

CONTENTS

| | |
|--|-----------|
| 1. Pit Falls in Neurological Examination of Children | 1 |
| G Kumaresan | |
| History | 1 |
| Family History | 2 |
| General Examination | 2 |
| Dysmorphological Examination | 2 |
| Cranial Nerves | 3 |
| Significance and Use of the Neurodevelopmental Reflexes in Pediatric Practice | 8 |
| 2. Malformations of the Central Nervous System | 11 |
| TM Ananda Kesavan | |
| Aetiology | 11 |
| Classification | 11 |
| 3. Perinatal Hypoxic–Ischemic Encephalopathy | 17 |
| Naveen Jain | |
| Etiology | 17 |
| Clinical Features | 17 |
| Investigations | 18 |
| Neurodevelopment Disability Due to Hypoxic Ischemic Encephalopathy | 18 |
| 4. Approach to Neurodegenerative Disorders | 21 |
| PA Mohammed Kunju | |
| Clinical Clues of Neurodegenerative Disorders | 21 |
| Inheritance | 22 |
| Organic Acid Disorders | 24 |
| Urea Cycle Defects | 26 |
| Investigations | 29 |
| 5. Neural Tube Defects: Prevalence, Predisposing Factors and Prevention | 36 |
| TM Ananda Kesavan, Ciju Raveendranath | |
| Embryology | 36 |
| Etiopathogenesis | 37 |
| Prevention | 38 |
| 6. Cerebral Palsy | 41 |
| PA Mohammed Kunju | |
| Etiology | 41 |
| Classification | 41 |
| Terminologies Used in Topographic Definition of Cerebral Palsy | 42 |
| Spastic Quadriplegic Cerebral Palsy | 43 |
| Spastic Hemiplegic Cerebral Palsy | 43 |

| | |
|--|-----------|
| 7. Neuronal Migration Disorders | 48 |
| TM Ananda Kesavan | |
| <i>Mechanism of Neuronal Migration</i> 48 | |
| <i>Radial Migration</i> 49 | |
| <i>Tangential Migration</i> 49 | |
| <i>Others Modes of Migration</i> 49 | |
| <i>Neurotropic Hypothesis</i> 49 | |
| <i>Etiology</i> 49 | |
| <i>Clinical Features</i> 50 | |
| 8. Acute Disseminated Encephalomyelitis | 53 |
| Ciju R | |
| <i>Causes of Acute Disseminated Encephalomyelitis</i> 53 | |
| <i>Pathogenesis</i> 54 | |
| <i>Clinical Presentation</i> 54 | |
| <i>Investigation</i> 55 | |
| <i>Treatment and Management</i> 56 | |
| <i>Outcome and Prognosis</i> 56 | |
| 9. Guillain-Barré Syndrome | 58 |
| Shaji Abraham | |
| <i>Epidemiology</i> 58 | |
| <i>Pathogenesis</i> 58 | |
| <i>Clinical Features</i> 59 | |
| <i>Diagnosis</i> 59 | |
| <i>Management</i> 60 | |
| <i>Immunotherapy</i> 62 | |
| <i>Plasmapheresis</i> 62 | |
| <i>Corticosteroids</i> 62 | |
| <i>Miller Fisher Syndrome</i> 62 | |
| <i>Treatment of Patients who Deteriorate in Spite of Therapy</i> 62 | |
| <i>Vaccination and GBS</i> 63 | |
| 10. Autoimmune Encephalitis in Children | 65 |
| V Viswanathan | |
| <i>Acute Disseminated Encephalomyelitis</i> 65 | |
| <i>Nmda Receptor Associated Encephalitis</i> 66 | |
| <i>Rasmussen's Encephalitis</i> 67 | |
| <i>Hashimoto's Encephalitis</i> 68 | |
| <i>Voltage Gated Potassium Channel Antibody Limbic Encephalitis</i> 68 | |
| 11. Tuberculous Meningitis in India | 70 |
| Sumeet R Dhawan, Jitendra K Sahu | |
| <i>Pathogenesis</i> 70 | |
| <i>Pathology</i> 71 | |
| <i>Diagnosis of Tubercular Meningitis</i> 71 | |
| <i>Complications and Sequelae</i> 75 | |
| <i>Treatment of Tubercular Meningitis</i> 75 | |
| <i>Outcome</i> 78 | |

