Logbook Foundation Course and AETCOM

The second edition of *Logbook of Foundation Course and AETCOM* is prepared for Indian Medical Graduates (IMG) as per the latest curriculum of Competency-Based Medical Education (CBME). It focuses on all the aspects of the Foundation Course and AETCOM modules. This logbook will help to maintain a record of activities and provide adequate feedback to the students about their understanding of the subject through:

- **450 multiple choice questions (MCQs)** for assessing acquired knowledge and skills for a smooth transition to higher education to increase academic confidence and personal and professional growth
- **150 short-answer questions** to focus on the main components of the topics, enhance critical thinking, and test the retention of knowledge
- **Mind mapping and reflection** on topic to develop critical thinking and problem-solving ability and facilitate active learning.
- QR code-based "**eSmartQuiz—Online MCQ test**" reinforces learning, assesses understanding and retention of concepts, and identifies areas needing further revision or clarification.

This logbook will effectively assess the subject matter's comprehension for enhancing attention, critical thinking, and positive attitude in IMG.

Yogesh Sontakke MBBS MD (Anatomy) is Additional Professor, Department of Anatomy, Jawaharlal Institute of Postgraduate Medical Education and Research (JIPMER) (An Institute of National Importance under the Ministry of Health and Family Welfare, Government of India), Puducherry, India. He is a compassionate teacher admired by the students for chalk-and-board teaching. He is also a leading medical illustrator and known for stunning illustrations. His affection toward academics is reflected in his well-read books: *Principles of Clinical Genetics* (3/e), *Textbook of Human Anatomy* (Vols 1–6), *Textbook of Human Embryology* (3/e), *Textbook of Human Histology* (2/e), *MCQs and Viva Voce in Human Embryology*, *MCQs and Viva Voce in Human Histology*, *Principles of Scientific Writing*, and *Principles of Histological Techniques*, and *Immunohistochemistry and Microscopy*.
