vaccine Delivery	312
--------------------------------	------	---	-----

29. Immunization Resources on Internet 316

Sudhanshu Pandey, Alok Gupta

30. VPD Surveillance and Integrated Disease Surveillance 318

Ashish Pathak, Deep Thacker

Background	318;	Why VPD Surveillance is Necessary	318
Surveillance: Terminologies	318;	Current Status of VPD Surveillance in India	319
World Health Organization: National Polio Surveillance Project Supported Surveillance Systems	319		
IDSURV: An Innovative Project to Report Infectious Diseases	319		
Conclusions and the Need of the Hour	321