| | |
|---|------------|
| 12. Cerebrospinal Fluid Examination in Bacterial Meningitis: Common Pitfalls | 81 |
| TM Ananda Kesavan | |
| <i>Cerebrospinal Fluid in Bacterial Meningitis</i> 81 | |
| <i>Diagnostic Dilemmas in Cerebr Spiral Fluid Examination</i> 82 | |
| <i>When to do Repeat LP?</i> 84 | |
| 13. Cerebral Malaria | 86 |
| Shaji Abraham | |
| <i>About Pathogen</i> 86 | |
| <i>Treatment</i> 88 | |
| 14. Neurocysticercosis | 91 |
| Anoop Verma | |
| <i>The Concepts of Treatment</i> 94 | |
| 15. Neurological Manifestations in Human Immunodeficiency Virus Infection | 97 |
| Latika Nayar | |
| <i>Pathogenesis</i> 97 | |
| <i>Hiv Encephalopathy</i> 98 | |
| <i>Opportunistic Infections of Nervous System</i> 98 | |
| 16. Febrile Seizures | 104 |
| KP Sarbhai | |
| <i>How Common are Febrile Seizures?</i> 104 | |
| <i>Pathophysiology</i> 104 | |
| <i>Genetics</i> 105 | |
| <i>Types of Febrile Seizures</i> 105 | |
| <i>Risk Factors</i> 106 | |
| <i>Lab Studies</i> 106 | |
| <i>Imaging Studies</i> 106 | |
| <i>Electroencephalogram</i> 106 | |
| <i>Lumbar Puncture</i> 106 | |
| <i>Treatment</i> 107 | |
| <i>Prophylaxis</i> 107 | |
| <i>Risk Factors for Recurrent Febrile Seizure</i> 107 | |
| <i>Prognosis</i> 108 | |
| <i>Risk Factors for Epilepsy</i> 108 | |
| <i>Parental Anxiety</i> 108 | |
| <i>Analysis of Intellectual Ability of Children with Febrile Seizure</i> 108 | |
| <i>What Research is Being Done on Febrile Seizures?</i> 108 | |
| 17. Epileptic Syndromes | 110 |
| Mary lype | |
| <i>Neonatal Epileptic Syndromes</i> 110 | |
| <i>Epileptic Syndromes Seen after the Neonatal Period</i> 111 | |
| 18. Treatment of Childhood Epilepsy | 117 |
| M Madhusudanan | |
| <i>When to Start Treatment?</i> 117 | |
| <i>Which Drug to Choose?</i> 118 | |

Which Drug for Initial Treatment? 119

Drug Interactions 121

When to Stop the Treatment? 122

19. Newer Antiepileptic Drugs in Treatment of Childhood Epilepsy 125

Kavitha Srivastava

Individual Drugs: Pharmacology, Indications, Efficacy and Tolerability 125

Practical Considerations: Place of Newer Drugs in Management of Pediatric Epilepsy 132

20. Practical Management of Status Epilepticus 138

Yeeshu Singh Sudan, Vinayan KP

Classification of Status Epilepticus 138

Management 139

Investigations 139

Pharmacologic Management 140

Management Protocol 142

21. Role of Ketogenic Diet in Management of Pediatric Epilepsy 146

Kavita Srivastava

Objectives 146

Overview of Ketogenic Diet 146

Mechanism of Action: How Does it Work? 146

Efficacy of Ketogenic Diet 147

Indications and Contraindications 147

Prediet Evaluation 148

Initiation of Diet 149

Classical/Johns Hopkins Hospital (JHH) Protocol 149

Modifications to JHH Protocol 149

Adverse Effects of the Ketogenic Diet 150

Key Messages 153

22. Neurological Dysfunctions in Iron Deficiency Anemia 155

TM Ananda Kesavan

Pathophysiology 155

Neurologic Sequelae of Iron Deficiency in Children 156

23. Cerebral Edema 162

S Mini

Basic Physiology 162

Definition 162

Types of Cerebral Edema 163

Pathophysiology 163

Clinical Features 164

Herniation Syndromes 165

Imaging Features of Cerebral Edema 165

Monitoring of ICP 165

Noninvasive Methods 167

Steps in Intracranial Pressure Management 167
