Section 1: General Microbiology

Chapter 1.1 History, Taxonomy, Morphology and Physiology of Bacteria and Microbial Pathogenicity ****	3
Chapter 1.2 Sterilization and Disinfection ***	20
Chapter 1.3 Culture Media and Methods, Identification of Bacteria by Conventional, Automated and Molecular Methods ***	31
Chapter 1.4 Bacterial Genetics and Antimicrobial Resistance ***	42

Section 2: Immunology

Chapter 2.1 Immunity ***	53
Chapter 2.2 Antigen, Antibody, Antigen-Antibody Reaction and Complement *****	59
Chapter 2.3 Structure of Immune System and Immune Response *****	79
Chapter 2.4 Hypersensitivity ***	93
Chapter 2.5 Autoimmunity, Immunodeficiency, Transplantation, and Immunoprophylaxis ***	99

Section 3: Systemic Bacteriology

Chapter 3.1 Staphylococcus *****	115
Chapter 3.2 Streptococcus, Enterococcus and Pneumococcus *****	125
Chapter 3.3 Neisseria and Moraxella ***	139
Chapter 3.4 Corynebacterium and Bacillus *****	147
Chapter 3.5 Anaerobes: Clostridium and Non-Sporing Anaerobes *****	160
Chapter 3.6 Mycobacteria *****	175
Chapter 3.7 Enterobacteriaceae (E. Coli, Klebsiella, Proteus, Shigella, Salmonella, Yersinia) *****	196
Chapter 3.8 Vibrio *****	217
Chapter 3.9 Pseudomonas and Other Nonfermenters and Haemophilus, Bordetella, Brucella (HBB) ***	227
Chapter 3.10 Spirochetes *****	242
Chapter 3.11 Rickettsia, Chlamydia and Mycoplasma ***	259
Chapter 3.12 Miscellaneous Bacteria ***	274

Section 4: Virology

Chapter 4.1 General Properties of Viruses ***	293
Chapter 4.2 Herpesviruses and Other DNA Viruses *****	303
Chapter 4.3 Myxoviruses and Rubella *****	323
Chapter 4.4 Arboviruses, Picornaviruses and Rabies Virus *****	340
Chapter 4.5 Hepatitis Viruses *****	366
Chapter 4.6 HIV and Other Retroviruses *****	383
Chapter 4.7 Miscellaneous Viruses ***	398

Section 5: Mycology

Chapter 5 Mycology *****	411
---------------------------------	-----

Section 6: Parasitology

Chapter 6.1 General Parasitology ***	445
Chapter 6.2 Intestinal Amoebae, Free-living Amoebae and Balantidium Coli ****	450
Chapter 6.3 Flagellates ****	460
Chapter 6.4 Plasmodium Species and Babesia ****	474
Chapter 6.5 Coccidian Parasites ***	490
Chapter 6.6 Cestodes and Trematodes ***	497
Chapter 6.7 Nematodes ****	515

Section 7: Applied Microbiology

Chapter 7.1 Clinical Microbiology (Infective Syndromes) *****	539
Chapter 7.2 Hospital Acquired Infection, Biomedical Waste, Needle Stick Injury, Environmental Surveillance (Air, Water and Surface) *****	559
